Pakistan! With as many as 120 warheads, Pakistan Moslems!
9/11 II + III time bombs! CIA fails in Today's editorial by the
Times Top Quarks... as they don't mention \$\$\$ BP Oil paid
for these H-Bombs. And 10 cent gas would have won the war
with Moslems, Mecca, Allah with Jimmy Carter's 1980
Electric Windmill Ford Escort. Jimmy Carter Nuclear
Submarine also has 120 Nuclear H-Bombs on board... Jimmy

Carter forgot, ha to mention this too.

4 Girls in Pakistan looking into the Apple Window see 120 Nuclear H-Bombs paid for with Pentagon \$\$\$ Patriotic money in 2015, in 2015 this \$ could have built 120 Apple-Starbucks Store's Schools!

4 in 100,000 have no chance in Hell when Pentagon \$\$\$ Patriotic money is spent on Sony Movies like "Spectre" instead of the Ultra-Apple-Starbucks Store School stocked with \$8K dollar MacBook Pro's and Rx Recipes not Girl Scout Cookie Recipes, grin!

Sunday Review "The Pakistan Nuclear Nightmare" By THE
EDITORIAL BOARD NOV. 8, 2015 With as many as 120
warheads, Pakistan could in a decade become the world's
third-ranked nuclear power, behind the United States and
Russia, but ahead of China, France and Britain. Its arsenal
is growing faster than any other country's, and it has
become even more lethal in recent years with the addition of
small tactical nuclear weapons that can reach the Cartoon
HQ in Paris!

11-8-2015 Nightly News From Key West with Greg + Wives... Barbara Broccoli reflects on the actors who have played the iconic leading man. Daniel Craig "Again, perfect for his time. We just didn't feel in a post-9/11 world that we could be as fantastical as before. Craig is more grounded. And now I don't even want to think about someone else as Bond." — Barbara Broccoli.

11-8-2015 Nightly News From Key West with Greg + Wives... Barbara Broccoli, 55 born in Los Angeles, she now lives and works in London — Ms. Broccoli has an iron-fisted reputation. She gave the job to Mr. Craig, whom she had spotted in an indie drama called "Layer Cake." "Spectre" "Barbara scares the hell out of people,"

11-8-2015 Nightly News From Key West with Greg + Wives... While Ms. Broccoli is the more aggressive partner, according to studio executives who have worked on Bond, she operates in lock step with Mr. Wilson, who got his producing start in

1977 when he helped rig underwater bombs in the Bahamas for "The Spy Who Loved Me."

"The Spy Who Loved Me." 1984 Mary in Key West the more aggressive partner in our 1984 Society in Key West watched by the Top Brass World Wide, what did Greg invent today is better than the Front Page of the New York Times most days. "Elevated" Bike Lanes. "Elevated" Bike lanes with a nice high tech star wars design would fit and Yale students can bike right into the classrooms at YALE CAMPUS all winter, grin. New York Times can picture these Elevated Bike Lanes in a Star Wars Design... on the Front Page to be the more aggressive partner. Greg is the aggressive partner in Key West trying to get the Top Brass to make contact and pay me \$777 Trillion confiscated from King Salman in Saudi Arabia as I will put 4 wives to work on a cure for Stag 4, King Salman 4 wives can't even drive a gas car let alone a gravity engine car, inspire one as the King has no desire for this from his wives, grin! Jewish Aliens + Widows in Key West are ready to make some Jewish Alien Gems to celebrate brainstorming the Hearing of Jewish Aliens at the nearest stars and of course Sandy is aggressively waiting for grains of white sandy beach in Key West to get the elevated bike path and the state of the arts Tiki hut with 100" Ultra monitors for our Beach Brainstorming after the Top Brass make contact with Greg. Yale comment of the week was Greg is coming to Yale to get a Doctor Wife... students these days can't follow George Orwell's Orders of course. Steve Jobs II + III movies rated MD will be the more aggressive partner in 007 Bond "Spectre" - Bond gets the Blond born in Paris, 30 years old. And Greg's Mary

