When freed 1,001 Invention Projects on a CD and my web page

12-20-14 Christmas 1984 II thoughts, I can hear Mary's voice in my brain... As of now, there are only a handful of songs listed on Rebel Heart title of the CD, which are made available for immediate download upon pre-ordering. Those tracks include: "Living For Love" An EDM (electronic dance music) style track that features the ever-present drop in the beat. "Devil Pray" Another track that deals with religious themes—one of the singer's favorite tropes. Of the four songs available for preview (and pre-order), this is the one where producer Diplo's presence is felt the most heavily. No credits are listed as of yet, but those who know his work well (he has previously worked with the likes of M.I.A. and No Doubt) can tell almost immediately that this is his handiwork.

"Ghosttown" What can you expect from Madonna except big songs? This one is sure to be a favorite for some. Surprise!

Madonna's New Album Is Available For Pre-Order

"Unapologetic Bitch" For a long time, it has been assumed that this was the name of the new album, but now it appears

it is instead the name of a special song, one which sees Madonna looking to reggae for influence, with mixed results. The music is likely thanks to Diplo again, as he is known to be heavily influenced by all things Jamaican. Perhaps the singer has been using the hashtag #UnapologeticBitch so often because this is set to be a single? No way to tell just yet. "Illuminati" Features a spoken section, something she has definitely done before in her songs. The track relies on auto-tune for most of the sample. "I'm Madonna Bitch" Another album, another Nicki Minaj collaboration. The two previously came together for "Give Me All Your Luvn'", the lead single from her last album, which the two also performed together at the Superbowl with fellow featured artist M.I.A. Madonna has been talking about her new album for some time now, but nobody was quite ready for the music to begin coming out now. If it is indeed a full album that will be delivered on March 10th, it will be Madonna's 13th full length. It follows 2012's MDNA, which debuted at number one and was met with mixed reviews.

"Wild II" Dr. Reese Witherspoon showed her "Breast" a few times to inspire a cure for Stage 4 BC. Mary, Dr. Nancy, "Beautiful" womens lives are a lot different than Gregs. One funny scene at the Camp Ground. Coffee + Donuts served by the Ranger with "Love" just to look and talk to you Reese! God's best invention for Men who "Love" women! "Bridge of the Gods" Frost and light years to go in the cold + snow of humanities psychotic men. Heroin addiction, alcohol addiction, Orgy addictions. Dr. Reese would have cured all of these, least in some of the men who's brain MRI lite up like

she was talking with God. Mary talks to God and I'm sure Mary has saved the life of some men who really thought she was. Regrets + Flashbacks in "Wild". "Greg Quit" Reese said twice, yes she reads this web page, thank God for Beautiful Women who God talks to. greg Quit the hike and Reese is still going strong. Pun as she knows I have written every day since I was illegally evicted on 2-2-14. 11 months on Jan. 2, 2015. I have written no matter what the Key West Trail was spitting or laughing at or parading Beautiful women on Duval. One "OJ" clone on Duval spit at me across from La Te Da today. I will certainly get some revenge when the 1984 II Numb-Nutz make contact. Reese wanted Revenge for not having Dr. Oxford teach every grade and every class she was in as a young girl + women. Oxford failed us with Clinton + his wife too. As Dr. Hillary + Dr. Bill Clinton would get enough under the table... grin! Tattoo to bond with your "Lover" has to change at warp speed to "Brainstorm" a invention project for young lovers + old lovers too. Greg + Mary. Seeing Bill + Melinda refused when Reese was 20 years younger and got her first Windows computer to pre-load 1,001 invention projects. Reese only had the Tattoo influence to bond with her men. Sick what Bill + Melinda Gates did to generation after generation of school kids + if the teacher complained Bill + Melinda got them fired. wow! 1984 II Society Suppressing the Electric Windmill Car is too much "Stress" on the Rich + Famous. Yes Kennedy + Berkeley were mentioned in "Wild". No 39 Steps + the Silent Jet Engine Berkeley is trying to invent. Gravity is a bitch, when I hiked my 1,001 miles. Yes the black big toe nail is caused hiking down as gravity pushed it hard against the front of the hiking boot. Cotton works and tie the laces tight as hell so your big toe does not hit the front of the hiking boot inside. Yes Reese pulls off the big toe nail, half the audience didn't watch. wow. Well hope I get a Christmas Present from Reese and Mary to Brainstorm a few invention projects with 100's of cameras recording. And with Mary there of course, grin!

In Wild, director Jean-Marc Vallée (Dallas Buyers Club, The Young Victoria), Academy Award winner Reese Witherspoon (Walk the Line) and Academy Award nominated screenwriter Nick Hornby (An Education) bring bestselling

author Cheryl Strayed's extraordinary and inspirational adventure to the screen. After years of reckless behavior, a heroin addiction and the destruction of her marriage, Strayed (Witherspoon) makes a rash decision. Haunted by memories of her mother Bobbi (Academy Award nominee Laura Dern) and with absolutely no experience, she sets out to hike more than a thousand miles on the Pacific Crest Trail all on her own. Wild powerfully reveals her terrors and pleasures—as she forges ahead on a journey that maddens, strengthens and ultimately heals her. Director: Jean-Marc Vallée Cast: Reese Witherspoon

Using one of the new devices could cost \$23,000... doctors used a new type of snare to grab the clots. It is a stent, basically a small wire cage, on the end of a catheter that is inserted in the groin and threaded through an artery to the brain. When the tip of the catheter reaches the clot, the stent is opened and pushed into the clot. It snags the clot, allowing the doctor to withdraw the catheter and pull out the stent with the clot attached.

The text of the article discusses Mayor Anne Hidalgo's plan to ban diesel and other vehicles from the center of Paris by 2020, framing it as a public health imperative. It also mentions that if passed by the City Council after debate in February, the proposals could bring about what few other big cities have been able to accomplish: keeping a large portion of vehicles out of parts of the city center.
