*5-21-2015 Another Morning's News from the Key West Citizen
+ New York Times.. "Waco biker defiant about negative
stereotypes" by Ines Novacic. God is Dead on the Front Page of
the NY Times during Vietnam Era is still kept alive by Kerry +
McCain. Negative stereotyping of the Universe by the Key West
Citizen + New York Times is obvious! They fail us in a
Universe who's "Gravity" had not been discovered as Front
Page News! 92 Trillion Years from now the Universe will still
shine yet the Front Page News from Key West Citizen has a
1984 II made up Orwellian story of OJ yes a black guy with a
young white girl named Amber holding a Florida Lottery
Check for \$1 million. NY Times has ISIS win without the 1980
Electric Windmill Ford Escort secret weapon never used to send
the Moslems to Hell in 1980. Then we get this "Waco biker
defiant about negative stereotypes" by Ines Novacic. I know
Ines would write about bisexual men defiant about negative
stereotypes without writing about the MS virus they have*

given to millions of SWF and will give to another million SWF in 2016 if Obama is not charged with being defiant about OJ with Syphilis and giving it to others... as a negative stereotype. Obama has never mentioned the MS Virus, syphilis + black men giving it to others yet this is more of a stereotype than prostitutes overcharging, on your Key West vacation. Grin. Living Dolls charged \$6K on the front page of the Key West Citizen and they forget to write the guy makes \$600,000 a year. Donald Trump on the front page of the NY Times pays prostitutes \$20 he would sue for defamation, grin. And Lose as its on 1984 II video's! Grin. Verizon's Recording of all calls made by the Rich + Famous will be made public by the 4 MD Wives Coup... Janice Dickinson sued Bill Cosby for defamation on Wednesday, alleging the comedian falsely called her a liar after she publicly claimed that he sexually assaulted her 35 years ago. Obama will meet at the White House with Bill Cosby not Janice Dickinson and the other women. This is not a negative stereotype of Obama but one that lets us "White's" point out that your Black MD that just graduated from Yale Med School this week didn't really Pass but will really kill thousands of patients via misdiagnosis and using his "Home Remedy," he was passed by Caroline Kennedy's intimidation.

5-21-2015 ...Google image search of Stage 4 cancer coming through her breast by children is not allowed in schools in Key West I would think as my stereotyping of Key West Medical Education in Schools here! New England Journal Top Brass will never publish on the front Page of the Key West Citizen or NY Times the statistics of how many women in 2015 will walk into the Urgent Care Clinic looking like this women pictured!

NY Times Picture of Breast Cancer Coming Through the Skin, she would know instantaneity to finally go to Urgent Care!!

Mom will be 92 on May 26, 2015. I made a BDay card and mailed it to her yesterday... Happy BDay Mom, the Universe will be 92 Trillion Years Old Some Day... Love it! And another BDay Card hand written of course said... 92 Years in the Universe! Love it! Love Greg!

9/11 Electric Windmill Ford Escorts would have been at this 1984 II Orwellian Trial if our 1984 II dictators had made contact with Greg + Wives in Key West... "at trial there would have been open questions and gray areas that may have resulted in a hung jury," Kevin R. Ryan, a spokesman for the district attorney's office, said.

5-21-2015 Another Morning's News from the Key West Citizen + New York Times.. "Waco-biker defiant about negative stereotypes"

5-21-2015 MD's Children become MD's... stereotyped!! Basketballs are not given to MD's Children, ever, never yet all the Parents wanting to opt out of standardized Federal exams give Basketballs to their Children even before they can bounce it... things never change for the poor Children until the 4 MD Wives Coup arrest parents who give their children basketballs before they graduate from High School, as by this time the University will be Mandatory for all HS kids... The vocal, movement urging parents to have their children sit out standardized exams took off this year, maturing from scattered displays of disobedience into a widespread rebuke. This was a 1984 II Orwellian thing like in the ordinal 1984 it didn't know why his kids were failing school so he broke the mirror and found the camera! Grin! Stereotypes of Black MD's who just graduated from Yale Med School this week will be proved true via Verizon Recording made public after the 4 MD Wives Coup! Florida Lottery Commercials replaced by commercials of pancreatic cancer will only happen under a US Government lead by 4 MD Wives! Half of Apple Employee would fail the pancreatic cancer iApps and all their children would fail the Federal testing. Oh pancreatic cancer is not on Florida School exams that the Fed's require... negative stereotypes of the Feds who write these test are almost true. Google image search of pancreatic cancer by children is not allowed in schools in Key West I would think as my stereotyping of Key West Medical Education in Schools here!

5-21-2015 This NY Times story about misconduct by a surgeon is like NY Times stories on Gas Station Hold Ups... they don't mention the statistics which they could get from the Top Brass at the New England Journal of Medicine! I would guess 50% of the Medical News Stories in the NY Times are misconduct, Wine + Bacon I think of right off... HIV news never tells us of the new baby infected by them... yet the Top

Brass at the New England Journal of Medicine know these statistics.