will be 70 on Thanksgiving Day... she wants to spend \$100 million on Black Friday too. I gave her \$20. grin. I got a free movie ticket at the Regal Cinema yesterday so going to see the "Spectre" movie again today. \$9.02 now and I told the girl let me pay you the .02 cents and she said no way. So I gave her a 98 cent tip as I lose all my change every time I put it in my pocket and go into the movies. Regal Cinema needs iapps for closed captions for seniors as I missed some of the dialog I will try to pick up this time. "Spectre" MD rated would have been a better movie A++ like the iPhone 007 +++ I really think Apple should contact Barbara Broccoli about using 007 +++ for the next cell phone name! And write her some iapps for closed caption on her Bond 007 movies, grin.

11-8-2015 Nightly News From Key West with Greg + Wives... The crash of a United States Marines helicopter in Nepal in May that killed 13 people during earthquake rescue operations was most likely caused by the crew's decision to fly

the most direct route to Kathmandu, the capital, the Marines said Saturday. The UH-1 Huey helicopter took the shorter route from a village east of the capital over unfamiliar terrain "due to a real or perceived urgency" concerning the condition of the injured civilians, according to a statement by the Third Marine Expeditionary Force in Okinawa, Japan. The investigation found that it was most likely that the aircraft "was enveloped by rapidly developing clouds or lifted into a cloud by rising air currents." At that point, the investigators said they believed, the crew lost sight of the ground, leading to the crash. Six American Marines, two Nepalese Army officials and five civilians were on board the helicopter. "legal implications," and could help to determine who would compensate the families of the deceased. General Shrestha said in a telephone interview, "and they're very much aware that they're not from a rich background; they have a heartfelt feeling for them." \$\$\$ But compensation for the families was a delicate matter because any action taken by the Marines could set a precedent for future episodes, the general said. Pentagon \$\$\$ Patriotic money is not for them General Shrestha implies, grin. Jimmy Carter's Habitat for Humanity in Nepal was canceled too after he got brain cancer. No one in Nepal knows about the Jimmy Carter Nuclear Submarine that has 120 H-Bombs on board. Gravity Engine is light years from Jimmy Carter + Nepal. Gravity of falling off a mountain cliff... A Nepal ophthalmologist who pioneered a \$25 operation to remove cataracts has restored sight to more than 100,000 people... He has no idea Jimmy Carter has a Submarine with 120 H-Bombs on board... restore the sight to Jimmy Carter in Hell will be to late for 100,000 white girls in Georgia who were put to death by Bill Gates and Tim Cook.

11-8-2015 Nightly News From Key West with Greg + Wives... A century after its creation, Einstein's beautiful theory continues to inspire lofty thoughts – about black holes, supernovae, the big bang. The history of Einstein's work, however, reveals how even the most abstract scientific research can be buffeted, derailed and even propelled by the most potent force of all: politics. David Kaiser is a professor at M.I.T., where he teaches physics and the history of science. His latest book is "How the Hippies Saved Physics: Science, Counterculture, and the Quantum Revival."

11-8-2015 Nightly News From Key West with Greg + Wives... Medical Professors and Medical Students at professor at M.I.T. Medical School can write the book "How MIT MD's saved 414 Whites out of every 100,000 who were put to death by the politics of Bill Gates + Tim Cook moving jobs to China. Politics of what gets written in the New York Times is Hell. David Kaiser must have read the NY Times headlines on Pakistan building 120 H-Bombs and must know MIT is the War Toy Maker for the World. This politics of making War Toys for the World at MIT should have been in his NY Times article today. And Bill Gates + Tim Cook following orders from 1984 II Dictators to move jobs from 415 Whites to China, putting so many people in the USA to death is really a crime.

Paralysis of the diaphragm is an unusual cause of shortness of breath, though many experts suspect that it is under diagnosed. Nearly a third of those who develop this kind of paralysis have lung cancer; in these cases the tumor destroys the phrenic nerve that makes the diaphragm move. In this patient's case, the chest X-ray showed no evidence of any type of lung disease.
