5-5-2015 "Spit on God" God set up hidden cameras at the Vatican and watched live Pope Francis spit on "God" as Pope Francis took \$777 Trillion in BP Oil Kickbacks from the USA 1984 II Numb Nuts Dictators who watch everyone on hidden cameras but don't use Homeland Security to save her life, 40K Breast Cancers started with 10 mm tumor not scanned - 19K SWF murdered by a drunk Man in 2015, not one saved with the 1984 II Numb Nuts Dictators watching her murders on cameras!

5-5-2015 Police say a University of South Carolina student has been arrested after her roommates set up a camera and caught her spitting and putting window cleaner in their food. Roommates set up the camera because they had several arguments with 22-year-old Hayley King and she refused to leave their off-campus apartment

5-5-2015 NY Times reporter David Leonhardt writes like the NY Times guy in Paris... she was pulled out of her car and shot to death... she was in the wrong place at the wrong time her wrote on the front page! No NY Times reporters mention the 2015 ElectricWindmillFord Escort!! Here we go again from David in Manhattan writing the "Timing of the data could play a role. To study adult earnings of children, researchers need to go back a couple of decades, and New

York wasn't the same place in the 1980s and 1990s as it is today. Crime was far worse. Many people believe the public schools were worse, too. Low-income children who grow up in Manhattan make less money as adults than similar low-income children who grow up elsewhere. The same is true for comparisons of middle-income and affluent children. Perhaps not surprisingly, given that we work at a publication with New York in its name, we've heard from a few readers who want to understand the pattern. But \$50,000 is still less than the roughly \$55,000 that an otherwise similar affluent child would earn on average if he or she grew up in a typical city, according to the data from Mr. Hendren and Raj Chetty, also a Harvard economist. Their findings are based on analyzing earnings records of more than five million people who moved as children in the 1980s and 1990s."

5-5-2015 Mr. Hendren and Raj Chetty, also a Harvard economist. Their findings are based on analyzing earnings records of... leaving out Pope Francis got \$777 Trillion that would have gone into Mandatory University Education in Manhattan + NYU Medical Students paid more than West Point Cadets!

5-5-2015 David writes at the end of his article... The bigger questions are about the future of children who grow up in the bottom half of the income distribution, many of whom will struggle to establish prosperous, healthy lives as adults.

5-5-2015 David left out... 1 Trillion Electric Windmill Ford Escorts that came off the assembly lines in 1980 to today!! This is a "Cardinal Sin" by David at the NY Times! Could God have your entire life recorded on hidden cameras, Yes!!

5-5-2015 By VINDU GOEL and RANDAL C. ARCHIBOLD MAY know about security cameras + hidden cameras yet left this out of the article... worse is they left out 1,001 Invention Projects as it looks like the Treadmill needs some safety rails or other type of invention design to keep you from falling on your head... Mr. Goldberg left his room around 4 p.m. on Friday, collapsed while exercising and died of head trauma and blood loss, said the spokesman. His brother, Robert Goldberg, found him on the floor of a gym at around 7 p.m., with blood around him. The spokesman said it appeared "he

fell off the treadmill and cracked his head open."