"Inquiry Finds Misconduct by a Top Surgeon, Paolo Macchiarini" By HENRY FOUNTAINMAY NY Times An investigation in Sweden into a surgeon who is a pioneer in the field of regenerative medicine has found that he committed scientific misconduct by omitting or falsifying information about the conditions of three patients in medical journals. Dr. Bengt Gerdin, the independent investigator who looked into accusations against the surgeon, Dr. Paolo Macchiarini, said that in several journal papers, including one in *The Lancet* in 2011, Dr. Macchiarini had "omitted some data and also fabricated or falsified some data regarding the postoperative state of patients" on whom he had performed experimental groundbreaking operations. The investigation was ordered last fall by officials at the Karolinska Institute in Stockholm. As a visiting professor there, Dr. Macchiarini conducted research and operated on three patients at an affiliated hospital, removing diseased or damaged windpipes and implanting replacements made of plastic and treated with stem cells and drugs to encourage the growth of new tissue.

Two of the patients, the Eritrean man and a man from Baltimore, have died, and the third, a Turkish woman, has been hospitalized in intensive care for nearly three years.

When freed 1,001 Invention Projects on a CD and my web page

The investigation was prompted by complaints filed by four doctors involved in the patients' care, who said that the conditions of the patients were never as good as Dr. Macchiarini had claimed in the papers. The Karolinska Institute released Dr. Gerdin's report on Tuesday, but only in Swedish. An English translation should be ready by next

week, officials at the institute said, and Dr. Macchiarini and others will have two weeks to comment on the report. Then Anders Hamsten, the vice chancellor of the institute, will decide how to proceed, probably in June. The finding of misconduct was first reported by the Swedish newspaper Svenska Dagbladet on Tuesday. In an email message, Dr. Macchiarini, who has most recently been working in Russia, said he did not read Swedish and therefore was awaiting the English translation

They stereotype 1,001 Inventors reading this story left with nothing to put in Chapter One in the Hemingway Writing class today reading the NY Times there. State of the Arts accident investigation + who really caused this accident will reduce the statistics that were not published in the NY Times with this story. "Tourist From Spain Is Killed by Bus in Manhattan" By AL BAKER A 68-year-old woman visiting New York City from Spain was killed on Wednesday when a charter bus struck her as she tried to cross a street in Upper Manhattan, the police said. The woman, Wanda Canestri, was crossing Amsterdam Avenue at midblock, between 112th and 113th Streets, around 3 p.m., the police said. Her sister was with her at the time, they said. The police said the investigation was continuing but it appeared that Ms. Canestri had been walking from the west side of Amsterdam Avenue to the east side. The bus was traveling northbound on the same street. A law-enforcement official said Ms. Canestri was struck by the bus and pinned underneath it. The police said Ms. Canestri had not been a passenger on the bus, which was involved in ferrying children to the Cathedral of St. John the Divine.

Before the accident, it had been pulled over and idling in an area reserved for buses waiting to drop off or retrieve passengers. The bus, a Mercedes, remained at the scene several hours after the episode, cordoned off by police tape as officers and fire officials examined its underside. Douglas Marques, a manager at Artopolis Espresso, a bakery and coffee bar a block from the scene, said the area was particularly crowded lately because of graduation ceremonies at Columbia University. "They closed down the block pretty fast," he said. Ms. Canestri was a guest at the Millennium Hotel in Times Square, the official said. She was pronounced dead at the scene. By Wednesday night, her family in Europe had been notified, the police said. The driver of the bus passed a field sobriety test, the police said, adding that there was no apparent suspicion of criminality, though the case was under investigation by the Police Department's Collision Investigation Squad.

A woman who admitted to shoving a Hindu man off a New

York City subway platform to his death in an attack motivated by religious animus has been sentenced to 24 years in prison. The woman, Erika Menendez, was sentenced on Wednesday after pleading guilty to manslaughter for killing Sunando Sen in December 2012 at the 40th Street-Lowery Street subway station in Sunnyside, Queens. Ms. Menendez, 33, of Queens, pushed Mr. Sen off a No. 7 train platform; an oncoming train crushed him.

When freed 1,001 Invention Projects on a CD and my web page

Ms. Menendez told the police she did it because she believed he was Hindu or Muslim, groups she has hated since the Sept. 11, 2001, terror attacks. The Queens district attorney, Richard A. Brown, called the killing "every subway commuter's worst nightmare." The district attorney's office said in March that it had accepted Ms. Menendez's guilty plea to manslaughter, a lesser charge than murder, because of her "substantial psychiatric history and drug problems." Though Ms. Menendez had been deemed competent to stand trial, "at trial there would have been open questions and gray areas that may have resulted in a hung jury," Kevin R. Ryan, a spokesman for the district attorney's office, said in March.
