10-10-2015 By CHOE SANG-HUN NY Times. At a vast, highly choreographed parade through central Pyongyang on Saturday, North Korea's leader, Kim Jong-un, gave his first public speech in three years to stress his readiness to "fight any form of war" with the United States. 1984 II Dictators paint the "White House Pink" to stress the CIA disinformation, as they have no "readiness to fight the "War on Cancer!" As I wrote yesterday Jimmy Carter lost the "War on Cancer" in 1980 when he took the \$777 Trillion in BP Oil Kickbacks! 10-10-2015 Nightly News From Key West with Greg + Wives... 4 MD Wives Coup D'Etat Review: IP invention project for today... Called distributed antenna systems, or D.A.S. for short, these use a fiber connection to bring wireless service from the various network providers directly into buildings. Discrete antennas, each hidden inside a bowl-shape cover about the size of a smoke alarm, are then placed in strategic locations on each floor, distributing the signal throughout the building to eliminate dropped calls, enable faster downloads and ensure consistent coverage. Drone Cell Towers, how about this invention. Fueled by liquid H. Gravity Engine, grin.

10-10-2015 One Trillion Security Cameras in London would fail compared to listening in on a trillion cell calls, grin.

10-10-2015 One million security cameras, London is

pioneering a new area of detection, one that could be cheaper than DNA analysis and fingerprinting and relies above all on human superpowers. Scotland Yard's ever-expanding team of 152 super recognizers is made up of men and women from across the force who score at the top end of a facial recognition test originally devised at Harvard in 2009.

10-10-2015 One Trillion Security Cameras in London would fail compared to listening in on a trillion cell calls, grin. With the new iPhone 7 +++ caller ID that pops up with diseases, crimes, domestic fights, and recorded road rage cell calls to his ex... grin. Video + Audio.
