<http://appleinsider.com/> Apple on Sunday aired a new iPhone commercial focusing on the handset's ability to help parents teach, interact and connect with their children through various apps, some of which include connected smart home solutions. With the September time frame expected to delivery a plethora of new and refreshed products from Apple, an increasing number of the company's current offerings are seeing sporadic but significant price cuts like today's: \$300 discounts on both a 13 - and 15 -inch MacBook Pro; \$90 off 32GB WiFi + AT&T iPad Airs, two iMacs for under \$1000.

6-30-14 Local Key West News Today, Gypped... the verdict is not in yet! Greg had to buy a Taxi Cruiser from Eaton Bikes, yesterday after my rear wheel broke off my Miami Sun Trike. \$175 \$197 with tax and of course the Chase Bank trimmed out the 1st time. Chase will not allow two \$197 charges thank God as Verizon did this to 1 Trillion Customers on Purpose to Gyp them... Verizon gets \$ Billions from the gov. spy program so they can get away with this, except at Chase! Well move all my junk to Car. Loaded down used Taxi Beach Cruiser to much, had to carry the Acer Notebook over my shoulder this morning to Starbucks. Just finishing up at Starbucks and no Hotel Checking as I used the bathroom. 6-29-14 Local Key West News on this Sunday in Paradise is  
Greg's right rear wheel on my 3 wheel Sun bike broke off. 3  
years ago I bought the bike at Island Bikes. 1 Year in Key  
West I biked around the Island 2 times a day 1.2 hrs each  
time. Then the Roosevelt Construction and had to stop biking  
around the Island. So I have to check the ads and bike  
shops. Will rent one to get my cooler and bags back to my

car. wow!

6-29-14 Local Key West News on this Sunday in Paradise is I read the Front Page of the New York Times and notices the price \$6. wow! Is this \$6 worth one invention I would get reading it...? I read the Key West Citizen in Walgreens for the Mandy Miles Tan Lines article. Mandy goes into a melt down on a women tourists ask her if her Tan Lines was a advice column. No... then Mandy gives advice about not being in the line at McDonalds 4 mins before the breakfast menu changes to lunch menu. And does not name the bank that charges \$8 to cash a check drawn on their bank if you don't have a account. So I didn't buy the paper. Well have to work in Warp Speed Mode today getting a new bike and getting my cooler and bags back to my car. 1 mile from were I broke down. I licked the bike to a sign and the free wheel ha.

6-29-14 Local Key West News on this Sunday in Paradise Starbucks is part of the Crowne Plaza Key West-La Concha and there are no Rest rooms as the door is locked for employees only others have to go out on Duval and walk down to the Crowne Plaza Key West-La Concha Hotel Valet Parking and go in that way. Well yesterday I did this with my Acer Notebook over my shoulder and Starbucks cup in had and the Black Valet parking guy asked if I had a receipt... NO showing him the Starbucks Cup. No, I said I have to go... I'm 66 I will get the receipt tomorrow... ok, he let me go finally just in time!

*6-29-14 Fourth new cutter arrives in Key West. BY ADAM LINHARDT Citizen Staff alinhardt@keysnews.com Dr. Katrina Firlik in her 7 years of Medical School never bought a Windows PC with 1,001 Invention Projects for Dr. Neurology to mix Rx's and links to invent new Rx's as this would have influenced Dr. Katrina Firlik. These 7 Years at Los Alamos were wasted on the 2015 Model Nuke's instead of letting the Neurology Dept crunch Rx in new recipes! Lost his mind I would say, the 1984 II Numb Nuts Dictator we have! These 7 years the Navy spent \$777 Trillion on Orders for New War Toys... not Star Ships to travel to the 52 Nearest Stars! Coast Guard Station Key West is filling up fast. Command staff took ownership last week of the newest 154-foot Fast Response Cutter, the Raymond J. Evans, from representatives from Bollinger Shipyards. "It's always a great feeling to moor up at Sector Key West," said commanding officer Lt. Drew Cavanagh. "It's a great operational platform. We're ready to continue the legacy -- the legacy of Raymond Evans." The new 154-foot Sentinel class ships are replacing the older 110-foot cutters that are being phased out of service. In Key West, that included the Pea Island (now decommissioned), Kodiak Island (now in service in North Carolina), Knight Island and Key Biscayne. The latter two remain in service in Key West for the time being. It was decided to replace them after a failed retrofit in 2004 that was plagued with structural problems. The new FRCs can cruise at 28 knots*

and sport a remotely operated 25mm chain gun, and four .50-caliber machine guns. The cutters' go-fast boats can be deployed via their sterns as opposed to the cranes used now. The 270-foot Thetis and the Mohawk will remain based in Key West, as will the 87-foot Sawfish, but the 110-footers will eventually be decommissioned or sent to another port. All the new FRCs are named after noted Coast Guard crew members who served heroically. Key West is already home to the Charles David Jr., the Charles Sexton and the Kathleen Moore, all of which arrived this year. Key West will see two more FRCs arrive in the coming months -- the William Trump and the Issac Mayo.

