155 Story Eiffel Tower Structure for the Yale Paris + Yale NYC Medical Schools! Laser Guided too! Your Thoughts if you are a Neurologists... In a Hemingway House Writing Class in Key West. Chapter on the 155 Story Yale Paris Medical School built on an Eiffel Tower Structure in 2 Chapters, many elite spoilers!

Yale Key West Medical School, today on an Eiffel Tower Structure! Greg flew into Key West with \$777 Trillion! UN 9-11... UN will be rebuilt as a Yale Med School on a Eiffel Tower Structure! 155 stories

Sheesh, draw attention to the Yale Key West Medical School, should be built today on an Eiffel Tower Structure! Greg flew into Key West with \$777 Trillion to build a Yale Key West Medical School on March 4 2011 Today is October 14 2014. Picture in your mind 10 Eiffel Tower Structures touching, 55 stories high. This is the Yale Key West Medical School. UN in NYC will be rebuilt as at Eiffel Tower Yale Medical School 155 stories high as the UN took \$777 Trillion of a USA Godsent and gave it to Mecca for kickbacks in Swiss Banks

Hippocampus is were your minds video of Mary B. Elite Yale Key West Med School will give us 100% use of Our Memories! The entorhinal cortex is commonly perceived as a major input and output structure of the hippocampal formation, entertaining the role of the nodal point of cortico-hippocampal circuits. Superficial layers receive convergent cortical information, which is relayed to structures in the hippocampus, and hippocampal output reaches deep layers of entorhinal cortex, that project back to the cortex. The finding of the grid cells in all layers and reports on interactions between deep and superficial layers indicate that this rather simplistic perception may be at fault. Therefore, an integrative approach on the entorhinal cortex, that takes into account recent additions to our knowledge database on entorhinal connectivity, is timely. We argue that layers in entorhinal cortex show different functional characteristics most likely not on the basis of strikingly different inputs or outputs, but much more likely on the basis of differences in intrinsic organization, combined with very specific sets of inputs. Here, we aim to summarize recent anatomical data supporting the notion that the traditional description of the entorhinal cortex as a layered input output structure for the hippocampal formation does not give the deserved credit to what this structure might be contributing to the overall functions of cortico-hippocampal networks.

Your Thoughts if you are a Neurologists... In a Hemingway House Writing Class in Key West.

10-16-14 Hygiene (which comes from the name of the Greek goddess of health, Hygieia), is a set of practices performed for the preservation of health. Whereas in popular culture and parlance it can often mean mere 'cleanliness', hygiene in its fullest and original meaning goes much beyond that to include all circumstances and practices, lifestyle issues, premises and commodities that engender a safe and healthy environment. While in modern medical sciences there is a set of standards of hygiene recommended for different situations, what is considered hygienic or not can vary between different cultures, genders and etarian groups. Some regular hygienic practices may be considered good habits by a society while the neglect of hygiene can be considered disgusting, disrespectful or even threatening.

10-16-14 "Medicine + 1984 II Society" by Greg Lovestars, me! 1,001 Nobel's in Medicine have been lost by the Top Brass MD's at the New England Journal of Medicine. We everyone

can point to a few things the Top Brass MD's at the New England Journal of Medicine did to lose Society 1,001 Nobels a Year, every Year since the 1980 invention of the Electric Windmill Ford Escort!

Freedom Tower and then your kids die from (childhood cancers + birth defects) in "Holocaust II Poison Gasoline Exhaust" in Times Square. BP Oil men are the Oil Men Terrorists who fire bombed cop cars too!

Researcher adds to evidence linking autism to air pollutants by Kathy Quirk

A researcher at the University of Wisconsin-Milwaukee (UWM) has added to a growing body of evidence that links autism to air pollutants such as those generated by cars and trucks.

Amy Kalkbrenner's study, published this week online at the journal Epidemiology, showed that pollution's impact on autism rates in North Carolina is similar to results of pollution-autism studies in California - despite weather and climate differences between the two states.

