9-13-14 Cook talks about Apple cofounder Steve Jobs, saying, "I think about Steve every day," a comment he made on Tuesday during an interview with ABC News' David Muir. Another interesting tidbit dropped during Rose's interview is that Jobs' office remains untouched at Apple's Cupertino headquarters. Hemingway Office in Key West is a must for Apple Employees taking a vacation to Key West to "Observe" greg in our 1984 II society... Mary B. walked by me as I locked my "Pink Trike" picture below... I didn't stop her as I left Mary B. voice mail. Make "Orwellian FBI" contact with greg so we can get started on our Polygamous Wedding and Brainstorming on a Rx Cure for Breast Cancer. Soul-Mates for the next 4 trillion years too. Nearby star known as Proxima Centauri, Proxima will burn for the next 4 Trillion Years this is right for soul-mates too. Enough time for long conversations we missed on Duval because of our 1984 Numb Nuts Dictators who have Syphilis on the brain, not Rx Cure thoughts for a Breast Cancer Cure! Steve Jobs was diagnosed with a pancreas neuroendocrine tumor. Tim Cook has enough money to build the Steve Jobs Medical School.

9-13-14 Pope Francis said... "Madness" as Pope Francis to marry 4 MD women! What if the Pope decides to save the world from WW III by getting Married to 4 MD women????????????? What if Cuba now or back then with Castro ordered all women to become MD's????????????? Cuba pledges 165 healthcare workers to combat Ebola outbreak... 1 Trillion for Breast Cancer - no one in Cuba is working on a Rx Cure for Breast Cancer. No Pope Francis is not working at all..... brainstorming with 4 MD women a Rx Cure for Breast Cancer! So these guys lost the War on Breast Cancer! Will they keep the status quo and lose WW III... Probably as I think they all have Syphilis on the brain and are in need of Dr. Katrina and her 2 nd book + movie on the Frontal Lobe between her index finger and thumb thinking about this gray matter she is swirling around between her fingers! 9-13-14 Pope Francis said... 500,000 dead USA women from Breast Cancer in 2014 and Navy built the JFK with their Race for the Cure money!

9-13-14 Pope Francis said... Italy's largest military cemetery, Vatican does not have a Breast Cancer Cemetery, Pope's don't have wives and are not inspired by holding their hand, feeling the wife's electrical inspiration as 1,001 Edison's + Nobel's have always felt about the wife's power to inspire, a Godsend!!!!

"Army is worried too many white men lead combat units" by Douglas Ernst Washington Times Today's news article did not go hand in hand with Pope Francis news for today. Washington Times and NY Times have no plans to stop the War Propaganda for WW III until oil runs out, oil money. Army Wives all over the world about 15 million know they have a better chance of getting breast cancer and the hell of surgery and the mental torture of breast cancer before they die. Yet the "Army is worried too many white men lead combat units" Top Brass have already started WW III I wonder how they "Sank NASA's Top Brass" as they the Pentagon had to kill off NASA to build a fleet of JFK's Carriers and Fighter Jets, wow! Berkeley Lab was killed off too as Time + Gravity are generated, and Berkeley with \$777 trillion can build a gravity engine.

Times Square, All these people named here knew the electric windmill car was suppressed by Kennedy + Carter! Though 13 years have passed, Yale continues to remember. At 8:30 a.m., over 100 members of the Yale community gathered at Beinecke Plaza to pay tribute to those who perished in the September 11 attacks. The event was organized through the Yale Student Veterans Council, in conjunction with Yale ROTC, and included a guest speaker, a reading of names and a moment of silence. Though over a decade since the attacks, emotions remained fresh as students, faculty, and alumni grieved for lost loved ones and fellow countrymen - including at least nine Yale alumni killed on this day. Following his address, Harnisch recalled the 3,000 people who died in the attacks and noted that at least nine were Yale alumni. He singled out two individuals - Stacy Sanders '98 and Bradley Hoorn '01 - both new employees working in the Twin Towers on the fateful day. Nine students from across the University standing solemnly alongside the memorial cenotaph then approached the microphone to read a name of a fallen Yale alumni - David Berray '84, David Berry '80, Bennett Fisher '66, Elizabeth M. Gregg GRD '77, Bradley Hoorn '01, Richard Lee '91, Charles McCrann LAW '72, Christopher Murphy '88 and Stacey Sanders '98. At exactly 46 minutes after 8 a.m. - the moment the first tower was struck - those in attendance bowed their heads for a moment of silence.
