<http://en.wikipedia.org/wiki/Brainstorming>

Brainstorming is a group creativity technique by which a group tries to find a solution for a specific problem by gathering a list of ideas spontaneously contributed by its members. Brainstorming was developed and coined by Alex Faickney Osborn in 1953 through the book Applied Imagination. In the book, Osborn not only proposed the brainstorming method but also established effective rules for hosting brainstorming sessions.

Brainstorming has become a popular group technique and has aroused attention in academia. Multiple studies have been conducted to test Osborn's postulation that brainstorming is more effective than individuals working alone in generating ideas. Some researchers have concluded that the statement is false (brainstorming is not effective), while others uncovered flaws in the research and determined that the results are inconclusive. Furthermore, researchers have made modifications or proposed variations of brainstorming in an attempt to improve the productivity of brainstorming. However, there is no empirical evidence to indicate that any variation is more effective than the original technique.

Nonetheless, brainstorming can be of great utility when the group accounts for, and works to minimize the group processes that decrease its effectiveness.

>> oh, my gosh. bill has been the world to me through this. i couldn't have done it without bill. even right from the beginning when we found out we had the option about mastectomy, we went in the backyard and i remember -- in typical bill fashion he pulled out a yellow legal pad and made a pros and cons list of the mastectomy. and he just -- he brought some laughter to the process, some light to it and just kept reminding me who we are as a couple and that none of this is going to break us apart or get us down or affect our love for each other. in fact it's just made it stronger.

Giuliana Rancic will undergo a double mastectomy after previous lumpectomies failed to completely eradicate her breast cancer, the E! News host announced Monday on the Today Show.

Rancic, 37, who lives in Chicago with her husband, Bill, initially underwent a double lumpectomy. She said she opted for the more radical treatment over another lumpectomy because she said she didn't want to worry about "looking over my shoulder for the rest of my life."

"It was a very hard decision to come to," Rancic told Ann Curry. "But in the end what happened was, Bill said to me, 'I just need you around for the next 50 years, kid. I don't care what you look like, I don't care about the physical portion of this, I just need you around for the next 50 years. So let's just get you healthy!'"

"I'm going to go ahead and move forward with a double mastectomy," she said.

Bill Rancic, who was by his wife's side Monday morning, said it was a big decision.

"In the one breast they weren't able to clear the margins and get all the cancer out. So we were then faced with a decision to make," he explained. "Do you go back and do another lumpectomy, and try to clean it out or do you go for a more radical procedure?"

Having children was another reason Rancic said she opted for the treatment. She said the anti-estrogen therapy involved with another lumpectomy and radiation could delay that process by years.

>> good morning to you.

>> good morning, ann. it's great to see you.

>> you look really well.

>> thank you.

>> we know that you've had lumpectomies.

>> mm-hmm.

>> but now there's a new decision, a major decision you've had to make about your treatment. what is your decision?

>> last time i was here, i told you that i was getting the double lumpectomy and radiation. now instead of radiation, i'm going to go ahead and move forward with a double mastectomy.

>> yeah, and i think when you saw in that report, the next day we were going into the doctor hoping for some good news. unfortunately, the one breast they weren't able to clear the margins and get all the cancer out, so we were then faced with a decision to make. do you go back and do another lumpectomy and try to clean it out or do you go for a more radical procedure.

>> this is a very dramatic decision. it's a drastic decision. to what degree does wanting to have children play into your decision to go for a double mastectomy.

>> that was actually a big part of it. not all of it, but a big part. if i had chosen to just do another lumpectomy and then do radiation and then do anti-estrogen therapy, which means two to five years of medication, that basically puts me into early menopause, then i would have to put off having a baby for several years. so that was something we took into account. but to be honest, at the end all it came down to was just choosing to live and not looking over my shoulder for the rest of my life.

>> . that's really what it came down to.

>> and that isn't a decision we made lightly. we talked to as many experts as we could, we got the best information available to us. one of the other factors that came into play was quality of life. if she would have gone with the lumpectomy and radiation, then you have to go in every six months for the rest of your life getting mammograms. knowing giuliana, she's going to be worrying three weeks before the mammogram, waiting for the results worrying and you're always looking over your shoulder. so i think in this particular case this was the best option for giuliana.

>> and it could have come back more aggressively next time. so for me it was just very important to get the cancer out. that's what i wanted to do is just get it out.

>> what did doctors tell you about the chance of not ever getting it back? with the double mastectomy.

>> with the double mastectomy i have less than a 1% chance of getting it back. with another lumpectomy, radiation and medication, i could have seen 20 to 30 to 40% chance in my lifetime. and for me it just wasn't worth it. and like i said -- like bill said, it was a very hard decision to come to, but really in the end what happened was, you know, bill said to me, i think this definitely got me. bill said to me i just need you around for the next 50 years, kid. that's what he said. he goes i don't care what you look like, i don't care about the physical portion of this, i just need you around for the next 50 years, so let's just get you healthy. and that certainly helps me come to the decision.

>> beyond that, what do you want to say about how important bill has been, having a spouse who is supportive, who's there for you can be in your personal and emotional survival going through all this?

>> oh, my gosh. bill has been the world to me through this. i couldn't have done it without bill. even right from the beginning when we found out we had the option about mastectomy, we went in the backyard and i remember -- in typical bill fashion he pulled out a yellow legal pad and made a pros and cons list of the mastectomy. and he just -- he brought some laughter to the process, some light to it and just kept reminding me who we are as a couple and that none of this is going to break us apart or get us down or affect our love for each other. in fact it's just made it stronger. and i couldn't be more at peace with the decision, but it was hard. and i still break down some nights, you know, when it's quiet in bed. it's easy to just start crying and be very sad. but i'm okay.

>> i know from my own family's experience that it's also hard to be the spouse. what is getting you through this, bill?

>> well, i'm focused on the finish line, and i'm thinking our goal is to be done with this by christmas time and then we don't look back. my role was to make sure that she was armed with as much information and the best information possible so she could make the right decision. and i tried to take the emotion out of it a little bit, that's why i pulled out the legal pad and we put pen to paper and when we looked at it, it made the decision i think a little bit easier because in our particular case, and i think the message here -- there's no right or wrong answer, it's an individual decision that each person has to make for themselves, but this is the right decision for giuliana.

>> i tell you, i had to see it as well. i think that was very important. when they first told me mastectomy was an option, i said absolutely not. absolutely not. i am 37 years old. i don't want to do it. because to me the word was very scary and it meant i would be disfigured. and so a very, very wonderful friend of mine who actually has been on this show, she's in an organization called bright pink, she had a mastectomy in her early 20s when she found out she had the breast cancer gene. she said not only am i going to tell you what a mastectomy is but i'm going to show you what a mastectomy is. and when i saw it and she was wonderful enough to share that with me, i thought, okay, this is okay, she looks beautiful, she's healthy, she's vibrant and doesn't regret her decision and i think that is very important. that girls, women stick together and we share our experience with each other because that helped me i think more than anything was to get to the decision was to see another woman, similar age as me, who had been through it.

>> well, we found from our website and the e-mail that we've been getting about you, that you've been helping a lot of women. so coming up in just a few moments, we're going to call in a breast cancer specialist to join this conversation and sort of see what more we can learn that might benefit other women from your own personal experience, so stand

NEW YORK, N.Y. -- As her cancer battles continues, Giuliana Rancic will undergo a double mastectomy, she announced on Monday's "Today" show.

With husband Bill Rancic by her side, Giuliana revealed she has opted for the major surgery after a previous lumpectomy was unable to rid her body of the cancer.

"For me, it was important to get the cancer out," Giuliana explained. "That's what I wanted to do -- just get it out."

The E! TV personality - who first revealed she was battling breast cancer in October -- said her desire to have children was a "big part" of her decision-making process.

"That was actually a big part of it, not all of it, but a big part," she explained to Ann Curry. "But to be honest, at the end, all it came down to was just choosing to live, and not looking over my shoulder for the rest of my life. "That's really what it came down to."

Husband Bill said he absolutely supports his wife's decision — however, it isn't a choice the couple came to easily.

"This was a decision that wasn't made lightly. We talked to as many experts as we could, we got the best information that was available to us, and I think one of the other factors was quality of life. If she would've gone with the lumpectomy and radiation, then you have to go in every six months for the rest of your life getting mammograms... and you're always looking over your shoulder," he said.

And it was that support from Bill that helped Giuliana decide on the double mastectomy.

"Bill said to me, 'I just need you around for the next 50 years, kid.' He said, 'I don't care what you look like, I don't care about the physical portion of this, I just need you around for the next 50 years. So, let's just get you healthy,'" Giuliana told Ann. "And that certainly helped me come to the decision."

Based on information from her doctors, Giuliana is hopeful the procedure will wipe out the cancer once and for all.

"With the double mastectomy, I have less than a 1 percent chance of getting it back," she noted. "With another lumpectomy, radiation, medication, I could've seen 20 to 30 to 40 percent chance and in my lifetime and for me, it just wasn't worth it."

E! talk show host Giuliana Rancic credit for being so open with her breast cancer treatment. First, she revealed that her cancer was diagnosed via a mammogram that she had before her third round of fertility treatments. Then, she spoke about her lumpectomies to get rid of the multiple growths, and now she's revealed that she's going back to the operating room to have a double mastectomy and breast reconstruction instead of radiation treatments.

"E! News" co-host Giuliana Rancic (AP Photo/Charles Sykes) In an interview on the Today show this morning, Rancic and her husband Bill revealed that her previous lumpectomy didn't remove all the cancer, so she would have needed additional surgery with the radiation. The couple opted instead for a mastectomy -- and removal of the other healthy breast.

Rancic said she went public to take the "stigma away" from the word mastectomy, which "seemed so scary" to her at first but was her ultimate decision after careful consultation with her doctors and other breast cancer patients.

Having not had the surgery yet, however, Rancic did give the impression that her recuperation would be swift, saying she hoped for a "full recovery by New Year's Eve." She also noted that she'd be having breast reconstruction at the same time as the mastectomy, a procedure called immediate breast reconstruction.

As the American Cancer Society website states, "after the first surgery, there still may be a number of steps that are needed to complete the immediate reconstruction process. If you are planning to have immediate reconstruction, be sure to ask what will need to be done afterward and how long it will take."

In general, immediate reconstruction with its longer and more involved surgery requires a longer hospitalization and more recuperation time than mastectomies alone, which could mean a few months, rather than a few weeks, of pain and discomfort. And women who opt for mastectomies usually must cope with the loss of sexual sensations in their newly constructed breasts, an issue that gets little attention in this debate.

Other celebrities have also gone public with their decisions to have double mastectomies as preventive measures. Christina Applegate, who said she carried the BRCA-1 gene mutation, had the procedure several years ago, and comedian Wanda Sykes more recently announced she had both her breasts removed after having a stage zero in situ cancer diagnosed in one breast.

For Applegate who carried a high risk of developing an aggressive tumor, a double mastectomy reduced her chances of getting breast cancer by about 90 percent.

Both Sykes and Rancic said they preferred the more radical procedure to the anxiety of having twice yearly mammograms to check for cancer. And both felt the surgery gave them a better shot at survival than alternatives like lumpectomy with radiation accompanied by regular screening. That's a notion disputed by many research studies.

As I've said before and I'll say again, I do wonder how well doctors educate women on the pain and length of time that goes into recuperation from a double mastectomy and reconstruction. I hope for Rancic's sake she really does recover fully by New Year's, but if she doesn't, she may want to do yet another interview on the realities of breast reconstruction to help other women make informed decisions.

New research casts doubt on a popular treatment for breast cancer: A week of radiation to part of the breast instead of longer treatment to all of it.

Women who were given partial radiation were twice as likely to need their breasts removed later because the cancer came back, doctors found.

The treatment uses radioactive pellets briefly placed in the breast instead of radiation beamed from a machine. At least 13 percent of older patients in the U.S. get this now, and it is popular with working women.

"Even women who aren't working appreciate convenience," but they may pay a price in effectiveness if too little tissue is being treated, said study leader Dr. Benjamin Smith of MD Anderson Cancer Center in Houston.

