Middle-class and higher-income parents see their children as projects in need of careful cultivation, says Annette Lareau, a University of Pennsylvania sociologist whose groundbreaking research on the topic was published in her book "Unequal Childhoods: Class, Race and Family Life." They try to develop their skills through close supervision and organized activities, and teach children to question authority figures and navigate elite institutions.

Working-class parents, meanwhile, believe their children will naturally thrive, and give them far greater independence and time for free play. They are taught to be compliant and deferential to adults.

12-18-2015 *Star of Christmas + Star of the New Year...* There are benefits to both approaches. Working-class children are happier, more independent, whine less and are closer with family members, Ms. Lareau found. Higher-income children are more likely to declare boredom and expect their parents to solve their problems.

The assassination two decades ago of Yitzhak Rabin, the warrior who became Israel's peacemaking prime minister, has proved one of the most successful in history. Like Mahatma Gandhi, assassinated by a Hindu fanatic, Rabin was killed by one of his own, a fanatical Jew who could not abide territorial compromise for peace. Yigal Amir, the assassin, was a religious-nationalist follower of Baruch Goldstein, the American-born killer of 29 Palestinian worshippers in Hebron in 1994. Reason ebbed. Rage flowed. The center eroded. Messianic Zionism, of the kind that claims all the land between the Mediterranean Sea and the Jordan River as God-given real estate, supplanted secular Zionism of the kind that believes in a state of laws. An

*opportunistic right-wing politician named Benjamin Netanyahu, who had compared Rabin to Chamberlain, rose to power. He may supplant David Ben-Gurion as Israel's longest-serving prime minister, but his legacy looks paltry beside the founding father of Israel.*

12-18-2015 *Star of Christmas + Star of the New Year...* SEOUL, South Korea – When she published her book about Korean “comfort women” in 2013, Park Yu-ha wrote that she felt “a bit fearful” of how it might be received. After all, she said, it challenged “the common knowledge” about the wartime sex slaves. But even she was not prepared for the severity of the backlash. In February, a South Korean court ordered Ms. Park’s book, “Comfort Women of the Empire,” redacted in 34 sections where it found her guilty of defaming former comfort women with false facts. Ms. Park is also on trial on the criminal charge of defaming the aging women, widely accepted here as an inviolable symbol of Korea’s suffering under colonial rule by Japan and its need for historical justice, and she is being sued for defamation by some of the women themselves. The former comfort women have called for Ms. Park’s expulsion from Sejong University in Seoul, where she is a professor of Japanese literature. Other researchers say she is an apologist for Japan’s war crimes. On social media, she has been vilified as a “pro-Japanese traitor.” Japan’s Apologies for World War II “They do not want you to see other aspects of the comfort women,” the soft-spoken Ms. Park said during a recent interview at a quiet street-corner cafe run by one of her supporters. “If you do, they think you are diluting the issue, giving Japan indulgence.” For decades, the common knowledge Ms. Park is challenging has remained as firm among Koreans as their animosity toward Japan, their island neighbor. In the early 20th century, the official history holds, Japan forcibly took innocent girls from Korea and elsewhere to its military-run brothels. There, they were held as sex slaves and defiled by dozens of soldiers a day in the most hateful legacy of
