12-18-14 Greg Admires Mary in our 1984 II Society Hello Beautiful... Giving a stroke patient tPA cost about \$11,100. Using one of the new devices could cost \$23,000... doctors used a new type of snare to grab the clots. It is a stent, basically a small wire cage, on the end of a catheter that is inserted in the groin and threaded through an artery to the brain. When the tip of the catheter reaches the clot, the stent is opened and pushed into the clot. It snags the clot, allowing the doctor to withdraw the catheter and pull out the stent with the clot attached.

12-18-14 "This is a game changer" The three-year results suggest not only an immediate benefit for patients treated with Boston Scientific's NexStent® Carotid Stent and FilterWire EZ™ Embolic Protection System, but also a longer-term benefit in reducing the incidence of stroke over time," said Dr. Hopkins, Co-Principal Investigator of the CABERNET and BEACH clinical trials. "In particular, the CABERNET three-year trial results are very encouraging and continue to demonstrate the long-term efficacy and durability associated with Boston Scientific's NexStent Carotid Stent when used with the Company's FilterWire EZ Embolic Protection System in treating patients at high risk for carotid endarterectomy."

There, Stone also gravely wounded 17-year-old Anthony Flick, who remains hospitalized in very serious, but stable, condition after fighting off the attacker, Ferman said. Stone then went to Lansdale, where he murdered his ex-wife's mother, Joanne Hill, and grandmother, Patricia Hill, Ferman said. The spree ended with the cold-blooded killing of Nicole Hill at her apartment with the estranged couple's children nearby. Police found a cellphone with videos recorded by Stone near the body, according to local reports.