Results were to be reported Wednesday at a conference in San Antonio along with a more positive development: a new test that may help show which women need only surgery for a very early type of breast cancer called DCIS. The results suggest that about three-fourths of the 45,000 women diagnosed with DCIS annually in the U.S. could skip the radiation and hormone-blocking pills usually recommended to prevent a recurrence.

About 230,000 cases of breast cancer are diagnosed each year in the U.S., most in an early stage. Typical treatment is surgery to remove the lump, followed by radiation every weekday for five to seven weeks. That's tough, especially for older women and those in rural areas.

Doctors hoped that a shorter approach, called brachytherapy, would be just as good with fewer side effects. To do it, they temporarily place a thin tube into the cavity where the tumor was.

"You come in twice a day and there's a machine that puts in a radiation seed that stays there a few minutes and then you go home," Smith explained.

Treatment takes only five days and the total radiation dose is comparable to the longer method. But a smaller area — just around the lump — gets treated instead of the whole breast.

Although at least three companies sell equipment for brachytherapy, no big studies have tested its safety and effectiveness.

Researchers looked at Medicare records on 130,535 women who had lumps removed and radiation. Less than 1 percent chose brachytherapy in 2000 but that rose to 13 percent by 2007.

After accounting for differences in age, tumor size and other factors, researchers found that within five years, 4 percent of brachytherapy patients needed surgery to remove the breast where the original tumor had been versus only 2 percent of those given traditional radiation. Hospitalization, infections, broken ribs and breast pain also were more common with brachytherapy.

It remains experimental, and women who want it should join a more rigorous study of it going on now, said Dr. Peter Ravdin, breast cancer chief at the UT Health Science Center in San Antonio.

"I'm putting patients on the trial" and not recommending it otherwise, he said.

Brachytherapy costs about twice as much as standard radiation, estimated at \$10,000 to \$20,000.

Other research involves a test that measures the activity of genes that help predict recurrence risks for women with DCIS, or ductal carcinoma in situ — cancer that is confined to a milk duct. It's usually found from mammograms before it causes symptoms.

Surgery cures most cases, but about 20 percent will recur within 10 years, so doctors usually recommend five to seven weeks of radiation or years of hormone-blocking drugs.

"Although it works, it's a lot of treatment and we treat the many to benefit the few," because there's no good way to tell who can safely skip it, said Dr. Lawrence Solin of Albert Einstein Medical Center in Philadelphia.

He led a study with other researchers and the test's maker, Genomic Health Inc. of Redwood City, Calif. The company already sells a test to gauge which women with invasive cancers most need chemotherapy versus hormone-blocking medicines alone. The DCIS test uses some of the same genes.

Doctors checked its predictive value using 327 stored tumor samples. Test scores separated women into low, high and medium risk groups that reflected how they fared 10 years later. About 75 percent fell into a low-risk category that could be spared treatment beyond surgery.

"If it's right it would have significant value for patients," but this needs to be validated in a bigger study before the test is widely used, said Robert Clarke, dean for research at Georgetown University Medical Center. "It tells you how well it sorts out a population, but it doesn't tell you how good it is at putting an individual woman in the right group."

Dr. Joseph Sparano of Montefiore Einstein Center for Cancer Care in New York, who helped conduct the study, disagreed.

"Doctors are making decisions already without this information" and the test gives a valuable new clue, he said.

But an expensive one. The company will charge the same for the DCIS test as its current one for invasive breast cancer — \$4,175, which Medicare and most insurers cover, said chief medical officer Dr. Steven Shak.

The company plans to start selling it by the end of the year under federal lab rules that just require proof that the test reliably measures genes — not that this has value for patients.

The cancer conference is sponsored by the American Association for Cancer Research, Baylor College of Medicine and the UT Health Science Center.

During this stage of cell division (cytokinesis) the cell's cytoplasm divides. Here, the cells remain joined by a cytoplasmic bridge. Malignant cells divide rapidly in a chaotic manner and may clump to form tumours. They often invade and destroy surrounding tissues. Breast cancer is the most common form of cancer in women. It can be treated by surgical removal of the cancerous cells, often combined with radiotherapy and chemotherapy.

Herceptin drug and breast cancer cell. Molecular model of Herceptin (Trastuzumab), showing the molecule's secondary structure, seen as alpha helices (coils) and beta sheets (arrows). A breast cancer cell is at lower left (blue). Herceptin binds to HER2 (human epidermal growth factor receptor 2), a receptor that is over-expressed in some breast cancer cells, making them grow faster and more likely to spread. Herceptin blocks HER2, which kills the breast cancer cells. Around a fifth of breast cancers result from cells that over-express HER2, making them viable for Herceptin treatment.

French President Nicholas Sarkozy and David Cameron landed in Libya today to a heroes' welcome on, promising help for the new rulers that French and British air power helped to install and being told the favor may be repaid in business contracts. Just three weeks after rebels backed by NATO bombers overran the capital, French President Sarkozy and the British prime minister promised in Tripoli to help hunt down Muammar Gaddafi and to hand his frozen assets to his successors.

Diagnosed cases of breast cancer rose by 260 percent and those of cervical cancer by 20 percent from 1980 to 2010, with the biggest hikes occurring in developing countries, according to global estimates reported on Thursday in The Lancet. Identified cases of breast cancer around the world rose from around 640,000 in 1980, when 65 percent occurred in rich countries, to 1.6 million in 2010, of which 51 percent were among women in developing nations. Incidence of cervical cancer increased from 378,000 annually to 454,000 during this period, according to the survey of 187 countries. Breast cancer killed 425,000 women in 2010, of whom 68,000 were aged 15 to 49 in developing countries. Mortality from cervical cancer killed 200,000 last year, 46,000 of them women aged 15-49 in the poorer economies. GE CEO and Chair Jeff Immelt and several venture capital partners announced a healthymagination open innovation Challenge to fund promising ideas to improve breast cancer diagnostics. GE also will invest \$1 billion over the next five years on research and development programs to expand its suite of advanced technologies for cancer detection and treatment, beginning with breast cancer.

The \$100 million global open innovation challenge seeks to identify and bring to market ideas that advance breast cancer diagnostics. The goal is to help healthcare professionals better understand tumors associated with triple negative cancer, as well as the molecular similarities between breast cancer and other solid tumors, improving early detection, allowing for more accurate diagnoses and ultimately helping physicians make the best possible treatment decisions based on each patient's cancer. The challenge was launched in collaboration with leading venture capital firms Kleiner Perkins Caufield & Byers, Venrock, Mohr Davidow and MPM Capital. The effort will focus on data in partnership with O'Reilly Media. Challenge entrants will be evaluated by a committee of representatives from GE and venture capital partner firms. A separate, independent judging panel that includes GE executives, venture capital partners and several leading healthcare will select the recipients of the \$100,000 innovation seed grants. Winners will be announced in the first quarter of 2012.

GE is also investing in the development of a database which will consolidate clinical, pathology, therapy and outcomes data to enable analysis and further accelerate innovation. This database will be available in collaboration with leading cancer research, nongovernment and government organizations, starting with relevant cancer data from GE's Medical Quality Improvement Consortium, Clarient, a GE Healthcare Company; The Premier healthcare alliance; and the U.S. Department of Health and Human Services. New technologies GE also will launch new systems that improve screening and breast cancer diagnosis, and help physicians ensure patients receive the right therapy for their tumor type. GE announced SenoCase, portable mammography device concept that will take a traditional digital mammography system and miniaturize it into a portable unit the size of a large suitcase. GE also previewed SenoBright, Contrast Enhanced Spectral Mammography (CESM), a breast screening technique that will enable more precise identification of breast cancer incidence for more than one million women by 2020. SenoBright combines digital mammography, low- and high-level x-rays and a contrast agent to identify incidence of cancer, and helps clinicians better select patients requiring biopsy. SenoBright is currently 510(k) clearance at the U.S. FDA, and not available for sale in the U.S. Outside the U.S., SenoBright has been installed in 17 care centers across Europe and Asia. Access to care GE announced a three-year partnership with Susan G. Komen for the Cure to forge programs that bring the latest breast cancer technologies to more women in the U.S. and around the world. Initially, these programs will run in Wyoming, Saudi Arabia and China. • Wyoming: By combining mobile mammography with a digital twist to appointment bookings, GE is partnering with a number of in-state organizations to help Wyoming address the challenges associated with being one of the most rural states in the U.S. • Saudi Arabia: GE and the Kingdom of Saudi Arabia's Ministry of Health established a mutual partnership aimed at increasing access to breast cancer screening. GE will develop and deploy two mobile screening units in Riyadh City with the goal of screening 10,000 women within the first 12 months with a plan to start in October. It's also reaching out to leading universities to launch an open innovation challenge for Saudi women in an effort to identify sustainable methods for improving breast cancer screening in the country. • China: GE and partners will launch a broad outreach program later this year in the Guangdong Province aimed at raising awareness of and compliance with breast cancer screening procedures. The program will develop a local model to improve education and breast screening in rural areas.

The U.S. is trying to revive a program to prevent Libyan chemical, biological and nuclear scientists from working for terror groups or hostile nations, a State Department official said Thursday. Hundreds of experts worked in Moammar Gadhafi's weapons of mass destruction programs. After Gadhafi agreed to dismantle those programs in 2003, the U.S. launched an effort to steer Libya's WMD scientists into civilian research projects, including water desalination, oil and gas production and nuclear medicine. The effort was suspended during Libya's civil war. The official told The Associated Press that the U.S. has asked Libya's interim government to allow Washington to re-establish contact with the scientists. The official who spoke on condition of anonymity because of the sensitivity of the issue. Libya's new leaders have expressed an interest in working with the U.S. on the scientist program and other counter-proliferation efforts, the official said, but so far they have not formally responded. Bilal Saab, a Middle East expert at the Monterey Institute of International Studies, said securing Libya's weapons of mass destruction and the expertise needed to produce them is a priority for the U.S. But, Saab said, Libya's interim leaders have different concerns, including their struggle to defeat the remaining Gadhafi loyalists and unify the country.

The U.S. has sought to keep track of Libya's unconventional weapons experts during the civil war, the State Department official said, and has found no direct evidence that any were recruited to work in illicit weapons programs. In the past few days a few Libyan WMD scientists, including bioweapons experts, have re-established contact with U.S. officials. Meanwhile, the official said, Washington has worked with U.S. scientists at nongovernment groups and national laboratories to draft a list of key Libyan researchers who need to be located. Word of the U.S. effort to re-establish contact with Gadhafi's scientists came as Britain and France promised to release billions of dollars in frozen assets to the interim government and to push NATO strikes against Gadhafi's last strongholds. Gadhafi agreed to dismantle his WMD research and production programs in the wake of the U.S. invasion of Iraq and under intense economic pressure from international sanctions. After 2003, Libya surrendered its nuclear weapons-related equipment and materials, in addition to 1,300 tons of chemicals that could have been used to make nerve agent, which can kill in tiny doses. Under U.S. and Western supervision, Libya also destroyed almost 3,600 chemical bombs and about half of its stockpile of 23 tons of mustard agent. But Gadhafi never completed the process of WMD disarmament, leaving Libya with about 2,000 tons of uranium yellowcake — partly refined uranium ore —

The State Department official said that while Gadhafi provided relatively free access to his nuclear scientists and research biologists, he restricted contacts with his chemical weapons experts — to the point of assigning minders to monitor and censor interviews. Libya had extensive experience manufacturing chemical arms, using them against its southern neighbor Chad in 1987. Gadhafi's nuclear program by contrast had made limited progress and his biological weapons effort was largely confined to laboratory research. In recent years, Libya further restricted its cooperation with the U.S. in counter-proliferation programs. According to an internal State Department cable released by WikiLeaks, Libya in 2009 temporarily blocked the shipment out of the country of its last stocks of weapons-grade uranium. The cable quoted Gadhafi's son Saif saying the regime was unhappy with the slow pace and narrow scope of U.S. financial and military aid. The U.S. has run similar programs for weapons experts in Russia, Iraq and 42 other countries worldwide. Some Iraqi and Russian scientists with crucial skills have been brought to the U.S., the official said, but the program aims to find civilian work for most scientists in their homelands. The U.S. is concerned about the fate of some of Libya's conventional weapons. Gadhafi amassed as many as 25,000 portable anti-aircraft missiles, called MANPADS, before the civil war, raising concerns that the looted weapons could be used to target civilian aircraft.

