2-27-2015 Wikipedia, the free encyclopedia on the Proton + Sun goings on does not brainstorm at all about GRAVITY in

the Sun. What generated Gravity... so think about this every second of the day and you might get a "Windmill" discovery + a Nobel, grin. 90% of cases are caused by exposure to ultraviolet radiation from the sun. This exposure increases the risk of all three main types of skin cancer. The Proton of light is a hadron composed of three quarks, two up quarks and one down quark. Gluon fields that bind the quarks together as they spin. The molecules of Sunscreen absorb high-energy ultraviolet protons and release the energy as lower-energy rays, thereby preventing the skin-damaging ultraviolet rays from reaching the DNA in your skin as it divides into another skin cell trillion of times a day.

Reporter On Monday, students in the Yale Center for  
Engineering Innovation and Design displayed rockets,  
telescopes and rovers to kick off Yale's third annual  
Engineers Week. The week includes discussions about Women  
in STEM, an undergraduate organization exposition, a  
career panel and a Google information session, among  
others. This year, the week is hosted for the first time by the  
new undergraduate organization Catalyst at Yale, which  
acts as an umbrella organization for many undergraduate  
engineering organizations. According to Isabella  
Quagliato, the program manager at the Yale School of  
Engineering and Applied Sciences, past Engineers Weeks were  
led by graduate students or administration officials like  
herself. Student organizer Catherine Brock '16, who had not  
heard of Engineers Week until she began organizing the  
programming, said that in past years, those running the  
week had difficulty reaching out to students

2-27-2015 HELL NO WE WON'T GO... get into the New Key West Ambulance at \$950 a ride!! Commissioner Mark Rossi calls the fees "pretty high," and is concerned that Key West is going to get stuck with a lot of unpaid tabs. Rossi said he sees ambulances making calls all the time on Duval Street, where he owns a complex of businesses. He knows that often they arrive only to be turned away, known as a non-revenue run. "You're running your equipment to a person who's going to refuse service. Who pays for that?" Rossi asked fire department heads at the Feb. 18 meeting at Old City Hall. No ambulance transport means no fees charged, Perez said. BY GWEN FILOSA Citizen Staff gfilosa@keysnews.com The City of Key West is a month away from moving emergency medical services in-house via the fire department and still needs to decide what to charge. "We have a time frame here," said City Commissioner Tony Yaniz. "By April 1, we must be on the horse." Proposed rates start at \$14.50 per mile, which would be the highest mileage rate in the Florida Keys and more than Broward County charges. A "basic life support" (BLS) call would cost \$600; an "advanced life support, level 1" (ALS1) call would cost \$750; and an "advanced life support, level 2" (ALS2) call would cost \$950. "This is what I was scared about in the very beginning," Rossi said. The city must know how much it could cost when writing off payments that the uninsured or indigent can't pay for, Rossi and other commissioners say. Commissioner Billy Wardlow recommended giving locals a break on EMS fees, which Mayor Craig Cates said he would support unless it calls for raising taxes. "The money, we all know, has to come from somewhere," Cates said.

Published today in the journal PAIN. One in every three women undergoing a mastectomy could potentially be spared chronic post-operative pain if anesthesiologists used a regional anesthetic technique in combination with standard care, according to a new study. Sadly, One in every three women undergoing a mastectomy the pain these women experience can be so severely debilitating that it may require treatment by a pain specialist and pain killers! Standard care for mastectomies is a general anesthetic, whereby anesthesiologists use gas to keep the patient asleep and narcotics to control pain. Up to 60 per cent of women may experience chronic pain three months after they've had the surgery and at least half of those will still suffer from this pain one year later. "Sadly, the pain these women experience can be so severely debilitating that it may require treatment by a pain specialist and pain killers," said Dr. Faraj Abdallah, lead author of the study and an anesthesiologist at St. Michael's Hospital. The regional anesthetic technique Dr. Abdallah examined when added to standard care - called ultrasound-guided paravertebral blocks- is similar to a dental freeze. Trained anesthesiologists use a local anesthetic to freeze nerves in the breast area. Paravertebral blocks allow excellent pain control immediately after surgery and help with long-term pain reduction. "Six months after breast cancer surgery, we found that women who received paravertebral blocks immediately before their mastectomies had more than 50 per cent lower risk of developing chronic pain compared to those who received standard care," said Dr. Abdallah, who is also an assistant professor in the Department of Anesthesia at the University of Toronto. The study, published today in the journal PAIN

From Wikipedia, the free encyclopedia

**Joseph Mallord William Turner**, RA (baptised 14 May 1775<sup>[a]</sup> – 19 December 1851) was an English Romanticist landscape painter, water-colourist, and printmaker. Turner was considered a controversial figure in his day, but is now regarded as the artist who elevated landscape painting to an eminence rivalling history painting.<sup>[1]</sup> Although renowned for his oil paintings, Turner is also one of the greatest masters of British watercolour landscape painting. He is commonly known as "the painter of light"<sup>[2]</sup> and his work is regarded as a Romantic preface to [Impressionism](#). Some of his works are cited as examples of abstract art prior to its recognition in the early twentieth century.

