12-22-14 Invigorating Christmas 1984 II... This brain story would be good Christmas Day Brainstoring conversations taking a break and looking for a Stage 4 Cure from goings on in the Brain. Neurons connect to one another to form circuits connecting certain parts of the brain, and they communicate using a chemical signal known as glutamate. But too much glutamate can cause damage; excess can spill out and excite connecting neurons in the wrong spot. In the case of age-related cognitive decline, this process damages neurons at the points where they connect—their synapses. In neurodegenerative disorders, such as Alzheimer's disease, this contributes to the death of neurons.

Madonna CD "Rebel Heart Transplants MD's" transplants girls to MD women... listen to these Madonna lyrics in gregs thoughts... wow!

When freed 1,001 Invention Projects on a CD and my web page

12-20-14 Christmas 1984 II thoughts, I can hear Mary's voice in my brain... As of now, there are only a handful of songs listed on Rebel Heart title of the CD, which are made available for immediate download upon pre-ordering. Those tracks include: "Living For Love" An EDM (electronic dance music) style track that features the ever-present drop in the beat. "Devil Pray" Another track that deals with religious themes—one of the singer's favorites tropes. Of the four songs available for preview (and pre-order), this is the one where producer Diplo's presence is felt the most heavily. No credits are listed as of yet, but those who know his work well (he has previously worked with the likes of M.I.A. and No Doubt) can tell almost immediately that this is his handiwork.

"Ghosttown" What can you expect from Madonna except big songs? This one is sure to be a favorite for some. Surprise! Madonna's New Album Is Available For Pre-Order

"Unapologetic Bitch" For a long time, it has been assumed that this was the name of the new album, but now it appears it is instead the name of a special song, one which sees Madonna looking to reggae for influence, with mixed results. The music is likely thanks to Diplo again, as he is known to be heavily influenced by all things Jamaican. Perhaps the singer has been using the hashtag #UnapologeticBitch so often because this is set to be a single? No way to tell just yet. "Illuminati" Features a spoken section,

something she has definitely done before in her songs. The track relies on auto-tune for most of the sample. "I'm Madonna Bitch" Another album, another Nicki Minaj collaboration. The two previously came together for "Give Me All Your Lovin'", the lead single from her last album, which the two also performed together at the Superbowl with fellow featured artist M.I.A. Madonna has been talking about her new album for some time now, but nobody was quite ready for the music to begin coming out now. If it is indeed a full album that will be delivered on March 10th, it will be Madonna's 13th full length. It follows 2012's MDNA, which debuted at number one and was met with mixed reviews.

Tattoo to bond with your "Lover" has to change at warp speed to "Brainstorm" a invention project for young lovers + old lovers too. Greg + Mary. Seeing Bill + Melinda refused when Reese was 20 years younger and got her first Windows computer to pre-load 1,001 invention projects. Reese only had the Tattoo influence to bond with her men. Sick what Bill + Melinda Gates did to generation after generation of school kids + if the teacher complained Bill + Melinda got them fired. wow! 1984 II Society Suppressing the Electric Windmill Car is too much "Stress" on the Rich + Famous. Yes Kennedy + Berkeley were mentioned in "Wild". No 39 Steps + the Silent Jet Engine Berkeley is trying to invent. Gravity is a bitch, when I hiked my 1,001 miles. Yes the black big toe nail is caused hiking down as gravity pushed it hard against the front of the hiking boot. Cotton works and tie the laces tight as hell so your big toe does not hit the front of the hiking boot inside. Yes Reese pulls off the big toe nail, half the audience didn't watch. wow. Well hope I get a Christmas Present from Reese and Mary to Brainstorm a few invention projects with 100's of cameras recording. And with Mary there of course, grin!

In Wild, director Jean-Marc Vallée (Dallas Buyers Club, The Young Victoria), Academy Award winner Reese Witherspoon (Walk the Line) and Academy Award nominated screenwriter Nick Hornby (An Education) bring bestselling author Cheryl Strayed's extraordinary and inspirational adventure to the screen. After years of reckless behavior, a heroin addiction and the destruction of her marriage, Strayed (Witherspoon) makes a rash decision. Haunted by memories of her mother Bobbi (Academy Award nominee Laura Dern) and with absolutely no experience, she sets out to hike more than a thousand miles on the Pacific Crest

Trail all on her own. Wild powerfully reveals her terrors and pleasures—as she forges ahead on a journey that maddens, strengthens and ultimately heals her. Director: Jean-Marc Vallée Cast: Reese Witherspoon

12-18-14 Greg Admires Mary in our 1984 II Society Hello Beautiful... Giving a stroke patient tPA cost about \$11,100. Using one of the new devices could cost \$23,000... doctors used a new type of snare to grab the clots. It is a stent, basically a small wire cage, on the end of a catheter that is

inserted in the groin and threaded through an artery to the brain. When the tip of the catheter reaches the clot, the stent is opened and pushed into the clot. It snags the clot, allowing the doctor to withdraw the catheter and pull out the stent with the clot attached.

12-18-14 "This is a game changer" The three-year results suggest not only an immediate benefit for patients treated with Boston Scientific's NexStent® Carotid Stent and FilterWire EZ™ Embolic Protection System, but also a longer-term benefit in reducing the incidence of stroke over time," said Dr. Hopkins, Co-Principal Investigator of the CABERNET and BEACH clinical trials. "In particular, the CABERNET three-year trial results are very encouraging and continue to demonstrate the long-term efficacy and durability associated with Boston Scientific's NexStent Carotid Stent when used with the Company's FilterWire EZ Embolic Protection System in treating patients at high risk for carotid endarterectomy."

12-17-14 Mary the Wives Inspiration... The carnage began around 3:30 a.m. Monday in Souderton, where cops say Stone, armed with a gun and a "cutting object," killed his ex-wife's sister, Patricia Flick, her husband, Aaron Flick and the couple's 14-year-old daughter, Nina Flick. There, Stone also gravely wounded 17-year-old Anthony Flick, who remains hospitalized in very serious, but stable, condition after fighting off the attacker, Ferman said. Stone then went to Lansdale, where he murdered his ex-wife's mother, Joanne Hill, and grandmother, Patricia Hill, Ferman said. The spree ended with the cold-blooded killing of Nicole Hill at her apartment with the estranged couple's children nearby. Police found a cellphone with videos recorded by Stone near the body, according to local reports. She would tell anybody who would listen that he was going to kill her and that she was really afraid for her life." Stone served in the Marines between 2002 and 2008 and deployed at least once to Iraq. He suffered from post-traumatic stress disorder... via killing 1,001 women + children in Iraq.