News reports suggest that some unguarded caches of the mostly Russian-built mobile weapons have already been looted. The State Department recently sent a U.S. weapons disposal expert and several private contractors to Tripoli to aid in the hunt for MANPADS and other loose munitions. The U.S. is also spending \$3 million for two international weapons disposal teams to search and disable similar arms elsewhere in Libya.

Andrea Mitchell, NBC's chief foreign affairs correspondent, announced on air Wednesday that she has breast cancer, saying to other women "Screening matters. Do it." She said her cancer was caught in the "earliest stages" and she described her prognosis as "terrific." Mitchell did not say what kind of treatment she had undergone. "Mine was discovered during my annual screening just a short time ago," she said. "Luckily for me, I am one of the fortunate ones; we discovered it in the earliest stage, it hadn't spread, and I'm already back at work with a terrific prognosis." "I'm looking at this as another of life's lessons," Mitchell said. "For you women out there and the men who love you, screening matters. Do it. This disease can be completely curable if you find it at the right time."

A year after her breast cancer diagnosis, Good Morning America's Robin Roberts is at the top of her game and is playing by an amended set of rules. August 3, 2007, (40,000 women died of breast cancer in 2007, 2008, 2009 2010, 2011, and will in 2012) and then had cheered her return to daytime TV just ten days later. Among the most dramatic milestones in her recovery was in April, when she doffed her wig to reveal the re-growth of her hair. It was a visual sign that the year she describes as "tumultuous" was over. It was time to move on. "People begged me to write a book about cancer," Robin says. "I refused because cancer is nothing more than a chapter in my life story. It isn't worthy of an entire book."

Every High School kid should know every over the counter product that has acetaminophen in it. High Schools have always failed. Today Bush and his daughters bully test givers into cheating, even Yale will make headlines for cheating... changed the wrong answers on test to the right answer. Yale was infected by Oil Men who have been tossing gasoline bombs at SUV's driving down LA Freeways since 1980, Yale passed MD's who wrote the wrong answers. I'm reading Martha Gellhorn letters in Key West, today. Martha knew Karen Blixen and writes her husband who I knew a big brutal man gave her syphilis on her wedding night when she was 18, she suffered the torments of this disease and had part of her spine removed. California Dream Act guys know the exact statistics how many 18 year old women get syphilis today, there is no Dream Act to prevent these women from being tormented in California... this is sick these are sick guys who wrote the California Dream Act! Try to sue who gave you syphilis or hepatitis, you have to be rich and famous to track them down, the California Lawmakers made it this way on purpose!

20 June 2011 NBC Nightly News last night with Brian Williams had A North Vietnam General on who killed 100's in one FireFight... along with a Medal of Honor Winner who Today works at NBC who won the Medal in the same FireFight half the Troops were killed in.

20 June 2011 NBC Nightly News last night with Brian Williams... Both the North Vietnam General now 80 and the NBC Vietnam Vet holding hands hugging talking about how long the General knew in hours days before the 100's of Huey Helicopters flew into the "ambush".

The North Vietnam General knew from his Intelligence hours and days ahead of the USA helicopter attack and he set up the "ambush" plans...

This was Brian Williams news story, did we really need this on NBC Nightly News just because the one guy won the Medal of Honor from this "ambush" that killed hundreds of other USA Army troops in his company.

He save 14 guys in the "ambush" and won the Medal of Honor... the 100's of USA troops who died in this "ambush" got a death sentence!

War is Hell! This is why. Brian Williams is infatuated with this NBC employee who won the Medal of Honor!

NBC Brian Williams went on and on about these 2 old enemies now holding hands with clenched fingers and its meaning in Vietnam.

Super sentimental Brian Williams going on and on about these 2 old enemies while all the time Brian Williams at NBC Nightly News knows 100 kids in the USA sit on death row and will die in Left in Hot Cars in the Summer of 2011.

20 June 2011 NBC Nightly News last night with Brian Williams... I would guess 300 kids in Vietnam will be left in hot cars and die this summer, yet Brian Williams was BRAINWASHED by his own NBC story of 2 Old War Enemies of the Vietnam Era holding hands and hugging enjoying War Stories of the Huey Helicopters coming in for the Attack and being meet with the North Vietnam General ready and waiting for them! Brian Williams never gave it a thought that 300 kids in Vietnam will be left in hot cars to die a tortured death because he reported on this War Story! When he should of been exposing our Top Brass refusing to move kids seats to the front to save have of them from death in the Summer of 2011.

NBC Should Fire Brian Williams!

Moms of the 100 kids left in hot cars to die should send NBC email.

20 June 2011 Hundreds of FireFights and massacre's took place in Vietnam and this one on this March 16th 1968... Brian Williams NBC Nightly News yesterday only because a NBC employee won the Medal of Honor in this Firefight.

North Vietnam Generals today go along with the killing of kids left in hot cars... with no 24/7 air conditioning like the ElectricWindmillCar would have.

Mary Hemingway ended her book about life with Ernes with the realization we are more vicious than anyone could be... who can rescue us... Not Caroline Kennedy!

MARY H Some activity inside the head has accompanied my movements through space and time, producing questions without answers. I wonder how it is that *Homo sapiens* with his majestic achievements in the arts, philosophies and technologies, has paid so little attention to the preservation of his species that he continues, more vicious than almost all other animals,

destroying his own breed, for power or pride or pelf. I wonder why he underrates the uses of decency and compassion while overrating machinery and its mystiques, devoting half a billion dollars and inestimable energies to a ballyhooed handshake in the sky—Apollo-Soyuz—while fumbling its meaning on Earth's surface. I wonder how it happens that the great brains of the U.S.A. have felt so little responsibility for the lesser brains that nineteen million of us are now discovered to be illiterate; that our vaunted economies have permitted deficit spending programs to enclose us in a mighty tower built mostly of sand and false reliance on the future; that with six percent of Earth's population we heedlessly consume forty percent of its goods. Where has foresight gone?

I wonder if *H. sapiens* harbors an unrecognized, built-in self-destruct mechanism, or if scattered warnings and the Club of Rome—altruism is not charity but necessity—will serve to correct our atrocious housekeeping. Can heuristic research and global action save one-third of our planet's people from malnutrition, with damage to brain as well as body, or starvation; prevent disastrous climatic changes—deserts spreading—or arrest the pollution of oceans, rivers and air, and the damage to Earth's ozone buffer? Will twentieth-century despoilers leave anything to posterity except our sphere's—oval's—empty shell? **BP Oil \$6000**

Since the beginning of this century, man has devoured more natural resources than in all previous history. Can he or will he reverse that course? Who will instigate such global action? Are there members of our species broad enough of perception, deep enough of concern for mankind and strong enough in determination to persuade warring neighbors to live and let live and join an effort to rescue Earth? Not long ago R. Buckminster Fuller, a master in circles of such thinking, publicly reaffirmed his faith in man's capacity to adapt to changing environments, to develop new capabilities, and so to survive. "We have the option," he said, I find his cool appraisal solacing, even though an option may not imply hope.

Twenty years ago I sat alone one evening at Pauline's pool in Key West watching starlight flicker on the water and wondering how it was I got there, what unrolling skein of a life had drawn me there from northern Minnesota, a path disparate from those of my childhood friends. Our Professor Smith in Bemidji had said that the children of pioneers tend to move farther on, and most of my schoolmates had ventured farther, a day's drive or so. But few had ranged as far as I had, except in wartime service. Was I a maverick, an unintentional nonconformist? (My father had said, "Never be a sheep.")

In the gallimaufry of decisions which dictate a life's direction, which

Vicious - Kennedy wanted to kill Fidel not talk to him, today Caroline Kennedy will kill 100 kids who sit on death row in hot cars - Vicious BP Oil Men want \$177 Trillion in oil Mor

Circulating among the White House guests as we drank cocktails before dinner, I found some of the Nobel Prize winners shy but kindly, Mrs. J. Robert Oppenheimer being the liveliest and prettiest of the few wives the Prize winners had brought along. I noticed Miss Pearl Buck surreptitiously scratching notes on a pad half hidden by her dress, heard a whisper that the President had supervised the dinner seating, found a chance to tell Mrs. George Marshall how profoundly I had admired her husband before dinner was announced.

President Kennedy had seated Mrs. Marshall on his right, me on his left and Dr. Carl Anderson, a winner in physics from California, on my left. After preliminary niceties I suggested to our host that the U.S. government's position toward Cuba was stupid, unrealistic, and worse, ineffective, especially—sotto voce—since the Bay of Pigs fiasco.

President Kennedy was looking irked and impatient. As the dinner courses were changed, he turned to Mrs. Marshall. I turned to Dr. Anderson and asked, "If an enemy were to bomb this room at this moment, how much, do you think, of our technological knowledge would be lost?"

"Not very much," Dr. Anderson said. "As you may have observed, most of us fellows here are elders. All those young scientists, working away in our laboratories, already know what we learned; they'll go forward with their research."

I was pinching salt from the President's salt dish, and when he turned away for a moment from Mrs. Marshall, I said, "I could jump into Cuba, you know. The Cubans liked my husband, and I know Fidel."

"Have you read Katherine Anne Porter's *Ship of Fools*?" the President asked.

"No. I'm sorry. If I talked to Fidel . . ."

"You are rated as politically unreliable," said the President.

"You haven't checked M.I. 5," said I, and subsided. I had never been a knee-deep member of any political party. The Robert Kennedys drove me to Bill Walton's house, where I was staying.

Hemingway's foreword to Treasury for the Free World, edited by Ben Raeburn (New York: Arco, 1946), presents his opinions about the postwar world and the atomic bomb.

ORwell - Now that the wars... K. ds Hot Cars

Now that the wars are over and the dead are dead and we have bought whatever it is we have it is a good time to publish books like this.

We have come out of the time when obedience, the acceptance of discipline, intelligent courage and resolution were most important into that more difficult time when it is a man's duty to understand his world rather than simply fight for it.

To understand we must study. We must study not simply what we wish to believe. That will always be skillfully presented for us. We must try to examine our world with the impartiality of a physician. This will be hard work and will involve reading much that is unpleasant to accept. But it is one of a man's first duties now.

Universe Aliens observed

Lobotomy Gas \$4 Gal

It will be our duty, when we have sufficient valid knowledge, to disagree, to protest, even to revolt and to rebel and still work always toward finding a way for all men to live together on this earth.

Univers

It has been necessary to fight. It has been necessary to kill, to maim, to burn and to destroy. Certainly for a country whose continent has never been bombed we have done our share of bombing. We have possibly killed more civilians of other countries than all our enemies did in all the famous massacres we so deplore. There is really very little favorable difference to a man or a woman between being burned alive or stood against a wall and shot.

LAWRECKS

We have waged war in the most ferocious and ruthless way that it has ever been waged. We waged it against fierce and ruthless enemies that it was necessary to destroy. Now we have destroyed one of our enemies and forced the capitulation of the other. For the moment we are the strongest power in the world. It is very important that we do not become the most hated.

Oil Genocide Era K. ds in Hot Cars - death Row F: ERY WRECKS LA PARIS MOSCOW

It would be easy for us, if we do not learn to understand the world and appreciate the rights, privileges and duties of all other countries and peoples, to represent in our power the same danger to the world that Fascism did.

A Bomb We have invented the sling and the pebble that will kill all giants: including ourselves. It is simple idiocy to think that the Soviet Union will not possess and perfect the same weapon.

Gas Lobotomy This is no time for any nation to have any trace of the mentality of the bully. It is no time for any nation to become hated. It is no time for any nation even to swagger. Certainly it is no time for any nation to jostle. It is no time for any nation to be anything but just.

OS clones - A WAR.

In this new world all of the partners will have to relinquish. It will be as necessary to relinquish as it was necessary to fight. No nation who holds land or dominion over people where it has no just right to it can continue to do so if there is to be an enduring peace. The problems this brings up can not be examined in this foreword. But we must examine them and examine them intelligently, impartially and closing our eyes to nothing.