YALE University THIS DAY IN YALE HISTORY 1965 A group of Yale professors gathers to discuss the University's standards for tenure after three history of art professors are dismissed shortly before qualifying. Mr. Turner the Movie needed some Flash Forwards to his Art Gallery in London Today. Era of working 24/7 painting I tried to get Mary to write a page with me after the Movie. She wanted to know why no Sir Mr. Turner. I said he was painting not having tea with the Queen and she got MAD as Hell and didn't make him a Sir. Like Sir McCartney, grin. I plan on working 24/7 and told Mary. She Smiled. At the end of the Movie... Did Mr.*

Turner say "The Sun is God" or "The Sun is Gold" sound production in this movie was not state of the arts so everyone could make out what he said. Gossip from the womens room, grin. Turner died in the house of his lover Sophia Caroline Booth in Cheyne Walk in Chelsea on 19 December 1851, and is said to have uttered the last words "The sun is God". I told Mary the Sun will get more "GodSent" inventions from Mary's inspirational powers on Gregs ability to find the "Windmills" in the goings on in the Sun + Stars!

Driver gets 10 years for deadly crash

BY ADAM LINHARDT Citizen Staff alinhardt@keysnews.com A Miami man charged with manslaughter in a fiery head-on crash in Islamorada that killed a woman was sentenced to a decade in prison Tuesday. Didier Kichner Miles, 26, pleaded guilty to DUI manslaughter, DUI with serious bodily injury, two counts of DUI with property damage and one count of leaving the scene of an accident as part of a plea

agreement with prosecutors. Circuit Judge Luis Garcia then sentenced Miles to 10 years in state prison followed by five years probation. Miles was also ordered to complete DUI School, complete 50 hours of community service -- 10 hours of which must be speaking at schools regarding the dangers of drinking and driving -- a 10-day vehicle impoundment, consume no alcohol while under supervision and pay restitution to the victims, said State Attorney Catherine Vogel. Miles drivers license was also permanently revoked. "This was a terrible tragedy," Vogel said. "This young man was friends with the victim and her family. This is an example of how dangerous it is to drink and drive." Assistant State Attorneys Demetrios Efstratiou and Erika Isidron prosecuted the case. Kristine Marie Rivera, 22, a passenger in the car Miles was driving, was killed in the crash. Florida Highway Patrol described the deadly May 2013 crash and the events leading up to it as follows: Rivera initially was driving a Honda Element and rear-ended another Honda at Mile Marker 85.1, south of Snake Creek Bridge. Miles reportedly offered the other driver cash, but it was declined. So they left, with Miles now driving the Element. He reportedly sideswiped another vehicle while leaving that scene. Miles continued north over the bridge and into Islamorada, where he apparently lost control and hit a taxi, which caught fire. Responding law enforcement officers quelled the blaze. Taxi driver Charles Akullian was seriously injured in the crash. Both Rivera and Miles were airlifted to Miami. He later turned himself into law enforcement. U.S. 1 was closed for five hours in both directions while troopers worked to clear multiple crash scenes.

1984 II Numb Nuts Dictators look into the purse of the 1984 III Women MD Dictators and find \$777 Trillion to send adult dancers to a Medical School. Yale Key West Med School never thought of being built by our 1984 II Numb Nuts!

"Passed-out driver jailed for drugs in purse" CITIZEN STAFF A Key Largo woman was jailed after she was found passed out

behind the wheel of her running car Monday on Sugarloaf Key with a purse filled with illegal drugs, the sheriff's office said. When asked why she had all the drugs -- including morphine, cocaine and oxycodone -- the woman replied, "it was because her back hurts from being an adult dancer," Deputy Becky Herrin said Tuesday. Kayla Gregg, 23, a stripper who works in Key West, faces five felony charges of illegal drug possession. A sheriff's office deputy found her car on the side of the road at about 10:30 a.m. at Mile Marker 15 and knocked on the window to wake her up. Sgt. Ken Fricke asked for identification and said when Gregg reached into her purse he saw a plastic bag that appeared to contain marijuana, according to the sheriff's office. When asked what was inside the bag, Gregg lifted it from her purse but brought out another plastic bag with white powder on it, Fricke reported. The powder tested positive for cocaine and Gregg was arrested. Inside her purse, Fricke said he found oxycodone, morphine, Vyvanse -- a type of amphetamine -- and Tramadol, marketed as relief for pain. She also had a smoking pipe, Fricke said. Gregg remained jailed Tuesday in lieu of \$12,000 bond. When found inside the idling Pontiac Vibe on Monday morning, Gregg was behind the wheel partially dressed, Fricke said. She had one breast exposed and her skirt pulled up around her waist, the arrest report said.
