6-14-14 Helicopters Overhead Today! "Windfall" from the "Oil
Gods" Holocaust II. After a long history of wars and
sanctions, Iraq re-emerged as a critical source of oil \$ in
2014. Mounting Iraqi production helped to ease world oil
prices despite the tightening restrictions on Iran and
tanking exports from Libya. Poison Gas Exhaust News has not

been LEAKED on the front page of the NY Times because of the Pentagon + Numb Nuts Baby Killers as these Vets let kids + babies + pregnant women breath in DIRTY AIR for Iraqi Oil Revenues in 2014... What does this Say About Their Personality... Psychotics, only Top Brass at the Pentagon would put dirty gas exhaust in the air for kids to breath in every day! UN would say this is a Crime Against Humanity but the UN Employees get a kickback in perks... wow! Electric Windmill Ford Escort Helicopter Combines + Heavy Lift Helicopters for Ambulance Pick up!

6-14-14 MIT poison gas exhaust in the air at MIT Campus! 4 MD Wives Coup D'Etat after MIT gets Polygamous Marriage Made Legal will we breath clean air visiting MIT Labs on Campus!

6-14-14 MIT Seeing through walls has been a fantasy for many of us since childhood, but while the rest of us grew up, researchers at MIT are now doing things previously thought impossible. While they still don't have the technology to literally see through walls, researchers of the NETMIT group at MIT's Computer Science and Artificial Intelligence Lab, are using WiFi signals to detect the breathing and heart rate of individuals in a room. They've just released a couple videos showing off the technology in action. Here's a demo of a child's respiratory rate and heartbeat being detected from the captured WiFi signals bouncing around the room. 6-14-14 Helicopters Overhead Today! "Windfall" from the "Oil Gods" Holocaust II. Electric Windmill Ford Escort Helicopter Combines + Heavy Lift Helicopters for Ambulance Pick up! Rockefeller, 65, flew his single-engine Piper Meridian

turboprop from the airport shortly after 8 a.m. today in fog. The aircraft came down less than a mile away, striking trees and missing a home by about 20 feet (six meters), police and airport officials said. U.S. safety agencies are investigating. "The plane was broken into pieces, and some pieces were lodged in pine trees," Anthony Marraccini, police chief of Harrison, New York, said in an interview. "Some of the main fuselage remained intact." Rockefeller was a great-grandson of John D. Rockefeller, who amassed a fortune after co-founding Standard Oil Co. in 1870 and later focused on charitable giving. Richard Rockefeller celebrated his father's 99th birthday yesterday at a dinner, said Fraser Seitel, a family spokesman. An experienced pilot, he flew yesterday to the Westchester County airport in White Plains, about 30 miles (48 kilometers) north of New York City.

Sophocles wrote 123 plays during the course of his life, but only seven have survived in a complete form: Ajax, Antigone, The Women of Trachis, Oedipus the King, Electra, Philoctetes and Oedipus at Colonus. [3] For almost 50 years, Sophocles was the most-fêted playwright in the dramatic competitions of the city-state of Athens. Among Sophocles' earliest innovations was the addition of a third actor, which further reduced the role of the chorus and created greater opportunity for character development and conflict between characters. [5] Aeschylus, who dominated Athenian playwriting during Sophocles' early career, followed suit and adopted the third character into his own work towards the end of his life. [5] Aristotle credits Sophocles with the introduction of skenographia, or scenery-painting. It was not until after the death of the old master Aeschylus in 456 BC that Sophocles became the pre-eminent playwright in Athens. [2] Thereafter, Sophocles emerged victorious in dramatic competitions at 18 Dionysia and 6 Lenaia festivals. [2] In addition to innovations in dramatic structure, Sophocles' work is also known for its deeper development of characters than earlier playwrights.