10 Near Stars

This book has one advantage. The various articles are not full of the knowledge after the fact of the use of the release of atomic energy. We need to study and understand certain basic problems of our world as they were before Hiroshima to be able to continue, intelligently, to discover how some of them have changed and how they can be settled justly now that a new weapon has become a property of a part of the world. We must study them more carefully than ever now and remember that no weapon has ever settled a moral problem. It can impose a solution but it cannot guarantee it to be a just one. You can wipe out your opponents. But if you do it unjustly you become eligible for being wiped out yourself.

60 women hang

In Germany our military courts have sentenced a sixty year old German woman to be hanged as one of a mob which brutally murdered American aviators who had parachuted to the ground in Germany. Why hang her? Why not burn her at the stake if we wish to make martyrs?

For the Germans know whether any sixty year old German women were ever killed by fighter pilots, on their way back from missions, coming down to strafe German villages. As far as I know we never hanged any pilots for going down on the deck and doing a little strafing. German civilians, strafed in Germany, feel much the same about it as Spanish civilians strafed in Spain by Germans or as Ameri-

can civilians would feel if the Germans had ever been able to strafe them.

Say you've been down on the deck; sometimes there were comic incidents. Often they looked comic from the air. Nothing blew up like ambulances (which proved the Germans carried munitions in them). Always plenty comic instances when you have command of the air. Comic to you, I believe in shooting up everything, myself, and getting it over with. (You shouldn't say that. That's too much like war.) But you cannot expect them not to be excited if you fall into their hands.

Air Marshal Harris is on record as to what he wished to do to the German people. We were fighting the German people as well as the German army. The Germans fought the British people as well as the British army. The German army fought the Russian people and the Russian people fought back. That is war and to fight a war any other way is playing dolls.

But the secret of future peace is not in hanging sixty year old women because they killed fliers in hot blood. Hang or shoot those who starved and beat and tortured in cold blood. Hang or shoot those who planned the war and would plan another. Hang or shoot deliberate war criminals. Deal with the S.S. and the voluntary Party members as they should be dealt with. But do not make martyrs of sixty year old women who killed in anger against force which had become so strong it no longer had any conscience or any feeling of evil doing.

To win a war you have to do things that are inconceivable in peace and that are often hateful to those who do them. That is they are hateful for a while. Afterwards some people get used to them. Some get to like them. Everyone wants to do everything, no matter what, to get it over with. Once you are involved in a war you have to win it by any means.

Oil Greed Saudi Arabia

The military, in order to maintain their status and certain safeguards of their status, would like to have war fought by rules. The air forces steadily smashed through all these rules and developed a realistic war in which nations fought nations; not armies armies.

Electric Windmill Car

9/11 An aggressive war is the great crime against everything good in the world. A defensive war, which must necessarily turn to aggressive at the earliest moment, is the necessary great counter crime. We have fought this war and won it. Now let us not be sanctimonious; nor hypocritical; nor vengeful nor stupid. Let us make our enemies incapable of ever making war again. Let us re-educate them, and let us learn to live in peace and justice with all countries and all peoples in this world. To do this we must educate and re-educate. Malcolm Cowley was one of the most influential critics in the United States and in 1944 had edited The Viking Portable Hemingway. In this letter Hemingway shares his opinions about some of his contemporaries. From Selected Letters, pp. 693-695.

17 October and 14 November 1945

Dear Cowley:
It was awfully good to hear from you. A few days after I got the book and liked the introduction very much. See what you mean about the nocturnal thing now. Hope will have some luck writing now to get you some good new specimens to get the old scalpel to work on.

You see it's awfully hard to talk or write about your own stuff because if it is any good you yourself know about how good it is—but if you say so yourself you feel like a shit. My kids are the only people I ever talk to about my stuff or what have always been trying to do. They know Dos and they love to hear about Scout and Jim Joyce and how things truly were instead of the accepted version. There surely is a great difference. They will ask, "Papa what is the true gen on so and so or such and such." The gen is RAF slang for intelligence, the hand out at the briefing. The true gen is what they know but don't tell you. The true gen very hard to obtain.

Had no idea we had so much early life in common. It was a fine life wasn't it? Feel very bad to hear you are having trouble with deafness. If we have to lose one, though, that is the one to lose. But no fun to lose any of them.

I'd no idea Faulkner was in that bad shape and very happy you are putting together the Portable of him. He has the most talent of anybody and he just needs a sort of conscience that isn't there. Certainly if no nation can exist half free and half slave no man

can write half whore and half straight. But he will write absolutely perfectly straight and then go on and on and not be able to end it. I wish the christ I owned him like you'd own a horse and train him like a horse and race him like a horse—only in writing. How beautifully he can write and as simple and as complicated as autumn or as spring.

I'll try and write him and cheer him up.

We'll have to get together and talk when get up to N.Y. Don't know when that will be though. I'm working good now. Work every morning; haven't had a drink in the night nor until after finish work for a couple of months. That's the hardest thing to do when you come back from a war. You get to using the old Giant Killer and it is able to fix up practically anything. I remember in Spain I'd have to have about two shots before I could even look at the map but after the two shots it didn't look so bad as all that—even when it was awful. Then after it is over you have to boil it all out of your system and only take what is useful to you to relax after working and not lie to yourself nor kid yourself and it is always a tough process. . . .

You know I could never read Katherine Ann P[orter]. I just can't read it. Seems so terribly dull. Not phony like that Carson McCullers but just too dull to live.

When Kenneth Burke was writing well I was too uneducated to understand him. Would like to re-read it now. You see when you guys were first writing I had only been through high school. I knew Italian from the war and had kept on with it and knew a little German. Was getting start on education in Paris same time as was learning to write (mostly books from Sylvia Beach's until I learned French and then, after, Spanish. Every year keep on studying, keep on reading and every year study some thing new to keep head learning. Learning is a hell of a lot of fun. Don't see why can't keep it up all my life. Certainly plenty to learn.

Learning to invent 1,001
November 1:
"Dull life"
Certainly didn't do very well at getting that letter off!

Been working every day and going good. Make a hell of a dull life too. But it is more fun than anything else. Do you remember how old Ford was always writing how Conrad suffered so when he wrote? How I was un metier du chien (a dog's trade) etc. Do you suffer when you write? I don't at all. Suffer like a bastard when don't write, or just before, and feel empty and fucked out afterwards. But never feel as good as while writing. fucked out

"The Sun Also Rises" "A Farewell to Arms"

A Hello to Aliens in the 10 Nearest Stars, all 10 within 10 Light Years of Earth

"A Farewell to Arms" Although it's considered a fictional work, the content is semi-autobiographical, since Hemingway used his real-life relationship with nurse Agnes von Kurowsky while working as an ambulance driver in WWI-era Italy as the basis for the two main characters. As he was writing the novel, his wife Pauline was having a rather difficult childbirth, and he used that experience in the book as well. The story centers on the protagonist, Frederic Henry ("Henry"). Frederic narrates the story, and is an American ambulance driver during the war. He's a typical guy in that he enjoys women, alcohol, and the camaraderie he finds with the soldiers he hangs out with. Although considered "one of the guys" he has a soft spot for the British nurse he meets, named Catherine Barkley.

Hemingway's last two lines in "A Farewell To Arms" are "It was like saying good-by to a statue. After a while I went out and left the hospital and walked back to the hotel in the rain." The End

I thought it was strange of Hemingway never to mention the Eiffel Tower and the guillotine in both books The Sun Also Rises and Farewell to Arms. I have read several research books and nothing has been written about this. Kennedy Library has a billion pages relating to Hemingway that are not published yet.

Agnes von Kurowsky

Her extensive correspondence with Hemingway between 25th September 1918 and 7th March 1919 survives, unfortunately, none of his letters to her have been found as her subsequent fiancé, Dominico Carracciolo, made her destroy them. However, from her letters, the spontaneous affection contained therein, the repeated references to how much she misses him after he goes back to the front, and to their future together, we may certainly deduce that, although these may have been written lightly by an experienced woman enjoying her wartime affair with a younger man, at the same time they might not have been, and it is easy to see how Hemingway may have been misled: "Tesoro Mio; oh most longed for! Yours, Agnes" (Oct 20th); "Dear boy, I think every day how nice it would be to feel your arms around me again... Oh Kid, I do miss you - & more each day, I do believe" (Oct 21st); "Don't let me gain you only to lose you, after I've just found out what I've gained... I know very well you are going to live to a ripe old age, & no little war is going to separate us" (Oct 25th); "Thank God you've got a keen sense of humour! I can't imagine anything more awful than to have to live a life with anyone who hasn't got one. I think you are just about the most companionable man I ever knew" (Oct 28th); "I never imagined anyone would be so dear & necessary to me" (Oct 29th). Von Kurowsky's diaries lend a further insight - these documents, not intended for consumption by anyone other than herself, but which unfortunately end in mid-October, show that at least for a time, her involvement with Hemingway may have been more than frivolity, although the prevailing tone is of the...

...older woman having a bit of fun and quite amused at the extent of the young man's ardour: "All I know is Ernie is far too fond of me, & speaks in such a desperate way every time I am cool... Poor kid, I am sorry for him". (August 27th) As to Hemingway's side of things, it is clear that he was in love with Agnes. He wrote extensively about her in his letters home, and looked forward to introducing her to his family. She was very pretty, and, as other patients at the time have testified, most of the patients in the hospital were in love with her. The romance in the hospital took place through August and September. It seems it was not consummated. Most of the lovers' time was spent in Hemingway's room, while Agnes was on night duty, or on his balcony. After he became able to get around on crutches, Hemingway took her shopping; to restaurants; to the races; and by mid-September, he was so certain of her love that he felt able to take a ten-day holiday with John W. Miller Jr. It was the last time they spent any significant amount of time together. When he returned to Florence, he was shocked to learn that she was leaving the comfortable, uncrowded hospital in Milan for a hospital in Florence that had been swamped with influenza victims. He went to visit some friends on the front to keep himself occupied, but was almost immediately sent back to Milan with jaundice, and before he knew it, the war was over. Hemingway sailed home to Genoa in early January having only seen Agnes on three brief occasions in the three months since she went to Florence. Although her letters continue to make reference to their future life together, and one had hinted that she might marry him in a year or so - "I sometimes wish we could marry over here, but, since that is so foolish I must try & not think of it" (Dec 1st) biographers point to the possibility that it was due to her that their meetings were so sparse (there were several near-misses),¹³ and to the increasing number of references to their age-difference in letters.¹⁴ It seems clear, however, that Hemingway's motivation for going home was to start a career so that he could marry Agnes - even his tone of masculine bravado in writing to male friends such as James Gamble is pierced by indications: "The Girl doesn't know when she will be coming home. I'm saving money... Maybe she won't like me now I've reformed but then I'm not very seriously reformed". Meanwhile Agnes was becoming every more doubtful, and soon after she met a dashing Italian 1st Lieutenant, the rank, incidentally, Hemingway continually lied about holding in letters home, the heir to a dukedom, named Dominico Carracciolo, she wrote to Ernest on 7th March breaking it off.

Hemingway killed her in the last page of the book "Farewell to Arms" she died having a baby a true story of his real wife Pauline Marie Pfeiffer was born July 22, 1895.

Hemingway: a biography By Jeffrey Meyers

I could not buy this book for lack of extra money as I have applied to 15 of the Key West Hotels and none will hire me, because of this Orwellian Society but I will buy a used copy at Amazon when I do get a job as Jeffrey Meyers Writes about Hemingway saving Pauline's life when she was bleeding to death, Hemingway kept going when the MD in the room working his wife gave up. Wow! Youtube must me allowed to watch all MD's!

After meeting Ernest and Hadley Hemingway at a party in Paris in 1925, the three became friends, with Hadley becoming less and less a part of the picture. In the fall of 1926, Ernest and Pauline, now an item, agreed to a condition Hadley requested before she would agree to the divorce.

In 1925. F. Scott Fitzgerald released The Great Gatsby. Hemingway read the book in one day when Scott gave him a copy.

