everything - Monitor the correct diagnosis and speedy Mach
speed treatment should be given to Yale Key West Medical
School. Video to Video on your Iphone6Plus with law
enforcement, as the Supreme Court will rule in 4 hours not 4
years. Job's would have been in surgery at Yale New Haven
Med School on the 2nd day he found out he had cancer.
Order from the Supreme Court to a Apple CEO. Now the
timing is right to give 7 Billion People what would have
saved Jobs life. All we need to do this is Tim Cook's Apple and
\$777 Trillion confiscated from Saudi Arabia + Mecca! And a
Supreme Court ruling that you must do this surgery or
treatment ASAP, right now to save your life Steve. What
would Steve Jobs have said on his 1st Day knowing he had*

cancer? And knowing the Supreme court ordered the best possible Med School + treatment plan to live to today?

I would put login with your Apple ID + Password leave a comment about Apple-Starbuck, Apple buying Starbucks, in Key West and giving Life in Paradise a rescue for \$5 a hour wifi 1,001 businesses sell the tourists! And don't go to Sipping Internet they named their wifi \$5 one yellow... guy must have been at the MY Lai Massacre. Pictures here...

http://en.wikipedia.org/wiki/My_Lai_Massacre The M? Lai Massacre - was the Vietnam War mass killing of between 347 and 504 unarmed civilians in South Vietnam on March 16, 1968. It was committed by U.S. Army soldiers from the Company C of the 1st Battalion, 20th Infantry Regiment, 11th Brigade of the 23rd (Americal) Infantry Division. Victims included men, women, children, and infants. Some of the women were gang-raped and their bodies mutilated.

9-10-14 9/11 and the Electric Windmill Ford Escort... Vets who did this are at City Hall USA today! 1,001 MY Lai Massacres rest are classified. Kerry raped and killed women + kids at point blank range!

9-10-14 9/11 and the iPhone 6 Plus.... Reachability will help users access otherwise unreachable screen elements on larger screens. By default, the iPhone 6 Plus takes advantage of its extra screen space to put more information on screen. Apps that previously featured only one pane of information can now offer two in landscape orientation, making the device almost feel like a tiny iPad. However, users with vision issues who were hoping that the iPhone 6 Plus would be a "large-print edition" of the iPhone needn't fret: You can set the iPhone 6 Plus to use the display like a regular iPhone 6, at which point everything on the screen is just bigger. You choose which you prefer: larger or more.

9-10-14 9/11 and the Electric Windmill Ford Escort... Apple Insider does not fit large text on its page. I have to change from Larger to med... or the text is covered on the top half... out of date on the Apple Insider Web Page is not good for Apple so anyone reading this better fix it.

9-10-14 9/11 and the One other difference Apple has pointed out is that while the iPhone 6 Plus offers optical image stabilization on its iSight (back) camera, the iPhone 6 uses digital image stabilization (see below).

9-10-14 9/11 and the iPhone 6 improves on the iPhone 5s's digital image-stabilization feature by taking four photos, each with a short exposure time and then automatically combining the best parts of each into a single image. This feature should reduce blur and noise significantly, as well as improve low-light shots. The iPhone 6 Plus adds another level of image stabilization by including optical-hardware stabilization. Based on motion data from the A8 chip and the phone's gyroscope, the lens itself actually moves to automatically adjust and stabilize images. The new iSight camera offers better video performance, as well. You can now opt to record 1080p HD video at 60 frames per second (fps) instead of 30 for smoother video. Both new iPhones also take advantage of Focus Pixels to autofocus continually as you shoot—you no longer need to tap the screen to update the focus if your subjects move—and to refocus more quickly than on previous iPhones. And you can now do slow-motion video up to 240fps with image stabilization (again, with optical stabilization on the 6 Plus).

9-10-14 9/11 and the On the software side, a new time-lapse feature in iOS 8 can automatically take photos at the interval you specify and then combine them into a movie. (This feature will be available to older phones, too.) The FaceTime HD (front) camera gets some updates, as well. A new sensor with a larger, f/2.2 aperture captures 81 percent more light, according to Apple, and offers better face detection. The FaceTime camera also inherits the iSight camera's burst mode, capable of capturing up to 10 photos per second, and it can take single-shot HDR photos, as well as HDR videos.

9-10-14 9/11 and the Electric Windmill Ford Escort... The unsubsidized prices for the iPhone 6 are \$649 for 16GB, \$749 for 64GB, and \$849 for 128GB. Unsubsidized prices for the iPhone 6 Plus are \$749 for 16GB, \$849 for 64GB, and \$949 for

128GB. Unlocked phones work only with GSM networks. (Apple currently lists unlocked versions as "T-Mobile Contract-free".) iPhone 6 models also get some new wireless capabilities. Both support 802.11ac Wi-Fi, which is up to three times faster than the Wi-Fi in the iPhone 5s. The new phones' implementation of LTE for cellular data is faster, as well, with speeds of up to 150mbps, compared to 100mbps in the 5s, and the new models support 20 LTE bands (compared to 13 previously), which Apple says is more than in any other smartphone.

9-10-14 9/11 and the A surprising and intriguing one is the keyboard. In landscape orientation, the iOS onscreen keyboard gains extra buttons along the left and right edges, featuring shortcuts, for example, for styling text and copying and pasting. (Both models gain this tweak, though the iPhone 6 Plus gets more of these extra keys.) In portrait mode, the iPhone 6 keyboard looks quite familiar—but every single key is a little bit bigger, making typing accuracy that much better, in our quick hands-on

9-10-14 9/11 Greg - Greg would like to see a keyboard on the MacBook Air + Pro of glass just like the one above on the iPhone 6 Plus but the a perfect size to take over the out of date keyboards on the MacBook Air + Pro...

9-10-14 9/11 Greg - Greg would like a full size remote control unit with the iPhone 6 Plus and the MacBook Air + Pro.

9-10-14 9/11 Greg in Key West, after the entire Apple HQ vacations in Key West on a sand bar they will give us a waterproof case that floats... I hear Apple also makes cases for the new phones? Yep, just as with most recent iPhone models, Apple's also making a collection of official Apple iPhone cases. These cases are available in both silicone and leather models, featuring multiple colors (five for the leather editions, six for the silicone models). They're available for both iPhone 6 and iPhone 6 Plus.