6-29-14 Thank God for iApple MacBook Air + Pro with 1,001 Invention Project preinstalled for Dr. Katrina Firlík in her 7 years of Medical School never bought a Windows PC with 1,001 Invention Projects...

Station Miami and station Puerto Rico will also receive six of the FRCs. Raymond J. Evans is a legend in the Coast Guard. The branch awards a medal annually to an outstanding coxswain in honor of Evans' service. Evans and a friend, Medal of Honor recipient Douglas Munro, enlisted in 1939, the same year Britain and France went to war against Germany. Munro and Evans gained acclaim for leading a rescue of a Marine unit that was trapped behind enemy lines in the battle for Guadalcanal. Munro died and Evans was awarded the Navy Cross. He would go on to retire as a commander in 1962. He died on May 30, 2013. Greg's Note the Electric Windmill Ford Escort was invented on Oct. 30 1980! 6-26-14 Descartes and Locke have struggled to comprehend the nature of consciousness and pin down its essential properties. Issues of concern in the philosophy of consciousness include whether the concept is fundamentally coherent; whether consciousness can ever be explained mechanistically;

6-26-14 Asclepius (/æskliːpiːs/; Greek: ἄσκληπιός, Asklepiós [asklɛˈpiós]; Latin: Aesculapius) was a god of medicine and healing in ancient Greek religion. Asclepius represents the healing aspect of the medical arts; his daughters are Hygieia ("Hygiene", the goddess/personification of health, cleanliness, and sanitation), Iaso (the goddess of recuperation from illness), Aceso (the goddess of the healing process), Aglaea/Egle (the goddess of beauty, splendor, glory, magnificence, and adornment), and Panacea (the goddess of universal remedy). He was associated with the Roman/Etruscan god Veiovis. He was one of Apollo's sons, sharing with Apollo the epithet Paean ("the Healer"). [1] The rod of Asclepius, a snake-entwined staff, remains a symbol of medicine today. Those physicians and attendants who served this god were known as the Therapeutae of Asclepius.

Image-guided radiation therapy (IGRT) is the process of frequent two and three-dimensional imaging, during a course of radiation treatment, used to direct radiation therapy utilizing the imaging coordinates of the actual radiation treatment plan. [1] The patient is localized in the treatment room in the same position as planned from the reference imaging dataset. An example of IGRT would include localization of a cone-beam computed tomography (CBCT) dataset with the planning computed tomography (CT) dataset from planning. IGRT would also include matching planar kilovoltage (kV) radiographs or megavoltage (MV) images with digital reconstructed radiographs (DRRs) from the planning CT. 6-25-14 "Human Consciousness" Epilepsy (from the Ancient Greek verb  $\epsilon\pi\iota\lambda\eta\mu\beta\alpha\iota$  meaning "to seize, possess, or afflict") [1] is a group of long-term neurological disorders characterized by epileptic seizures. [2] These seizures are episodes that can vary from brief and nearly undetectable to long periods of vigorous shaking. [3] In epilepsy, seizures tend to recur, and have no immediate underlying cause [2] while seizures that occur due to a specific cause are not deemed to represent epilepsy. [4] In most cases the cause is unknown, although some people develop epilepsy as the result of brain injury, stroke, brain cancer, and drug and alcohol misuse, among others. Epileptic seizures are the result of excessive and abnormal cortical nerve cell activity in the brain. [4] The diagnosis typically involves ruling out other conditions that might cause similar symptoms (such as syncope) as well as figuring out whether any immediate causes are present. Epilepsy can often be confirmed with an electroencephalogram (EEG).

Not all cases of epilepsy are lifelong, and a substantial number of people improve to the point that medication is no longer needed. About 1% of people worldwide (65 million) have epilepsy, [6] and nearly 80% of cases occur in developing countries. [3] Epilepsy becomes more common as people age
