2-28-2016 "Marriage Equality Grows, and So Does Class Divide" By CLAIRE CAIN MILLER and QUOCTRUNG BUI New York Times. Marriage Equality... She called the loss of her father the conclusion of her childhood. But never went to Medical School. 2-28 Pentagon worst-case scenario is the Universe's "Oldest" known stars, dating from before the Milky Way Galaxy formed, when the Universe was just 300 million years old were found near the center of the Milky Way, surprisingly pure but containing material from an even earlier star, which died in an enormous explosion called hypernova. "These pristine stars are among the oldest surviving stars in the Universe, and certainly the oldest stars we have ever seen," discovery and analysis of the nine pure stars challenges current theories about the environment of the early Universe from which these stars formed. "The stars have surprisingly low levels of carbon, iron and other heavy

elements, which suggests the first stars might not have exploded as normal supernovae," said Ms Howes. "Perhaps they ended their lives as hypernovae - poorly understood explosions of probably rapidly rotating stars producing 10 times as much energy as normal supernovae."
