BUCHAREST, Romania - Prime Minister Victor Ponta of Romania, already under pressure from a corruption inquiry, said on Wednesday that he was resigning after huge protests in response to a nightclub fire over the weekend that killed at least 32 people.

Americans of all races have seen their wages, their job options and their economic prospects and standing decline. For white Americans with limited education, that's also come with a range of economic, social and legal changes that dispatched many of the jobs they used to hold overseas and eliminated their once-almost-exclusive claim to those that remain.

Trumps Mexicans are really Chinese who killed all these middle aged White Men + Women in the Headlines along with Bill Gates + Tim Cook.

An increase in the mortality rate for any large demographic group in an advanced nation has been virtually unheard of in recent decades, with the exception of Russian men after the collapse of the Soviet Union.

*Texas Oil Men at Yale published a paper saying depression may be linked to decreased right hippocampal volume, according to a recently published study co-authored by Yale researchers.*

*Researchers from the Olin Neuropsychiatry Research Center in Hartford, the Yale School of Medicine and the University of Texas at San Antonio have found a genetic correlation between recurrent major depressive disorder and reduced right hippocampal volume. The researchers were able to locate a specific chromosome that influences both of these traits, indicating that there may be a specific gene for depression risk. They published their results in the journal Human Brain Mapping online on Oct. 20.*

CBS has announced that the new show, which comes 12 years after the end of *Star Trek: Enterprise*, will be guided by Alex Kurtzman, the man who co-wrote the films *Star Trek* (2009) and *Star Trek Into Darkness* (2013).

Internet firms will have to store details of every website visited by UK citizens in the past 12 months, under planned new surveillance laws... *Dash Cam on Laser Guided City Bus...* The woman, Carol Bell, was walking north on Sackman Street and trying to cross Fulton Street in the Broadway Junction section of Brooklyn around 6:15 a.m. when a southbound bus turned left onto Fulton, the police said. By *The New York Times*. She had just waved hello to a grocery store owner, as she did almost every morning on her way from the Magnolia House Women's Shelter to a methadone treatment program. Ms. Bell had been homeless off and on since the mid-1990s, her daughter said. Surveillance video published by NBC New York showed her waiting cautiously on the side of the street for cars to pass, and then moving across the street with the aid of her walker. There was no painted crosswalk at the intersection, but the charges indicate Ms. Bell still had the right of way. The bus stopped briefly after hitting her, and then drove off. Photos from the scene showed a crumpled walker lying in the street. *Laser Guidance is only for Navy F-35 Fighter Jets in our Era! And Submarines named Jimmy Carter, grin!*