Hemingway went through stages from stunned, to sick, to furious, over Agnes breaking it off and while he wrote to friends boasting of erasing it all with a course of booze and women, it remained an emotional wound of enduring consequence, appearing in his writing in four separate Novels killing her in his writing until as late as "The Snows of Kilimanjaro" in 1936. wow Is this a cure for this?

Hemingway's last two lines in "A Farewell To Arms" are "It was like saying good-by to a statue. After a while I went out and left the hospital and walked back to the hotel in the rain." The End

Penicillins antibiotics bind to and inhibit enzymes needed for the synthesis of the bacteria cell wall. While they have little effect on resting bacteria, they are lethal to dividing bacteria as defective walls cannot protect the organism from bursting the bacteria's cell wall killing it. This is the Miracle Cure via Penicillins. Those who received the 1st generations of penicillins perfected the correct dose, the mg and pills per day is injections of Penicillins. Human growth hormone (HGH; also called somatotropin) is a protein of 191 amino acids. The GH-secreting cells are stimulated to synthesize and release GH by the intermittent arrival of growth hormone releasing hormone (GHRH) from the hypothalamus. GH promotes body growth by: · binding to receptors on the surface of liver cells. · This stimulates them to release insulin-like growth factor-1 (IGF-1; also known as somatomedin) · IGF-1 acts directly on the ends of the long bones promoting their growth

Clarence Hemingway shot himself on December 6, 1928

5 total suicide, but numerous attempts. Started with Ernest Hall, who attempted suicide; however his son-in-law took the bullets out of the gun. When Ernest pulled the trigger, the gun was empty. His son-in-law was Ed Hemingway.

Ed Hemingway shot himself in the head. He left six children, three of which killed themselves: Leicester, Ursula, and Ernest Hemingway all killed themselves. Years later, Margeaux Hemingway, a famous fashion model/actress and sister to Mariel Hemingway also killed herself.

Only the people doing Medical Research today at Yale and Mayo Clinic can search their Google for the story on the 1st 1,000 patients given Penicillins and the 1st 1,000 patients given electro shock. Electro convulsive therapy can differ in its application in three ways: electrode placement, frequency of treatments, and the electrical waveform of the stimulus. These three forms of application have significant differences in both adverse side effects and positive outcomes.

Electro convulsive Shock (ECS) hippo campus, a richly connected area deep in the temporal lobe which is vital in controlling both mood and memory via hormones.

ECT on long-term memory, ECT can include amnesia, both retrograde and anterograde.

Memory loss and confusion are more pronounced with bilateral electrode placement rather than unilateral, and with outdated sine-wave rather than brief-pulse currents.

The vast majority of modern treatment uses brief pulse currents. Research by Harold Sackeim has shown that excessive current causes more risk for memory loss, and using right-sided electrode placement may reduce verbal memory disturbance.

But some people have persistent losses, especially with bilateral ECT. 55% of respondents believed they experienced long-lasting or permanent memory changes,

Considering testosterone therapy to help you feel younger and more vigorous as you age? Know the risks before you make your decision. By Mayo Clinic staff

The possibilities of testosterone therapy are enticing — increase your muscle mass, sharpen your memory and concentration, boost your libido, and improve your energy level. As you get older, testosterone therapy may sound like the ultimate anti-aging formula. Yet the health benefits of testosterone therapy for age-related declines in testosterone aren't as clear as it may seem. Find out what's known — and not known — about testosterone therapy for normal aging.

That November he recovered trunks left in the "basement of the Ritz Hotel in Paris when he left for Key West in 1928", filled with notebooks and writing from his Paris years. Back in Cuba in 1957 he started to shape the recovered work into his memoir A Moveable Feast. [134] By 1959 he culminated a period of intense activity: finished A Moveable Feast (scheduled to be released the following year); brought True at First Light to 200,000 words; added chapters to The Garden of Eden; and worked on Islands in the Stream. The latter three were stored in a safe deposit box in Havana, as he focused on the finishing touches for A Moveable Feast. Reynolds claims that it was during this period he slid into depression, from which he was unable to recover. ". By January he returned to Cuba and continued work on the Life magazine series. The manuscript grew to 63,000 words—Life wanted only 10,000 words—and he asked A. E. Hotchner to help organize the work that would become The Dangerous Summer. Hotchner found Hemingway to be "unusually hesitant, disorganized, and confused".

Although Hemingway's mental deterioration was noticeable in the summer of 1960, he again traveled to Spain to obtain photographs for the manuscript. Without Mary, he was lonely and took to his bed for days, retreating into silence. The first installments of The Dangerous Summer were published in Life in September 1960 to good reviews.

When he left Spain, he went straight to Idaho, but was worried about money and his safety. As his paranoia increased, he believed the FBI was actively monitoring his movements. Hemingway suffered from physical problems as well: his health declined and his eyesight was failing. [145] In November he was admitted to the Mayo Clinic in Minnesota, [143] where he may have believed he was to be treated for hypertension. Meyers writes that "an aura of secrecy surrounds Hemingway's treatment at the Mayo", but confirms that in December 1960 he received electro convulsive therapy as many as 15 times; then in January 1961 he was "released in ruins".

Matadors, to Hemingway and as presented in the novel, were heroic characters dancing in a bullring—which he considered nothing less than war, but a war with precise rules in contrast to the messiness of the real war Hemingway, and by extension Jake, experienced. Hemingway named Romero after Pedro Romero, an 18th-century bullfighter who killed thousands of bulls in the most difficult manner: having the bull impale itself on his sword as he stood perfectly still. Reynolds says Romero, who symbolizes the classically pure matador, is the "one idealized" figure in the novel.

Greg Finished reading about Elizabeth Hadley Richardson (November 9, 1891 - January 22, 1979) 1980 October the ElectricWindmillCar was invented by Greg Buell Lovestar during the Saudi Oil Embargo. Ernest Hemingway 1st wife. Paris Lost Generation... of Stein, Pound, F. Scott, and Zelda Fitzgerald. She took piano lessons but not writing lessons; I bought the book "Writing Like Hemingway" by Wilson PhD yet Hadley Richardson never took a writing lesson from her husband, lover. Greg's Key West Wives will all win an Nobel Prize from one of their inventions via Greg's lectures on How to Invent!

Paris The Lost Generation... of Stein, Pound, F. Scott, and Zelda Fitzgerald. She took piano lessons but not writing lessons; I bought the book "Writing Like Hemingway" by Wilson PhD yet Hadley Richardson never took a writing lesson from her husband, lover. Paris Era of the Great Gatsby etc... Hippies of 1930's to 1960's and no mention of either Hadley or Ernest reading Freud. Ernest in 1925 read The Great Gatsby in One Day! Few other books Ernest read are mentioned in The Paris Wife: Bull Fighting and Skiing in the Alps stories; drinking and more drinking no thought of an invention to cure their Addiction to Alcohol or even if they knew the alcohol molecule as it must have been on the front pages of the New York times or Paris Times in their Era of heavy drinking. Yale Medical School was 150 years old when the Sun Also Rises was written. In our Current Era 2011 \$177 Trillion in Oil Revenue had been taken in and spent since the ElectricWindmillCar was invented in 1980. Her son John Hadley Nicanor Hemingway was born on October 10, 1923. Whooping Cough; Hadley's baby son was Quarantined, today statistics of 40 dead infants from Whooping Cough every day in the USA 100's a day world wide WHO at the UN is a criminal Organization killing more infants than Moammar Gadhafi. One dead infant from whooping cough pictured on the web and MD's tell Matt Lauer on Today show 40 infants a day die in March 2011 from Whooping Cough, yet the gov. will not make this a Bigger News Story because the cause of Whooping cough "Outbreak" is not MD's lack of hand washing and shaking your hand but the Day Care Center and Nanny's: 100 million in the USA who refused to get any and all vaccinations! Our Orwellian Caesar will not make Vaccinations mandatory, he would rather make the 40 dead a day from whooping cough persona non grata. Because he has the power to do this!

