8-31-14 "Wish I Was Here..." Gravity Engine "Epiphanies" "Time Machine" and the Hemingway House Tour Guides run to circle K with their big Tips. I have a Tip for all of 1984 II, 19K women will be murdered by a drunk man (OJ) in 2014. Wish I was there among you 1984 II people!

8-31-14 "Wish I Was Here..." "Epiphanies" are relatively rare occurrences and generally follow a process of significant thought about a problem. Often they are triggered by a new and key piece of information, but importantly, a depth of prior knowledge is required to allow the leap of understanding. Famous epiphanies include Archimedes's discovery of a method to determine the density of an object ("Eureka!") and Isaac Newton's realization that a falling apple and the orbiting moon are both pulled by the same force.

8-31-14 "Wish I Was Here..." when the NY Times ok's this story... "Coverage for End-of-Life Talks Gaining Ground" By PAM BELLUCK "Wish I Was Here..." I would have told Pam, ... End-of-Life-Talks about someone winning 1,001 Nobels in Medicine a Year! This is what they lost buying State Lottery Tickets! This is the story, Lottery - lost you your end of life's few more years. This is true too!

8-31-14 "Wish I Was Here..." First public demonstration of general anesthesia was in 1846 by a Boston dentist named William T.G. Morton at the Massachusetts General Hospital. Dr. Morton gave an ether anesthetic for the removal of a

neck tumor by surgeon John Collins Warren (the first editor of the New England Journal of Medicine and dean of Harvard Medical School). About a decade later, cocaine was introduced as the first viable local anesthetic. It wasn't until the 1930s that Dr. Harvey Cushing tied the stress response to higher mortality rates and began using local anesthetic for hernia repairs in addition to general anesthesia.
