NY Times story is about "Women's Shelters" in every town and city in the USA. Same, they the 1984 II Numb Nuts of the USA built a womens shelter in every city and town for Afghan Women...

For a young woman from an Afghan village to go home after running away with a man is tantamount to crossing a busy street blindfolded: There is a strong likelihood that she will be killed for bringing shame on her family. Faheema, who like many Afghans uses a single name, was one of the lucky ones: She had made it to an emergency womens shelter.

A Thin Line of Defense Against 'Honor Killings'

Women's shelters are one of the most provocative legacies of the Western presence in Afghanistan.

3-3-2015 King Faisal Nobel in "God is Great, Death to America + Jews" by the New King of Saudi Arabia NY Times! In Saudi Arabia Dr. Naik was given the King Faisal Nobel in "God is Great, Death to America + Jews" by the New King of Saudi Arabia who walked hand in hand with Bush in his Texas Ranch right before 9/11. King Salman gave Dr. Naik his Moslem Nobel. He also received a gold medal and a cash award of nearly \$2 Trillion from the Kings \$777 Trillion from \$4 gas. Saudi watchers were unsurprised that the kingdom would honor a harsh critic of its American allies, noting that many members of the Saudi religious establishment hold similar views. "God is Great, Death to America + Jews" "If you ask them their opinions about America, they would share Zakir Naik's "God is Great, Death to America + Jews" " said Stéphane Lacroix, an associate professor at Sciences Po in Paris. "But usually they only talk about it in their closed 1984 II Society."

Tuesday, March 3, 2015 Second fatal crash on U.S. 1 BY ADAM LINHARDT Citizen Staff alinhardt@keysnews.com A fatal head-on collision Saturday was the second deadly crash on U.S. 1 in three days, according to the Florida Highway Patrol. David P. Theisen, 35, of Homestead, was killed when a 2000 Dodge Ram pickup truck he was driving struck a 2013 Honda Pilot driven by Amanda Congemi, 27, of Key Largo at 1:15 a.m. at Mile Marker 106, according to FHP reports. Theisen was reportedly driving southbound, but

in the northbound lane, when the crash occurred. Congemí was northbound. Congemí and passenger Michael Wiesberg, 19, of Pembroke Pines, were taken to Mariners Hospital where they remained in stable condition Monday with non-life-threatening injuries, said Lt. Kathy McKinney. Theisen was also taken to the same hospital, where he was pronounced dead, reports say. Theisen was believed to have been drinking prior to the crash and was not wearing a seat belt, according to the FHP. Congemí was sober and wearing a seat belt as was Weisberg, reports say. Monroe County Sheriff's Office deputies directed traffic on U.S. 1 through a nearby neighborhood while troopers worked to clear the scene. Meanwhile, the passenger in a Nissan Altima -- Chetna Saini, 26, of California -- that crashed head-on into a Ford Mustang Wednesday on the Seven Mile Bridge remained in critical, but stable, condition Monday at Ryder Trauma Center in Miami, McKinney said. The driver of the Nissan Altima, Wedner Saint Louis, 25, of Miami, was killed in the crash. The driver of the Mustang, Christal Fraundorfer, 79, and her passenger, George Fraundorfer, 81, both of Ohio, also remain hospitalized in Miami, McKinney said. Christal underwent surgery, but both remain stable, McKinney said. The crash occurred at noon near Mile Marker 42 west of Pigeon Key, closer to Bahia Honda Key than the Marathon end of the bridge. The bridge was closed until about 3 p.m. as troopers investigated the crash and cleared the scene. The crash Saturday marked the third traffic-related death in the Florida Keys this year. The first was the hit-and-run death of 29-year-old Big Pine Key resident Scott Foultz, killed Jan. 3 on Big Pine Key. He was struck on 1st Street. The FHP has yet to make an arrest in that case. The last major crash on the Seven Mile Bridge occurred in February 2010 when two people were killed in a fiery wreck following a head-on crash.

Treadmill performance predicts mortality: New formula gauges 10-year risk of dying

Analyzing data from 58,000 heart stress tests, Johns Hopkins cardiologists report they have developed a formula that estimates one's risk of dying over a decade based on a person's ability to exercise on a treadmill at an increasing speed and incline.