In addition, the work of Kalkbrenner and her colleagues, building on previous studies, showed that women in the third trimester of pregnancy were more susceptible to the damaging effects of air pollution on their unborn child.

"It adds another piece supporting the hypothesis that environmental chemicals are part of the autism puzzle," says Kalkbrenner, an assistant professor in UWM's Joseph J. Zilber School of Public Health. Autism, a spectrum of disorders affecting interpersonal relations and work achievement, now affects some 1 in 68 children in the U.S. Yale School of Medicine's revenue is calculated separately from New Haven Hospital. However, YNH provides financial support to many School of Medicine departments and co-invests in recruiting new faculty or launching new programs to provide destination medical care. According to the YSM's budget data for fiscal 2014 obtained by the News, medical services had been budgeted to bring in \$635,465,000. In reality, those services - which include over 1,000 practicing physicians as part of Yale Medical Group - brought in nearly \$30 million more at \$664,981,000, which shattered the actual revenue of \$580,053,000 brought in during fiscal

2013. According to the YSM's budget data for fiscal 2014 obtained by the News, medical services had been budgeted to bring in \$635,465,000. In reality, those services – which include over 1,000 practicing physicians as part of Yale Medical Group – brought in nearly \$30 million more at \$664,981,000, which shattered the actual revenue of \$580,053,000 brought in during fiscal 2013.

10-15-14 iApp Greg needs ASAP is Madonna's "Rays of Light" Photons and can they carry New Songs from Aliens light years down range?

10-15-14 Guglielmo Marconi, 1st Marquis of Marconi (Italian: [ɡu?lmo ma?ko?ni]; 25 April 1874 - 20 July 1937) was an Italian inventor and electrical engineer, known for his pioneering work on long-distance radio transmission[1] and for his development of Marconi's law and a radio-telegraph system. He is often [quantify] credited as the inventor of radio, and he shared the 1909 Nobel Prize in Physics with Karl Ferdinand Braun "in recognition of their contributions to the development of wireless telegraphy".[2][3][4] An entrepreneur, businessman, and founder in Britain in 1897 of The Wireless Telegraph & Signal Company (which became the Marconi Company), Marconi succeeded in making a commercial success of radio by innovating and building on the work of previous experimenters and physicists.[5][6] In 1929 the King of Italy ennobled Marconi as a Marchese (marquis).

10-15-14 New York: Stay connected to NY Dept of Health for video Messages of sex diseases "Rats" at 1984 II HQ Alerts 24/7. You get their GPS route around NYC to avoid newly infected people they came into contact with. 1984 II Big Brother is not a MD watching out for you NOT to catch a STD.

10-15-14 New York: One night in December, Guglielmo woke his mother up and invited her into his secret workshop and showed her the experiment he had created. The next day he also showed his work to his father, who, when he was certain there were no wires, gave his son all of the money he had in his wallet so Guglielmo could buy more materials.

When freed 1,001 Invention Projects on a CD and my web page

10-15-14 Greg needs to buy a Apple MacBook Pro + iPhone 6 + for laser guidance for the Rx Cure of aggressive breast cancer as this cancer isn't on "Key West Time" our Diseased 1984 II Numb Nuts Dictators are! On Yes wifi for Key West via Apple's high speed wifi routers, free... log on with your Apple ID and password.

In the summer of 1895 Marconi moved his experimentation outdoors. [14] After increasing the length of the transmitter and receiver antennas, arranging them vertically, and positioning the antenna so that it touched the ground, the range increased significantly. [15] Soon he was able to transmit signals over a hill, a distance of approximately 2.4 kilometres (1.5 mi). [16] By this point he concluded that with additional funding and research, a device could become capable of spanning greater distances and would prove valuable both commercially and militarily. Marconi wrote to the Ministry of Post and Telegraphs, then under the direction of the honorable Pietro Lacava, explaining his wireless telegraph machine and asking for funding. He never received a response to his letter which was eventually dismissed by the Minister who wrote "to the Longara" on the document, referring to the insane asylum on Via della Lungara in Rome.
