Dell will never add a "Cell Phone" Verizon or ATT to the Wifi of the XPS 15 but MacBook Pro Cell Phone will be built in soon and you will be able to connect to Verizon + ATT when you don't have the Wifi password... grin! 10-30-2015 Nightly News From Key West with Greg + Wives... London will not be getting any MacBook Pro Tread Mill Desk with Target Heart Rate iapps any time soon as the New York Times Today did a Idiots in London article... "A Most British Response to the W.H.O. Study on Processed Meats" By ALAN COWELL In the home of the full English breakfast, health warnings seem only to inspire irreverence and potential denial in scofflaws. Known as the "full English" – a

combination of bacon, sausage and egg, with ad hoc + sandwiches slathered in mayo. "Killer in the kitchen," The Sun, a London tabloid, proclaimed this week in a front-page headline above a photograph of a sausage! I will die in a London Hospital costing you \$\$\$ millions + go down with bacon sandwich in hand singing the national anthem." So many earlier alarms – over salt, alcohol, tobacco, saturated fats, sugar, butter, mercury in fish, margarine and eggs? Or red wine, which saves the heart or dooms the body, depending on your perspective? Britons in any case cherish their gallows humor as much as their bacon and eggs. "If I'd known smoking was only as dangerous as eating sausages," a writer on The Guardian's site, "I would have carried on smoking." Of course, there were far-reaching implications in the W.H.O.'s allocation of processed meat category of carcinogens, meaning that "sufficient evidence" had been found of a link with cancer. Britons will heed such advice is unclear. "I mean who cares," said another posting to The Guardian. "We're all going to die of something in the end" – sooner, it now seems, than later. Same Gallows Humor as Iraqi Oil \$\$\$ Oil Revenues Wars + BP Oils \$777 Trillion in London + Some women with cancer and others question the worth of all that pink merchandise for Breast Cancer Awareness Month. When Biden killed his own son Beau by spending \$777 Trillion on the Iraq War instead of MacBook Pro's for Brain + Breast Cancer Rx Cure!

By HIROKO TABUCHI New York Times. While some stores have announced they'll stay closed Thanksgiving Day – and REI even on Black Friday – the season is too critical for large

retailers not to match their rivals' hours.

'Star Wars' Star Travel first via hearing Jewish Aliens and
getting the Damn Rx Breast Cancer Cure are to critical for
large Universe such as ours. Hell the Milky Way Galaxy gets
less sales than Hillary! Moslem Rivals were given \$777
Trillion by Pentagon Generals. We must get a refund of all
the money to pay for the SWF sucker punched in gas station
hold ups, Ya! Black Friday the Syphilis screening at
Homeland Security should be open as the New York Times on
the Front page today only had the story of Black women have
the most Breast Cancer and rates increase every day.
Nothing about Black Syphilis. This is a Journalist Crime by
the New York Times. Lesbian kiss is front page today too but
not Black Syphilis on rise!! Gallows Humor in London has
spread to NYC.*
