When freed 1,001 Invention Projects on a CD and my web page

7-10-14 Local Key West News by Greg Buell Lovestar. Starbucks turn off the Electricity for the 1 plug in outlet so all week 5 to 7 days now I only had one hours internet connections to write and research via serendipity the Rx Cure for Breast Cancer. If I can sue them for Stifling the Cure for Breast Cancer after George Orwell II makes contact I will. Can you hear the Supreme Court, you are suing Starbucks for Stifling the Rx Cure for Breast Cancer! Key West Sunset Celebration turned off their wifi too. This is were I logged on, by were the Carnival Ships dock. Add insult to injury a cop not in uniform from Key West told me I was stealing electricity as I had my Acer plugged in. Cops I said I'm working on a cure for cancer, cop said unplug it or go to JAIL. Acer PC. Note Greg must remember is No Electric Windmill Ford Escort gift for this Key West Cop!! Revenge will be Sweet. Gregs best revenge for the Top Brass Pedophiles will be getting the Over

Night Miracle Godsent Cure for Breast Cancer. \$300 trike repair bill, the axil broke off on a back wheel. Had this fixed at Island Bikes, going to order a New Trike soon I hope \$800 with super heavy duty bearings etc. And Solid Rubber tires as I have had 15 -20 bike flats costing \$13 each since I flew into Key West with \$777 Trillion on 3 -4 -11. I had to buy a 2 wheel bike to bike around the island as Roosevelt Construction is immoral as several bike riders and car crash victims are dead or in pain for Need Less Road Construction. No temporary Sidewalks or any high tech Traffic Control Advances here things you would find in Miami Road Construction. Over Pass for bikes and foot traffic etc. This is a Crime by the Road Construction Crew who only work 5 hours a day 3 days a week! Wow One other thing is Samuels House spending \$12K on 14 cameras. Elmira Leto will never read this story at Samuels House Key West unless someone who reads this web page tells her about... A Texas man was charged with capital murder on Thursday after appearing at the house of his estranged wife's relatives disguised as a FedEx driver and gunning down a married couple and four of their children. Homeland Security will pay for this in Hell as they know all they do today is guard the Social Security Office in every town and city in the USA costing us \$3 Trillion and coasting women 19K murdered in 2014 as Homeland Security "Spitz" on these murders, Saudi Terrorists and lots of cash perks from \$777 Trillion George Orwell II has from the suppression of the Electric Windmill Ford Escort Homeland Security pay check is a scam! Deadly Scam for 19K women Murdered in 2014.

7-10-14 \$3 Trillion spent by Cornell for this... We discovered that fine-grained patterns of neural activity within the orbitofrontal cortex, an area of the brain associated with emotional processing, act as a neural code which captures an individual's subjective feeling," said neuroscientist Adam Anderson, associate professor of human development in Cornell's College of Human Ecology and senior author of the study, "Population coding of affect across stimuli, modalities and individuals," published online in the journal Nature Neuroscience. iApp for the Gas Lobotomy was not preinstalled in Cornell's Win 8.2 fix. Grin!

7-10-14 Their findings offer insight into how the brain

represents our innermost feelings - what Anderson calls the last frontier of neuroscience... last frontier of neuroscience... last frontier of neuroscience... last frontier of neuroscience... when 19K SWF will be murdered in 2014 Cornell College of Human Ecology writes in Elite Medical Journals and it will cost you \$50 to read it, grin.

But it also releases pollutants and a terrible odor that affects surrounding neighborhoods

7-10-14 A synapse is a structure that permits a neuron (or nerve cell) to pass an electrical or chemical signal to another cell.

7-10-14 A electrical synapse, the presynaptic and postsynaptic cell membranes are connected by special channels called gap junctions that are capable of passing electric current, causing voltage changes in the presynaptic cell to induce voltage changes in the postsynaptic cell. The main advantage of an electrical synapse is the rapid transfer of signals from one cell to the next

Scientists have found in preliminary studies that they can sharpen some kinds of memory by directly recording, and stimulating, circuits deep in the brain. Unlike brain imaging, direct brain recording allows scientists to conduct experiments while listening to the brain's internal dialogue in real time. Epilepsy is one of medicine's great mysteries. The seizures that characterize the disorder are caused by electrical storms in the brain.