Summer

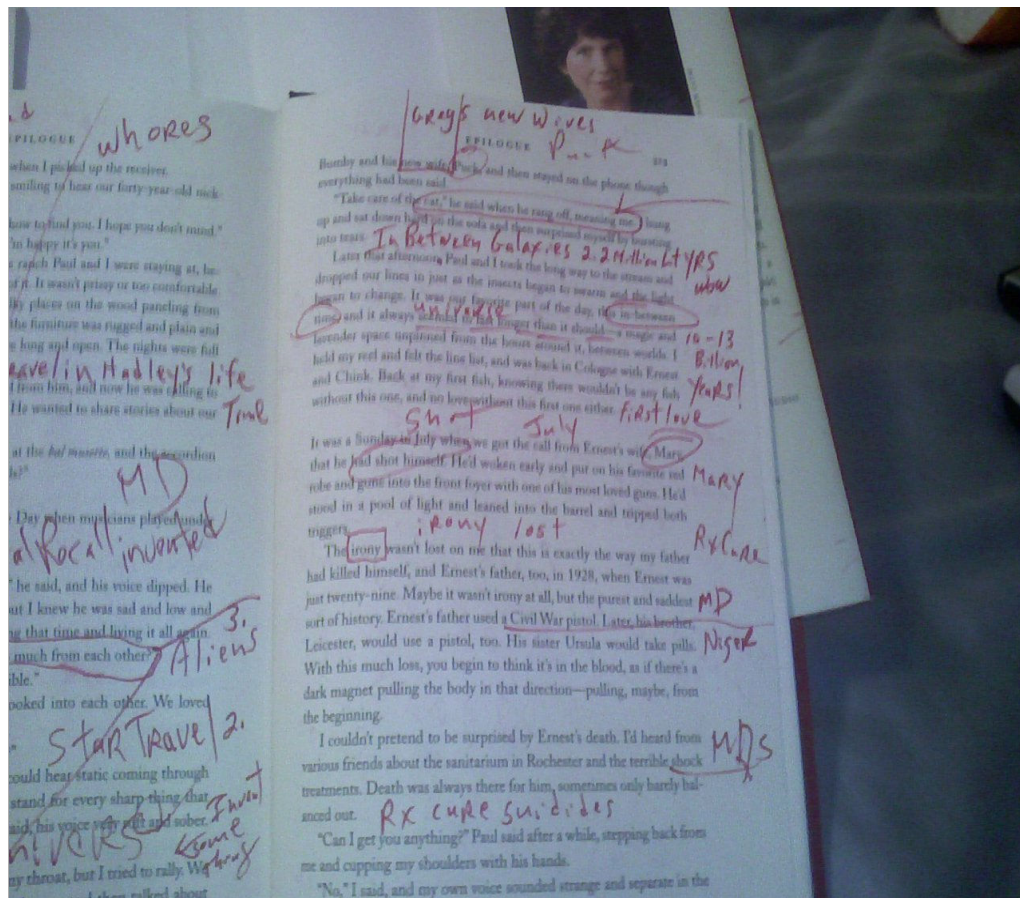

of 2011 100 kids will die in hot cars as the Electric Windmill car is suppressed and will be climate controlled like your home, 24/7 no more hot cars in the Summer Time, Invention thanks to H₂O electrolysis, and H at -354 C. Back to the Paris Wives and Greg's Key West Wives, It's critical to define the Invention Projects before reading a Novel. Paula McLain wrote in Greg's copy of her book... I hope you find an invention reading "The Paris Wife", having a list of 1,001 invention projects these are critical. Serendipity denotes the property of making fortunate discoveries while looking for something unrelated, or the occurrence of such a discovery during such a search. Los Alamos with \$1 trillion in IBM supercomputers bought since 1980 should have already read every book every written while in the supercomputers memory crunches the 1,001 invention projects. To get what Paula McLain wrote to Greg... get an invention reading the book I wrote Nuclear Bomb politics are really null and void; N. Korea will up its nuclear bombs from 8 today 29 March 2011 to 800 next year on 29 March 2012 because the Pentagon Generals wanted to kill Moammar Gadhafi. This is a personal thing between Generals and Pit Bull Dog Fighters mentality not Hadley and Ernest of 2011 trying to get "Social Manhattan Projects", inventions to observe Aliens and inventions to travel to Alpha Centauri. Which has been made persona non grata by Clinton and the State Dept. in our Orwellian Society. New York Times Today wrote a story about Aliens getting closer to Humanity on Earth as they knew Greg deleted their New York Times Web link Today as its the first day you have to pay to read it... BP Oil gave the Times \$8 Billion in Swiss Bank accounts, Texas Oil men gave the New York Times a 75 Story Sky Scraper for suppressing the Electric Windmill Car and going along making 100's of Cops and kids burned and burned to death in fiery LA Wrecks; persona non grata on the Front pages of the New York Times! No one burned in a fiery LA wreck will be on the front page of the New York Times tomorrow so do not pay to read this newspaper as they will ALL lose their heads if the New French Revolution is successful, thousands of cops and kids with gasoline burns over most their bodies... cops and kids who did not die in a fiery LA Wreck are sitting around today with burns over most their body in pain and in pain for revenge... for the suppressed Electric Windmill Car. Mad as hell, the guys who started the French Revolution have nothing on the cops and kids; moms; dads burned in fiery wrecks in LA since 1980. So much for paying to read the New York Times. Now back to the Paris Wife... Ernest was badly burned in the second plane crash, from what we know today of burns the torture can cause suicide. Pain inventions are critical and the Yale Key West Medical School should be able to invent a new class of pain drugs ASAP as this is what Elite Medical Schools do best... Research Pain etc. Key West Tourists on a guided tour stopping at the Pain Research Container Classrooms will be in for shocking intellectual writing, as no Tourist who visits Key West has read Medical Journals... New England Journal of Medicine as it cost \$100's to read, a lot more than the New York Times but worth it if you have the money \$ Writing that is over your head only because the governments Dept of Education Failed the USA for the last several decades. HS freshmen should have their own cadavers, and be able to spell and pronounce everything in English. Our Orwellian government promoted Spanish not learning Anatomy and Physiology, which would have helped 6 billion people a Hell of a lot more. Especially in reading medical journals!

Spanish --- learning Spanish LOST you all this on the Brain ----- The pituitary gland...

Spanish --- learning Spanish LOST you all this on the Brain ----- The pituitary gland consists of two components: the anterior pituitary (or adenohypophysis) and the posterior pituitary (or neurohypophysis), and is functionally linked to the hypothalamus by the pituitary stalk (also named the "infundibular stem", or simply the "infundibulum") [1]. It is from the hypothalamus that hypothalamic tropic factors are released to descend down the pituitary stalk to the pituitary gland where they stimulate the release of pituitary hormones. While the pituitary gland is known as the 'master' endocrine gland, both of the lobes are under the control of the hypothalamus; the anterior pituitary receives its signals from the parvocellular neurons and the posterior pituitary receives its signals from magnocellular neurons. Anterior pituitary (Adenohypophysis) Main article: Anterior pituitary The anterior pituitary synthesizes and secretes the following important endocrine hormones: Adrenocorticotropic hormone (ACTH), release under influence of hypothalamic Corticotropin Releasing Hormone (CRH). Thyroid-stimulating hormone (TSH), release under influence of hypothalamic Thyrotropin Releasing Hormone (TRH). Growth hormone (also referred to as 'Human Growth Hormone', 'HGH' or 'GH' or somatotropin), release under influence of hypothalamic Growth Hormone Releasing Hormone (GHRH); inhibited by hypothalamic Somatostatin. Prolactin (PRL), also known as 'Luteotropic' hormone (LTH), release under influence of multiple hypothalamic Prolactin Releasing Factors (PRH). The two 'Gonadotropins': Luteinizing hormone (also referred to as 'Lutropin' or 'LH', or in males, 'Interstitial Cell Stimulating Hormone' (ICSH)), and Follicle stimulating hormone (FSH), both released under influence of Gonadotropin Releasing Hormone (GnRH), and; melanocyte-stimulating hormones (MSH's) or "intermedins" as these are released by the pars intermedia which is "the middle part"; adjacent to the posterior pituitary lobe, pars intermedia is a specific part developed from the anterior pituitary lobe. These hormones are released from the anterior pituitary under the influence of the hypothalamus. Hypothalamic hormones are secreted to the anterior lobe by way of a special capillary system, called the hypothalamic-hypophysial portal system. The anterior pituitary is divided into anatomical regions known as the pars tuberalis, pars intermedia, and pars distalis. It develops from a depression in the dorsal wall of the pharynx (stomodial part) known as Rathke's pouch. Posterior pituitary (Neurohypophysis) Main article: Posterior pituitary The posterior pituitary stores and releases: Oxytocin, most of which is released from the paraventricular nucleus in the hypothalamus. Antidiuretic hormone (ADH, also known as vasopressin and AVP, arginine vasopressin), the majority of which is released from the supraoptic nucleus in the hypothalamus. Oxytocin is one of the few hormones to create a positive feedback loop. For example, uterine contractions stimulate the release of oxytocin from the posterior pituitary, which, in turn, increases uterine contractions. This positive feedback loop continues throughout labor. Intermediate lobe There is also an intermediate lobe in many animals, but is rudimentary in humans. For instance, in fish, it is believed to control physiological color change. In adult humans, it is just a thin layer of cells between the anterior and posterior pituitary. The intermediate lobe produces melanocyte-stimulating hormone (MSH), although this function is often (imprecisely) attributed to the anterior pituitary.

ZEITOUNIYA, Libya - The international military intervention in Libya is likely to last "awhile," a top French official said Monday, echoing Moammar Gadhafi's warning of a long war ahead as rebels said they were fighting to reclaim a city under the Libyan leader's control.

Burned-out tanks and personnel carriers littered one of the main desert roads leading from the Libyan capital. A power station hit by a shell on Thursday was still burning, its blackened fuel tank crumpled, with flames and black smoke pouring out.

Oil prices held above \$102 a barrel after the second night of allied strikes in the OPEC nation raised fears of prolonged fighting that has already slowed Libyan oil production to a trickle.

Henri Guaino, a top adviser to the French president, said two nights of bombing runs and missile attacks had hobbled Libya's air defenses, stalled Gadhafi's troops and all but ended attacks on civilians. A cruise missile late Sunday blasted Gadhafi's residential compound near his iconic tent, and fighter jets destroyed a line of tanks moving on the rebel capital. It was not known where Gadhafi was when the missile hit Sunday.

Smoke was seen rising late Sunday in Tripoli from the area of Bab al-Aziziyah, a stronghold of Libyan leader Moamer Gaddafi, satellite broadcaster al-Arabiya reported.

The opposition Libyan Youth movement said on its Twitter account that explosions were heard in Tripoli, with large plumes of smoke billowing from Gaddafi's Bab-Aziziyah compound.

The sprawling Kashiwazaki-Kariwa power plant suffered a radiation leak and dozens of other problems in Monday's 6.8-magnitude quake, whose epicentre was just nine kilometres (five miles) away.

Ono - I feel sorry for Yoko as she has known about the suppression of the ElectricWindmillCar for decades and could have saved tens of thousands of Japanese by exposing its suppression, which would have stopped GE from building any Nuclear Power Plants after 1980 and no Natural Gas lines would have been built in Japan or the USA after 1980 as H Hydrogen at - 253 C would be used today world wide to generate you home electricity! nuclear power plant in northern Japan on Saturday blew the roof off one building and caused a radiation leak of unspecified proportions, escalating the emergency confronting Japan's government a day after an earthquake and tsunami devastated parts of the country's northeastern coast.

Japanese television showed a cloud of white-gray smoke from the explosion billowing up from a stricken reactor at the Fukushima Daiichi Nuclear Power Station Saturday afternoon, and officials said leaks of radiation from the plant prompted them to expand the evacuation area around the facility to a 12-mile radius.

ElectricWindMillCar Coup D

Tokyo Electric Power Co. (TEPCO), the operator of the plant, said the water that leaked into the sea was 1.5 times more radioactive than it initially estimated. But it said the level still did not pose a health risk.

The scare grew Tuesday as it admitted 50 operating faults, including a fire, leakages of water and oil, misplaced duct pipes and broken equipment.

Government officials said that the explosion, caused by a build-up of pressure in the reactor after the cooling system failed, destroyed the concrete structure surrounding the reactor but did not collapse the critical steel container inside. They said that raised the chances that they could prevent the release of large amounts of radioactive material and could avoid a core meltdown at the plant.

Government of the USA and gave Bush more oil money for Iraq and to bribe those who would take the oil money and let others burn in gasoline.

Out of this world Orwellian Society were Oil Genocide Money bought off NASA and every Astronaut on its payroll. To go along with the suppression of the electricwindmillcar and let millions burn and burn to death in gasoline for more oil money. Memorial at NASA will have pictures of these Astronauts hanging after they are convicted of crimes against Humanity and Genocide at the Oil Genocide Trials at Cape Canaveral Florida. And to add more pain to those burned in gasoline in the USA these Astronauts stifled the building of 700 new Shuttles which can be docked together in orbit.

The secretary of the United States Navy has approved a recommendation from USS Spruance Commander Tate Westbrook to bring the destroyer to Key West for commissioning

To be bestowed the privilege there are several criteria for the commissioning city to meet. The city has to be a port location and an existing ability for the ship to pull in to port.

Then, the commander looks for a port with a direct connection to the ship's namesake. World War II Admiral Raymond Spruance was key in the U.S. Navy winning the war in the South Pacific. He finished his career as a four-star admiral. Prior to WWII, when he was a "one-star" stationed at Naval Air Station Key West he was key in establishing harbors, ports, Roosevelt Boulevard, and was in charge of securing the Key West water space.

"Key West is a great town for the Navy," USS Spruane executive officer George Kessler relayed to the Key West Weekly following the lunch. "Key West has easy access for the port facilities, and the island is a great place for the crew to enjoy. We evaluated every aspect, and the welcoming spirit of the Navy League, the Chamber of Commerce, and that Mayor Cates has for us was the final selling point."

with enthusiasm, Mayor Craig Laessle and the entire crowd of business men and women gathered at the Casa Marina resort this week, "The commander has a very large say and I want to personally thank Commander Westbrook for picking Key West. This is a true honor."

www.electricwindmillcar.com web is still broken, probably by the government, grin. Honda Planet car parking in front of my apartment building started me thinking all the car makers even in Japan are going along with the suppression of the electric windmill car and thus letting thousands burn in gasoline every day for more oil money. This is a crime that will get the King of Japan hanged... Emperor of Japan escaped hanging for WW II but this is more of a crime he could be hanged for, like the French Revolution that finally got rid of the King of France, and of course the Queen of England making up news stories for the BBC and all along serfs in England are burning needlessly in gasoline so she can get more oil money from BP Conoco in the USA.

In the small flame in front of the burning gasoline tanker are 3 people in a SUV burning to death for more oil money, Bush and the Observers in our Orwellian Society admitted they are addicted to oil money to pay for their wars in Iraq... not 700 new Shuttles and the cure for cancer, free University and of course Sicko... free health care.

Canada gov. said Carter pardoned everyone from Vietnam that I was not a political prisoner. 1997, August : Hipparcos parallax data is finally released. Adopted distance is now 1.3478 ± 0.0026 pc. or 4.3955 ± 0.0082 ly. from the most accurate parallax known to date of 0.74212 ± 0.00140 arcsec. This distance is universally adopted, but in reality decreases measurably from year to year.

2011 : In his 1911 editorial, Samuel Squire Sprigge, editor of The Lancet from 1909 until 1937, lauded advancements against rabies, diphtheria (a bacterial respiratory infection) and the plague. Prior to the turn of the century, the bacterium that causes the plague had been identified during a pandemic that began in China. The disease, which was blamed for the medieval Black Death, had returned to Europe in 1911, "to be met by science armed with the knowledge of its mode of propagation and of the practical measures to prevent the extension of its ravages," according to the editorial.

2011 : The specter of tuberculosis (TB) still loomed, however. "It has seen the continued efforts of science bringing us nearer to that stage of knowledge at which mastery of the disease may be hoped for," Sprigge wrote.

2011 : A century later, that demon has not yet vanished. In 2009, an estimated 1.7 million people worldwide died from TB, most of them in Africa, and drug-resistant strains have emerged.

