Massive Awareness about inventing something on your BDay!
Modified vitamin D shows promise as treatment for
pancreatic cancer. A synthetic derivative of vitamin D was
found by Salk Institute researchers to collapse the barrier of
cells shielding pancreatic tumors, making this seemingly
impenetrable cancer much more susceptible... Cook will
email Salk an iApp for French "MacBook Air Ride School
Buses!"... Tim Cook... get the cure for Pancreatic cancer,
think on this One! I Phone 6 Plus will be your "Drivers

9-26-14 67 th BDay Tomorrow... analyze them 1984 II Numb Nuts as "OJ" clones with \$777 Trillion. Somewhere on Earth a kid will be left in a hot car + die when the 1980 Electric Windmill Car would have A/C 24/7 "No Head-On Collisions Inventions..." "Paris Fog" at 55 mph + no collisions, laser guided, motion detection, speed control by an iApp and other high tech invention that millions of people would have added to over the years from its "birth" in 1980. On 9-27-14 1984 II Numb Nuts Dictators world wide will be driven around in a gasoline car because they wanted \$777 Trillion instead of a car that can drive in the "Fog" at 55 mph with no crashes on the Paris Freeways!

9-26-14 67 th BDay Tomorrow... analyze no gas stations! Should have been Today, Too but for \$777 Trillion! 1 Trillion NASA Made cans of H @ -254 C will be the start of Star Travels by NASA!

9-26-14 67 th BDay Tomorrow... iApp for Kidney Dialysis Eradicated from the face of the Earth in 2015 is possible if we get to drive the 2015 Electric Windmill Ford Focus, grin. Overnight Miracle cure for Kidney Dialysis would be an executive 1984 II order, for Mandatory Organ Donation. Why Not? I have asked myself Why Not 1 trillion times and I think the makers of the Kidney Dialysis Machines are "Bad People who would leave you for dead at the Green Parrot Bar + Gas Station. These guys sucker punch the women at a gas station hold up out of spite like a "OJ" 2000 Miami sucker punching Mary B. in a gas station hold up Kidney failure typically leads to people regularly wasting a great deal of their time being tethered to a dialysis machine. Though they're life savers, dialysis machines have not kept up with much of the rest of the medical device industry in getting smaller, more portable, and easier to use. Things may be about to change, though, as a new wearable dialysis system is about to be tested in a clinical trial in the U.S. The Wearable Artificial Kidney (WAK), as it's called, looks like a disassembled traditional dialysis machine whose parts have been slapped onto to a large belt for carrying around the torso.

9-26-14 67 th BDay Tomorrow... Kids who rode the "MacBook Air Ride School Bus" will keep track of their blood like no one ever imagined, no one today ever imagined but for 4 MD women at Yale, grin. Microvisk (Denbighshire, Wales) won European CE Mark approval for the CoagMax PT/INR blood clotting analyzer that uses a novel micro electro mechanical (MEMS) component at the core of its sensor. The CoagMax uses disposable strips that have a tiny cantilever built in. By applying an electric current coming from the device, the cantilever is made to flap at a regular rate. As blood is introduced to the cantilever and is allowed to be coagulated, the CoagMax measures the frequency of the cantilever's flapping. The changing rate indicates the speed at which blood is coagulating, providing a quick and reliable measurement that can be used by to decide whether or not to take blood thinners or other drugs that may affect the blood. Though the device can probably be used professionally by clinicians, it looks like the company is aiming directly at patients that want to keep a close eye on how drugs may be affecting their blood status.

Medical Musical. Sheldon Campbell, an associate professor in
the School of Medicine, has been teaching a class through
song. During "Medical Microbiology," Campbell led the class
in renditions of "When the Saints Go Marching In" retitled
"When the Ticks Go Marching In" with lyrics adapted for the

course material. Campbell played guitar as accompaniment. His other hits include "Tuberculosis," "What Shall We Do With the Infected Patient," and "Fungi, Come Again No More."
