6-1-14 UN Says A Quarter for your Thoughts if you are a Neurologists as it has become possible to understand, in much detail, the complex processes occurring within a single neuron. Neurons are cells specialized for communication. They are able to communicate with neurons and other cell types through specialized junctions called synapses, at which electrical or electrochemical signals can be transmitted from one cell to another. Many neurons extrude long thin filaments of protoplasm called axons. NY Times Front Page Today Sunday... NSA is collecting trillions of axons, neurons... NO WAY... "N.S.A. Collecting Millions of Faces From Web Images" By JAMES RISEN and LAURA POITRAS. James, Laura + Mandy Miles should write something at the Hemingway House for what the N.S.A needs to collect to save the Earth from Numb Nuts Dictators who breath in "Poison Gas Exhaust" which has caused "Psychotic Greed" for another \$777 Trillion from Oil + Gas Revenues! To Hell with Particles in the air, not even the NSA collects these for the front page of the Sunday New York Times. I these poison gas exhaust particles were on the front page today in place of the clips of people what would happen to the Quarter for your thoughts... they would be worth \$777 Trillion!