2011 : Plague, rabies and diphtheria also remain fatal diseases, most often in developing parts of the world, according to the World Health Organization. One problem that could easily appear unchanged from the 1911 editorial was "the elucidation of the problem of cancer." Since then, science has shed light on some causes, including tobacco, viruses, exposure to ultraviolet radiation and certain chemicals, and has developed more-complex treatments. However, the disease itself remains an intractable problem. In 2006, American men were diagnosed with cancer at a rate of 539 per 100,000, and 221 per 100,000 died, according to the U.S. Centers for Disease Control and Prevention.

A nonner spin off genocides is suppressing superior... cars inside and outside... free it via windmill car electrolysis, free Universities, Medicare spin off genocides caused by suppressing the ElectricWindmillCar since 1980! And suppressing the Inventor OS for Windows \$\$\$\$\$ That stifled 1,001 Invention Projects preinstalled on your PC for Junk and Trial Software.

12 8 2010 New York Times still suppressing the news that the ElectricWindmillCar was invented in October of 1980 and the news if not suppressed by the New York Times would have made such huge headlines as the Saudi Oil Embargo was going on at this same time... John Lennon's killer would have been thinking of the ElectricWindmillCar and the future, not of becoming famous by killing John Lennon.

12 8 2010 New York Times printed a picture of two Senators who stifled the Rx Penicillin Overnight Miracle Cure for Breast Cancer on the front page thus spitting on Elizabeth Edwards and the 40,000 women who died from Breast cancer in 2010. Typical for the guys at the New York Times in an Oil Genocide Era and Society ruled by an Elite Orwellian Caesar!

12 8 2010 New York Times killed Elizabeth Edwards son too, in 1996 decades after Greg Buell Lovestar's invention idea of "Super Airbags on the Outside" of Cars and Trucks her son Wade Edwards was killed because the guys at the New York Times suppressed all news about "Super Airbags on the Outside" of Cars and Trucks for a decade before his car wreck!

12 8 2010 New York Times, is suppressing all news about "Polygamy Marriage" made legal as the New York Times is controlled by "Rich Fags" who have sex with kids in Thailand.

12 8 2010 Elizabeth Edwards husband's had very public affair with former campaign staffer Rielle Hunter. The affair, which resulted in an out of wedlock child, destroyed their marriage. If "Polygamy Marriages" were legal since the invention of the ElectricWindmillCar in 1980 Elizabeth Edwards would of had a choice instead of no choice.

12 8 2010 When Elizabeth Edwards realized she was dying and that her husband quite possibly would marry Hunter, Edwards was adamant that her children would not inherit their father's mistress as their stepmother. She was said by various sources to be hoping to groom Cate, who is an accomplished Harvard graduate, to be the full-time guardian of Emma Claire and Jack. As of her passing, it is not at all clear that Edwards was successful in securing this through a legal system that would undoubtedly give the strong benefit of the doubt to the father.

12 8 2010 Robin Robbers on Good Morning America ABC had the best "Show" today, CBS Early Show had the fewest comment about Elizabeth Edwards death from Breast Cancer and neither mentioned Elizabeth Edwards is 1 of 40,000 who died or will die in 2010 from Breast Cancer. NBC Today Show had Dr. Nancy Snyderman who did not mention the suppression of Greg Buell Lovestar's effort to get a Rx Penicillin Overnight Miracle Cure for Breast cancer but Dr. Nancy Snyderman said we must "prevent" breast cancer for now not mentioning "Coors" or "Red Meat" or the other commercials that pay NBC and GE billions trillions in ad revenue!

most of the Saudi Oil Embargo transforming an invention to bankrupt Saudi Oil took a break from reading "Arima Farm" when outside sat on the concrete blocks saw smoke "blow in the wind" from the direction of NCAR our Elite Castle on the Mountain Side here... felt wind on my face, watching the traffic stream down Table Mesa Drive - I ran into the Libraries bathroom, looked into the mirror and told the "Observers" about the ElectricWindmillCar! Ted Kennedy and others were behind the mirror just like in "1984" but I couldn't break the mirror and expose them! Carter was President, he was Bullied or Bribed by Ted Kennedy to suppress the ElectricWindmillCar - by making a deal with the Saudi King, he could keep his oil revenue flowing if he ended the Oil Embargo, thus this is how the Oil Embargo of 1980 ended. Humanity lost an "Inventor" OS for 30 years of Bill Gates and Windows, lost 1,001 Invention Projects preinstalled on your PC for add on junk and trials from Microsoft. Lost the cure for Breast Cancer and Cancer in 1981 as I would have married a few Yale MD women to brainstorm this with, lost 177 Trillion spin off inventions from the ElectricWindmillCar from 1980 to 2010, and 100 infants a summer died in hot cars, or frozen in cold cars in Moscow for the last 30 years while our "1984" CIA keeps the statistics Putin make \$7 Trillion from Oil Revenues far less then the Saudi and Texas Oil Men's \$177 Trillion in Oil Revenues from 1980 to 2010.

2010 Thanksgiving Day

1621 Thanksgiving Day

Power of the Feds... Our Orwellian Caesar to suppress the ElectricWindmillCar in Times Square from the Front Page of the New York Times on Thanksgiving Day 2010 and on every Thanksgiving Day from 1980 to 2010! Wow! \$ King of Saudi Arabia is in Times Square on Thanksgiving Day 2010 - all 9/11 terrorists.

Thanksgiving Day 2010 Power of the Feds... To promote Einstein Inventions, Discoveries and at the same time put Headlines in the New York Times that Women, and Wives, and Marriage are Obsolete!

While Men Inventors know Women are the Goddess of Inspiration Today and in ancient Greek times! Thanks for wives and Thanks to the Inventor of the ElectricWindmillcar we will get Polygamy Marriage made legal after the ElectricWindmillCar Coup to make up for the 177 trillion inventions lost for the \$177 Trillion in Oil Revenues! Brainstorm 1,001 Invention Projects with your many wives! Only after BP Oil and Texas Oil men are put on trial for the worst genocide in the history of Earth!

Only the propagandas of Caesar changes. Coal power electric generators killed way more than the 30 miners saved yet you will never ever observe CBS TV Headlines for hours and hours cover cancer caused by coal generating electricity particles or the news about how Hydrogen can generate all your electricity for free! For all 7 billion of us on Earth. How is gravity generated? at CBS? I wrote a few pages more about the Thanksgiving of 2010 they are posted at www.endwaronearth.com I believe only an invention to see and hear Aliens can End War on Earth.

Paris No-\$1 Trillion \$USD\$ Medical School since the invention

of the ElectricWindmillCar in 1980, We need a New French Revolution, revenge for all those burned and burned to death on Paris Freeways with No One stopping to help those on fire! Build a \$1 Trillion dollar Yale New Haven Medical school in 2 semesters with an Eiffel Tower Super Structure and Shipping Containers, Cruise Ship Design. Pirate your Microsoft copy of C++ and CAD software in this French Revolution. Along with some of the newest Intel Xeon cpu's! Revolution, we want Rx Penicillin like overnight miracle cures, not some expensive Roche pill like Herceptin we have to take the rest of our lives to live 4 weeks for \$100,000 "Pink" donators paid for this expecting to finance a Cure for their donation. Lipitor is Pfizer and the world's top-selling medication \$\$\$ that is a scam as medial research is "Prohibited" by Caesar from inventing a "Cure"! For heart disease and breast cancer.

What the Super rich built for us is the \$1 Trillion dollar "Mall" in Saudi Arabia with a "Ski run and Eiffel Tower Casino, Bar, Whore House inside".

11 15 2010 --- MD's were driven into Medical School by the overriding goal of finding a overnight Miracle cure like Penicillin. George Orwell became our "Orwellian Caesar" worst than the 12 Caesars of Rome combined, and then some!

Oasis will not dock at Key West at the Yale Key West Medical

School until after the New French Revolution and our Orwellian Caesar is given a newly invented "Gas Lobotomy" that cures greed, the need for \$177 Trillion more in oil revenue!

11 15 2010 --- Dr. Chen writes in the New York Times "research has long been driven by a single overriding goal of finding a miracle cure."

11 15 2010 --- Long ago, before the 1980 invention of the "ElectricWindmillCar" and the beginning of the "Oil Genocide Era and Society".

LIPITOR atorvastatin calcium medication learn about cholesterol and heart disease and invent a Rx Penicillin like Overnight Miracle cure, 1 shot not Lipitor pills for life!

the sign over Lipitor involves a collusion of pharmaceutical forces in American health care. Spending on prescription drugs has jumped from \$40 billion in 1990 to almost \$250 billion this year

Pfizer, which plans to use marketing muscle and clinical data to fight any "Inventor" from even working on a Rx Penicillin like "Cure" with the help of our Orwellian Caesar making the "Inventor" persona non grata and even making "An Prohibition Era" in the Medical Research Labs... Cure would cost Pfizer \$250 Billion and more over the next 30 years... this is "Oil Greed" and "Mass Murder" like BP Oil and Fiery LA wrecks were no one stops to help those on fire...

Lipitor, Pfizer and the world's top-selling medication \$\$\$

11 15 2010 --- MD's were driven into Medical School by the overriding goal of finding a overnight Miracle cure like Penicillin. George Orwell became our "Orwellian Caesar" worst than the 12 Caesars of Rome combined, and then some!

11 15 2010 --- Saudi Arabia had been buying "Organs" while Americans waiting for the same "Organs" died, yes the "Observers" knew this, know this.

11 15 2010 --- Caesar refused to make "Organ Donation Mandatory" for some psychotic reasoning on his part.

11 15 2010 --- NBC Today Show Today has a new app for your iphone, JFK 50 years - Caroline Kennedy will drive by a fiery LA Wreck without stopping to help those on fire today! 30 after she was told about the invention of the Electric Windmill Car by Ted Kennedy!

Fiery LA Wreck did this, Oil men's greed caused this. Crime!

\$1 Trillion dollar Yale New Haven Medical School LOST --- over 10,000 New Haven Public School students participate in academic and social development programs at Yale each school year all LOST the "Electric Windmill Car Era" and 1 Trillion spin off inventions via our Orwellian Caesar's need for \$177 Trillion dollars in Oil Revenues to buy MIT War Toys! Not a \$1 trillion dollar Yale Med School.
\$1 Trillion also went to IBM for 10 Supercomputer just for Los Alamos from 1980 to 2010.

\$1 Trillion was spent on the Iraq War by Caesar!

\$1 Trillion was spent by Putin on Saint Petersburg buildings, and none was for a Medical School or Hospital...

1980 Model Electric Windmill car...

George Bush would have been hanged in Times Square if the "Public" knew the Electric Windmill Car was in Times Square on 9/11.

2010 Model Electric Windmill Car with super airbags on the outside, wifi and web cams inside and outside, climate controlled 24/7 and mostly an electrolysis accessory for the gallon of water, H and O are the "Miracle Cure!"

Massive amounts of free Hydrogen more H than 7 billion people could ever use.

OJ is locked up for now but OJ clones kill 100 white women a month just in the USA if you count Africa this rockets to 1k a day.

1k women a day are killed by OJ clones! Maybe more.

Caesar will not let Greg Buell Lovestar or any one doing medical research to brainstorm the "Gas Lobotomy"

To stop the killing of 1k women a day, 365k a year

As you know Bush and his wife can't do math. You do the math...

Roche Herceptin scam cost "Pink" donors 5.3 Billion - \$100,000 for each women who got Herceptin to live 4 weeks longer!

Roche would kill Dr. Chen if she got them arrested!

Whistle Blowers in the New York Times today, I didn't read the story as even the FBI will drive by fiery LA wrecks and not stop to help!

OJ Clones killin with no Gas Lobotomy Cure, now Mexicans with Whooping Cough killing infants in the USA, refusing to get a vaccination!

Fags... spreading syphilis, hepatitis, ans with Caesar in charge you are infected by Fags and can't sue! Its the law! Put this and YouTube and it will be deleted! New York Times will never, ever put Fag Disease and those infected on the Front Page of the New York Times!

