11-18-14 "Laser Guided Cars track your eye Motion for their Motion Detection" The EyeSeeMed system does not require eye-tracking glasses to be worn, but instead detects where the eyes are pointing using remote cameras. Looking at specific buttons on the screen for a few seconds works like a click to select that option, while other basic head motions, like tilting left and right, can be used to navigate through radiological images.

Hawking has a motor neuron disease related to amyotrophic lateral sclerosis (ALS), a condition that has progressed over the years. He is almost entirely paralysed and communicates through a speech-generating device. He married twice and has three children. Hawking's marriage had been strained for many years. Jane felt overwhelmed by the intrusion into their family life of the required nurses and assistants. The impact of his celebrity was challenging for colleagues and family members, and in one interview Jane described her role as "simply to tell him that he's not God."

When freed 1,001 Invention Projects on a CD and my web page

Hawking's views of religion also contrasted with her strong Christian faith, and resulted in tension. In the late 1980s Hawking had grown close to one of his nurses, Elaine Mason, to the dismay of some colleagues, caregivers and family members who were disturbed by her strength of personality and protectiveness.

When freed 1,001 Invention Projects on a CD and my web page

Hawking told Jane that he was leaving her for Mason, and departed the family home in February 1990. Following his divorce from Jane in the spring. In 2006 Hawking and Elaine quietly divorced, following which Hawking resumed closer relationships with Jane, his children and grandchildren.

When freed 1,001 Invention Projects on a CD and my web page

Reflecting this happier period, a revised version of Jane's book called *Travelling to Infinity, My Life with Stephen* appeared in 2007.

When freed 1,001 Invention Projects on a CD and my web page

That year Hawking and his daughter Lucy published *George's Secret Key to the Universe*, a children's book designed to explain theoretical physics in an accessible fashion and featuring characters similar to those in the Hawking family.

When freed 1,001 Invention Projects on a CD and my web page

The book was followed by sequels in 2009 and 2011. Also in August 2014, Hawking accepted the Ice Bucket Challenge to promote ALS/MND awareness and raise contributions for research. As he had had pneumonia in 2013, he was advised not to have ice poured over him, but his children volunteered to accept the challenge on his behalf.

Many people with hearing loss opt out of using hearing aids because of their discomfort, poor performance, or simply compliance. This is probably even more common when the person is at home and would like to relax and crank up the TV. Others in the home may not be as hot about hearing the TV on full volume, a cause for inevitable domestic fights the world over.
