*6-27-14 Altered States of Consciousness... Elite brain tissue
"Claustrum" DNA's Watson + Crick would give their Nobel to
discover the Gluon Fields and Spinning Quarks the brain +
gravity! Francis Crick and Christof Koch have compared the
claustrum to the conductor of an orchestra. The different
parts of the cortex must play in harmony or else the result is
a cacophony of sounds instead of a beautiful symphony. The
claustrum may be involved in widespread coordination of
the cerebral cortex, using synchronization to achieve a
seamless timescale between both the two cortical hemispheres
and between cortical regions within the same hemisphere,
resulting in the seamless quality of conscious experience.*
