1-17-2016 MGM Resorts' Las Vegas Casinos to End Free Parking - Free Parking is not Free; it's the killer of 100 million little Beau's + their wives from breast cancer.

1-17-2016 MGM Resorts International announced on Friday that it would become the first major casino company in Las Vegas to end a longstanding and popular perk: free parking. The move could bring in millions of dollars annually, and transform a tourism hot spot that increasingly caters to visitors who come for expensive attractions other than gambling. MGM Resorts, the largest hotel-casino operator in Las Vegas, said it would charge \$10 or less for overnight self-parking at most of its properties on the Las Vegas Strip starting this spring. MGM Resorts has 35,310 hotel rooms and 37,000 parking spots on the Strip, which are at a premium during major events. The parking fees will be imposed at Mandalay Bay, Delano, Luxor, Excalibur, Monte Carlo, New York-New York, Vdara, Aria, Bellagio, the Mirage and MGM Grand. Valet parking will cost still more, but some parking at the Circus Circus hotel and the Crystals and Mandalay Bay Place shopping centers will still be free. The company did not provide details on the fees, but it said that parking would be cheaper at some hotels. Those in MGM's loyalty program will be able to earn free parking rewards. The fees, though unexpected, fall in line with casinos' focus on expanding their database of gamblers through reward programs, according to Alex Bumazhny, a gambling analyst with Fitch Ratings.

In 2004, when the hotel was sold yet again, this time for \$675 million to an Israeli developer who carved up the rooms in the way that Mr. Trump had originally imagined. Half of the building was turned into condominiums, which eventually sold for a total of \$1.4 billion. . After Mr. Trump called in December for a “complete shutdown” on Muslims’ entry into the United States, Prince Alwaleed posted on Twitter: “You are a disgrace not only to the G.O.P. but to all America. Withdraw from the U.S. presidential race as you will never win.” Still not Muslim SWF sex slaves, comments from trump. Mr. Trump returned fire: “Dopey Prince @Alwaleed_Talal wants to control our U.S. politicians with daddy’s money. Can’t do it when I get elected.” That same day, Dec. 11, Mr. Trump gave a speech at a luncheon where he was heckled by protesters waving signs that read, “Stop the war on immigrant communities” and “Trump, making America hate again.” Several people were ejected from the building. The building was the Plaza Hotel. NY Times got a State of the Arts 55 Story Skyscraper out of the \$777 Trillion in Oil Revenues not a old Plaza Hotel. Kuwait Airways will operate its last flight between New York City and London on Saturday, deciding last month to drop the route after about 35 years of service rather than transport Israeli citizens between the two cities. Instead, the airline announced in December that it would drop the flights. The decision does not apply to the airline's three weekly nonstop flights between Kennedy International Airport in New York and Kuwait City. Those flights are not affected because Israelis are not allowed to visit Kuwait and are not granted visas.

1-16-2016 CERN laboratory in Switzerland say they have observed bizarre new cousins of the protons and neutrons that make up the atomic nucleus. Protons and neutrons

consist of other particles called quarks, bound by the strong nuclear force. By smashing particles at high energies, physicists have blasted into fleeting existence hundreds of other quark-containing particles. Until recently, all contained either two or three quarks. But since 2014, researchers working with CERN's Large Hadron Collider have also spotted four- and five-quark particles. Such tetraquarks and pentaquarks could require physicists to rethink their understanding of quantum chromodynamics, or they could have less revolutionary implications. Researchers hope that computer simulations

1-16-2016 Saturday Beau at Walter Reed and a Army of MD's but bullies and those pulling Rank murdered him...

1-16-2016 Researchers independently evaluated data from CrowdMed, a company whose crowdsourcing strategy involves seeking the opinions of an online community of people with a variety of educational backgrounds to make a recommendation based on the patient's self-reported symptoms as well as the laboratory and radiology studies they make available to the community. Patients and case-solvers may even interact via the Web. CrowdMed aims to provide rank-ordered suggestions that patients can discuss with their own physician rather than a single, definitive diagnosis. There is a small fee required to use CrowdMed, and patients may additionally compensate some of the online "solvers" when their recommendations are particularly helpful. "Unlike typical second-opinion programs in which a patient's record is examined in a static fashion, CrowdMed can facilitate an interactive exchange of information and advice," said Dr. Ashley Meyer, cognitive psychologist and instructor at Baylor and health services researcher at IQuEST. "For example, CrowdMed members can recommend that a patient discuss an additional test with their personal physician and if the physician agrees to obtain it, the members can incorporate additional information based on the test results into their diagnostic suggestions." In a study of 397 cases that were completed by CrowdMed over two years, Meyer and her colleagues found that 59.6 percent of patients said they had gained insights from CrowdMed that would lead them closer to a correct diagnosis and 56.5 percent said they thought they would see a decrease in medical expenses. Before turning to CrowdMed, the patients studied had been looking for a diagnosis for 2.6 years, spent a median of 50 hours researching their problems online, visited five physicians and spent \$10,000 in medical expenses. More than half (58.3 percent) of the crowd helping to solve these cases consisted of health care providers or

medical students. However, the researchers do not know which of the 397 patients received correct diagnostic suggestions in the end. For that reason, it is not currently possible to understand how useful the method is for obtaining elusive diagnoses, Meyer said. Further research needs to evaluate whether or not patients are receiving correct diagnostic advice from this method. Singh emphasized the need to study the value of diagnostic interventions, citing a recent Institute of Medicine report on missed and delayed diagnoses that concluded that everyone will likely get misdiagnosed in their lifetime.

1-16-2016 Ideally, patients diagnosed with type 2 diabetes, metabolic syndrome, or obesity would take steps to address lifestyle factors. Often, their treatment teams are disappointed when these patients fail either to improve their diets or make healthy changes patients with chronic diseases often fail to make lifestyle changes. For example, they continue to drink alcohol, stay sedentary, or smoke after myocardial infarction. Plenty of evidence shows that behavior changes can reverse cardiometabolic risk factors.

In a campus wide email, University Secretary and Vice President for Student Life Kimberly Goff-Crews and Deputy Vice President for Human Resources and Administration Janet Lindner announced that hover boards and similar items would no longer be allowed on campus, citing safety concerns with the increasingly popular devices. "Until more analysis has been done and safety standards improved, we feel it is prudent to ban [self-balancing scooters] from use on campus.

Gov. Rick Snyder of Michigan is scrambling to deal with a terrible water crisis created by his administration in the city of Flint. The damage to the nearly bankrupt city and its nearly 100,000 residents by lead-tainted water caused by corrosion in the pipes has yet to be totaled, but there is no doubt that the state has a moral obligation to provide clean water immediately for the citizens and to devise a long-term solution, no matter how costly. 1-15-2016 Flint's problems can be traced to a disastrous decision in 2014 to use water from the Flint River as the city's primary source of water for a year or two. Flint's water had for a long time been supplied by the Detroit system with water from Lake Huron. But in an effort to save money, the City Council, in 2013, approved joining a cheaper regional water system that was then still under construction. In the meantime, the city decided to draw its water from the Flint

River. The critical decision not to add chemicals to prevent corrosion of the pipes that deliver water to homes and businesses was made at the direction of the state's Department of Environmental Quality. As a result of corrosion, lead from the pipes leached into the water supply