Several exercise-based risk scoring systems already in use are designed to measure short-term risk of dying but do so strictly among patients with established heart disease or overt

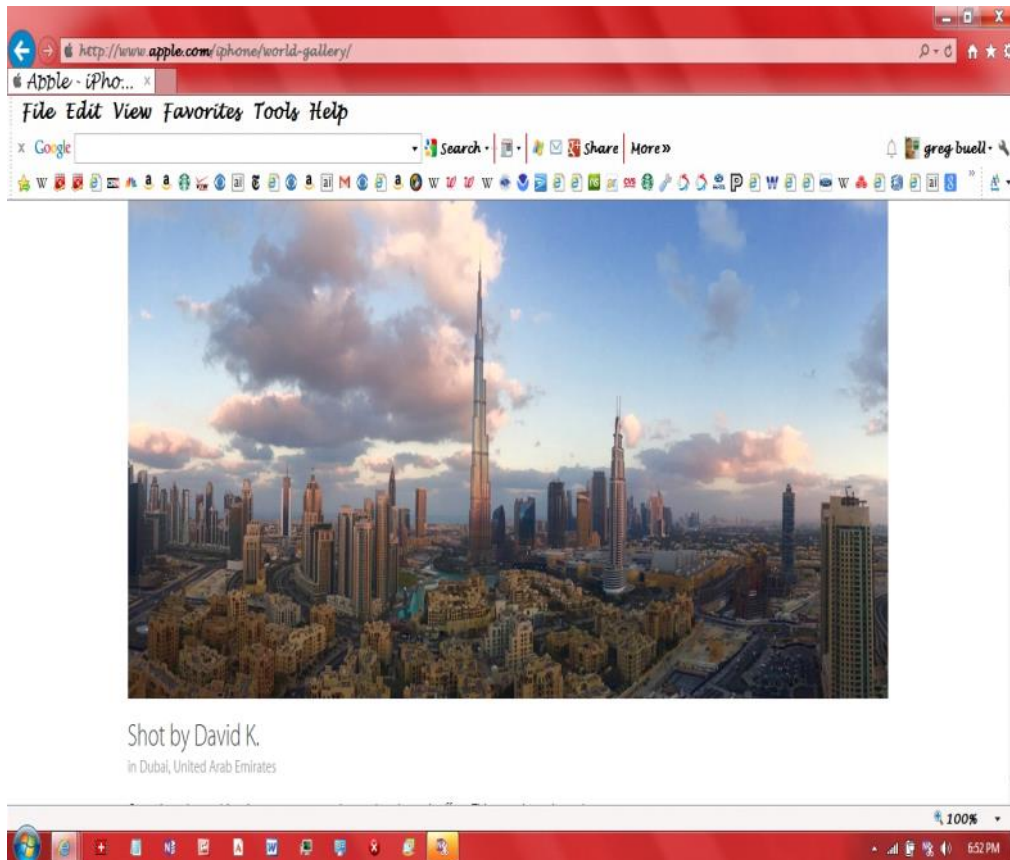

METs and peak heart rate reached during exercise were the greatest indicators of death risk. Peak Heart Rate for Greg biking up Mt. 3-1-2015 Pegasus Galaxies...

3-1-2015 Pegasus is also noted for its more unusual galaxies and exotic objects. Einstein's Cross is a quasar that has been lensed by a foreground galaxy. The elliptical galaxy is 400 million light-years away with a redshift of 0.0394, but the quasar is 8 billion light-years away. The lensed quasar resembles a cross because the gravitational force of the foreground galaxy on its light creates four images of the quasar. Stephan's Quintet is another unique object located in Pegasus. It is a cluster of five galaxies at a distance of 300 million light-years and a redshift of 0.0215. First discovered by Édouard Stephan, a Frenchman, in 1877, the Quintet is unique for its interacting galaxies. Two of the galaxies in the middle of the group have clearly begun to collide, sparking massive bursts of star formation and drawing off long "tails" of stars. Astronomers have predicted that all five galaxies may eventually merge into one large elliptical galaxy
