First French Republic proclaimed on the 21st September 1792. King Louis XVI was tried by the National Convention and executed in January 1793. His consort, Queen Marie Antionette followed her husband to execution in October of the same year. Louis XVI is the only King of France ever to have been executed, and his death brought an end to more than a thousand years of continuous French monarchy. This single event is regarded as having ushered in the lawlessness and persecution of what many referred to as the reign of terror.

5-9-2015 "The Price of Nice Nails" Manicurists are routinely underpaid and exploited, and endure ethnic bias and other abuse, The New York Times has found. By SARAH MASLIN NIR NY Times... The women begin to arrive just before 8 a.m., every day and without fail, until there are thickets of young Asian and Hispanic women on nearly every street corner along the main roads of Flushing, Queens. As if on cue, cavalcades of battered Ford Econoline vans grumble to the curbs, and the women jump in. It is the start of another workday for legions of New York City's manicurists, who are hurtled to nail salons across three states. They will not return until late at night, after working 10- to 12-hour shifts, hunched over fingers and toes.

The screenshot shows a web browser window with a red header. The article is titled "French Nuclear Model Falters" and is categorized under "ENERGY & ENVIRONMENT". The byline reads "By DAVID JOLLY and STANLEY REED MAY 7, 2015". The main text begins with "PARIS — For decades, France has been a living laboratory for atomic energy, getting nearly three-quarters of its electricity from nuclear power — a higher proportion by far than in any other country." To the right of the text is a photograph of a nuclear reactor under construction, with a large crane and various pipes and structures. Below the photo is a caption: "A nuclear reactor under construction in Flamanville, France. Last month imperfections were discovered in the steel used to make the caps of the main reactor vessel. On the left side of the article, there are social media sharing options for Email, Facebook, and Twitter, along with a "Save" button and a "More" link. A small box labeled "FAR FROM THE MADDING CROWD" is also visible. On the right side of the browser window, there is a vertical sidebar with the text: "Earthquake China has 100 Nuke Power Plants running today and will ask for your donation when one is destroyed by a earthquake!". The browser's address bar shows "ENERGY & ENVIRONMENT | French Nuclear Model Falters". The Windows taskbar at the bottom shows various application icons and the system tray with the time "10:00 AM".

Laying the groundwork for what they said would be a new era of scientific cooperation, leaders of European and American particle physics initiatives signed an agreement at a White House ceremony on Thursday to share the spoils of their research in the coming decades.

Scientists and diplomats said the deal — signed by the Department of Energy, the [National Science Foundation](#) and [CERN](#), the [European Organization for Nuclear Research](#) — allows the
