12-3-14 give me some insight...

When freed 1,001 Invention Projects on a CD and my web page

An additional 216 kilos of cocaine worth an estimated \$7.1 million was off loaded Tuesday in Mayaguez, Puerto Rico.

While on a routine patrol, the crew of a Joint Interagency Task Force South (JIATF South) patrol aircraft detected a go-fast vessel south of Haiti heading north at 15 knots with fuel barrels and possible contraband on board, reports state.

Watchstanders from the Coast Guard 7th District Command Center directed the Argyll to intercept and conduct a boarding of the vessel. The go-fast began to jettison objects and the Argyll launched both of their small boats. Shortly after, the go-fast vessel with four suspected smugglers aboard, became compliant and was boarded by a U.S. Coast Guard law enforcement team.

The Argyll crew recovered 29 bales of contraband the suspects jettisoned into the water. All bales later tested positive for cocaine. The smuggling vessel was destroyed as a hazard to navigation.

In a separate case, the Coast Guard LEDET and crew of the Argyll teamed to seize 216 kilograms of cocaine worth an estimated \$7.1 million after a Dutch maritime patrol aircraft detected a suspect go-fast and vectored the Argyll to the vessel's location on Nov. 23. The go-fast vessel was stopped

and two suspects were taken into custody.