Clinton is filming "HangOver 2" in Thailand, were 1k small business owners a day have sex with kids.

Yes, Clinton will lie again unless his next "sex" is posted on a YouTube video!

Clinton's wife made Greg Buell Lovestar persona non grata!

Caesar made finding the "Miracle Cure" persona non grata as there is more money in Rx's you have to take the rest of your life!

Making of the "Idiot" is a Russian Novel.

Earthquake help from Idiots, Clinton, Carter, they have more "Donations" unspent in a Swiss Bank than donation money spent! Both should be arrested for all the cholera deaths as all were preventable! Swiss Bankers have no morals and they are in Geneva... you do the math!

Hurricane made a mud field of this Human Crop of "Peanuts" as Jimmy Carter the Georgia Plantation owner said in his mind.

Concrete and Shipping Containers would have been a "Miracle Cure"... money for this was put in a Swiss Bank by Clinton + Carter!

"Wood Stoves" is Clintons idea of a "Miracle Cure"... Idiots

Clinton and Carter!

Hydrogen Stoves, would also generate electricity and Air Conditioning like Jimmy Carter has in his Georgia "Warehouse!" that house peanuts not humans!

House Boat Shipping Containers, 1 million built in no time at

all!

No! to the flu shot, a Story in the New York Times. Mandatory vaccinations has never ever been written up in the New York Times! Mandatory Organ Donation has never been written about in the New York Times. Electric Windmill Car in Times Square on 9/11 has never been written about in the New York Times!

No! Infants pictures who died from Whooping Cough on the Front Page of the same New York Times

Cure for Whooping Cough... No!

Cure for the Flu... No!

Cure for Breast Cancer... No!

Cure, No!

Roche Herceptin scam cost "Pink" donors 5.3 Billion

Roche, and all the others made getting a "Cure" persona non grata. Prohibition is not for alcohol in 2010 but Roche and the others have email Prohibiting any scientist from doing any research to get a "Cure" as another "Vaccine" for Breast Cancer not a Rx Penicillin Overnight Miracle Cure would make Roche \$1 Trillion.

\$1 Trillion for a Roche vaccine for Breast Cancer

Loss of \$1 Trillion for Roche if Greg Buell Lovestar gets the Rx Penicillin Overnight Miracle Cure for Breast Cancer.

\$1 Trillion made from a "Gas Lobotomy" invention

"FBI" murder rates, 365k women murdered in 2010 by "OJ Clones"

"FBI" with the Morals of Saudi Arabia Princes at the \$1 Trillion Dollar Mall or Visiting Thailand to have sex with kids.

Train of Planes docked at 100,000 feet One Lifeboat for the

return to Earth, save the stress of heat tiles falling off!

NASA Top Brass have been spending more time in Saudi Arabia "Malls" than at the Cape!

Morals with a sky like this in view!

"Crime and Punishment" another Russian Novel

Putin let Hell freeze over, and Red Square too; heating elements in Red Square and a \$1 Trillion Dollar Medical School for Moscow LOST out to drunk VIP's not telling their girl friends about OJ Clones and the higher risk of getting breast cancer from getting drunk.

NASA Top Brass have been shopping in Saudi Arabia from 1980

to 2010, I could have invented a "Memory Pill" "Total Recall" Rx right after I invented the Electric Windmill Car in 1980 if our Orwellian Caesar was not worst than the Roman Caesars! NASA x43 Space Plane docked like a train, blast off at 100,000' into Orbit. Mission not found in a Saudi Arabia Mall.

"Oasis" Cruise Ship the largest in the world docked at Fort Lauderdale will not stop at Key West..

Yale Key West Medical School will be built at Key West! In 2 Semesters an Eiffel Tower Structure with shipping containers will be a Miracle Cure for 1 billion patients visiting Key West. Los Alamos supercomputer will be "critical" in diagnoses and inventing a Rx Penicillin Overnight Miracle Cure for Breast Cancer and other diseases!

Shipping Container "House" or "Medical School" with of without

the Eiffel Tower Structure holding them up.

Eiffel Tower Structure loaded with Shipping Container containers, Eiffel Tower Medical School Structure built in 12 months working 24/7, same as Greg Buell Lovestar and his many wives working 24/7 brainstorming 1,001 medical "Cures" that were made "Off Limits" by our Orwellian Caesar from 1980 to 2010.

11 1 2010 Gravity is a force of attraction that exists between any two masses, any two bodies, any two particles. Gravity is not just the attraction between objects and the Earth. It is an attraction that exists between all objects, everywhere in the universe. Sir Isaac Newton (1642 -- 1727) discovered that a force is required to change the speed or direction of movement of an object. He also realized that the force called "gravity" must make an apple fall from a tree, or humans and animals live on the surface of our spinning planet without being flung off. Furthermore, he deduced that gravity forces exist between all objects. Newton's "law" of gravity is a mathematical description of the way bodies are observed to attract one another, based on many scientific experiments and observations. The gravitational equation says that the force of gravity is proportional to the product of the two masses (m1 and m2), and inversely proportional to the square of the distance (r) between their centers of mass. Mathematically speaking, $F = Gm_1 m_2 / r^2$, where G is called the Gravitational Constant. It has a value of $6.6726 \times 10^{-11} \text{ m}^3 \text{ kg}^{-1} \text{ s}^{-2}$.

Two centuries and counting

Letter from the Dean

333 Cedar Street is a monthly letter from Dean Robert J. Alpern, M.D., Ensign Professor of Medicine, on topics of interest to the Yale School of Medicine community. Write to Dean Alpern at 333cedar@yale.edu

William H. Welch, M.D., was a Yale College alumnus who went on to become the first dean of the Johns Hopkins School of Medicine. In 1934, reflecting upon the rapid ascent of the Yale School of Medicine during the previous three decades, he wrote:

There is nothing in modern medical education so remarkable as the recent transformation of the Yale School of Medicine from the old type into a modern medical school. The process has taken place with incredible rapidity and it has been complete. The Yale School of Medicine now ranks with the best in the country.

As was the case with many American medical schools at the beginning of the 20th century, Yale School of Medicine's future was far from assured at the time of its centennial in 1910. However, it was one of only two New England schools that Abraham Flexner deemed worthy of continued investment in his landmark report on medical education that same year, and Yale energetically advanced on all fronts during the years following the Flexner report. The 1920s and '30s saw a tremendous burst of innovation and growth under the leadership of Dean Milton C. Winternitz, M.D., and its trajectory since then has been ever upward.

An architectural study of the entrance of the Institute of Human Relations, which was added to the facade of the Sterling Hall of Medicine in 1931. (Credit: Manuscripts & Archives.) This year, as the School of Medicine enters its third century, it has achieved even greater heights. It ranks fifth among medical schools receiving funds from the National Institutes of Health (NIH) and first in NIH dollars per faculty member. More than 4,300 applicants competed for 100 places in this year's entering class. The school is a scientific powerhouse of tremendous depth and breadth, with more than 1,200 ladder faculty members conducting basic and clinical research, teaching, and/or seeing patients—many of them doing all three. It is a clinical center with capabilities far beyond anything Dr. Welch might have imagined in the early 20th century, delivering care to tens of thousands of patients each year, performing advanced procedures, and managing complex diseases. And it retains a unique position in medical education, drawing on the same Yale system that helped transform the school nearly a century ago and produce leaders in American medicine and biomedical research.

Transformation—the phenomenon that Dr. Welch witnessed—has been a hallmark of medicine at Yale numerous times since its founding, following an Act of the Connecticut Legislature in October 1810. We will celebrate this history, as well as our present and future, during the 2010-2011 academic year that begins with the White Coat Ceremony on August 19. Following are details of the year-long Bicentennial observance, which will be updated regularly on the medical school's newly launched Bicentennial website, at

- 10/3/2010 NASA, best known as the agency that put the first man on the moon, is about to end its moon program for the foreseeable future.
- 10/3/2010 Under legislation passed by the House late Wednesday, the nation's spaceflight program will take a new direction. NASA — the National Aeronautics and Space Administration — will turn to private companies to launch astronauts into space, while it starts work on a larger rocket for travel to more distant destinations — an asteroid, perhaps, and eventually Mars. The bill "helps put the U.S. space program on a more sustainable trajectory," Lori B. Garver, NASA's deputy administrator.

- 10/3/2010 However, the compromise legislation does not cancel all of Constellation, Development of Orion, capable of deep space missions, is to continue, and the bill directs NASA to develop a heavy-lift rocket able to propel a payload of at least 70 tons.
- 10/3/2010 The next skirmish is likely to be over the design of that rocket. The new bill clearly envisions a rocket built of

components used in the space shuttles and consequently soon to be canceled Ares I rocket. The Senate Committee on Commerce, Science and Transportation, which wrote the bill, said in an accompanying report that it expected the rocket to include solid-fuel boosters like those of the shuttle or Ares I.

10/3/2010 Hepatitis B virus was originally recognized as the agent responsible for "serum hepatitis", the most common form of parentally transmitted viral hepatitis, and an important cause of acute and chronic infection of the liver. The incubation period of hepatitis B is variable with a range of 1 to 6 months. The clinical features of acute infection resemble those of the other viral hepatitis's. Acute hepatitis B is frequently anicteric and asymptomatic, although a severe illness with jaundice can occur and occasionally acute liver failure may develop.

10/1/2010 Observers posted this on the internet, but CBS Katie Couric would not report these summer of 2010 "Hot Car" deaths as they are mass murderers by her boss our Orwellian Caesar... ElectricWindmillCars will be climate controlled 24/7 in summer and winter via the electrolysis accessory for H2O into H for fuel for accessories "air conditioning" and like heat for Moscovs (dead) drunks and electricity!

10/1/2010 1,000's of Kids die in Hot Cars. This is a gov. run genocide, and only in an Oil Genocide Era that wants another \$177 Trillion in Oil Revenues could this happen year after year (1980 to 2010) they are truly "Baby Killers"... Carter his wife Roslyn, Bush and his wife and 2 daughters, Clintons and her daughter, and the Governors of Texas, Florida, and California... 1980 to 2010 1,000's of kids left in hot cars, you do the math as Bush would say! Observers behind hidden cameras! I, Greg Buell Lovestar could not believe the "Observers" posted their mass murder genocide of kids left in hot cars, as cops and kids in Fiery LA Wrecks have been made persona non grata by Bush after I posted the cop baby wife picture on my web.

ElectricWindmillCar invented in 1980...

10/1/2010 Bush let all Observers know he did not want any fiery LA Wrecks on NBC Today Show or on CBS with Katie Couric! 48 children die in hot cars in 2010 By ALLEN G. BREED, AP National Writer Allen G. Breed, AP National Writer Wed Sep 29, 6:03 pm ET This year of record temperatures has also led a record number of children dying in hot vehicles, according to a group that tracks such deaths. According to the Kansas-based organization Kids and Cars, 48 children have died of hyperthermia after being left or becoming trapped in a hot car or truck. The previous record of 47 was set in 2005, says Janette Fennell, the group's founder and president. "I'm devastated," Fennell said Wednesday. The latest death was a 2 1/2-month-old girl who died Sept. 20 in Kingman, Ariz., after being left five hours in a car in 100-degree heat. Police say the girl's father forgot the baby was in the car, went inside the house and took a shower and nap 1998 to 2010 an average of 37 children have died in hot cars... Texas leads the nation deaths, followed by Florida. "My biggest worry is that we might

break so not car dealers in 2010, sawa fenneu. Ana inai yoo much to inna aocou. For car dealers have spike since one when laws began requiring that infants be strapped into rear-facing car seats in the back seats of vehicles to avoid air-bags 40 percent of the children who died this way are less than a year old.

10/1/2010 CBS Katie Couric would not report these "Hot Car" deaths at they are mass murderers by her boss our Orwellian Caesar... You do the math... 48 cops and kids burn in fiery LA Wrecks every month, World Wide, Rome, Paris, Deli, Karachi, 27 gasoline tankers heading to Afghanistan are on fire 41 gasoline tanker trucks were damaged besides the 27 on fire it took me several minutes searching Google to find 2 pictures as they were suppressed by the Pentagon and Google went along with this for a bribe from the Pentagon of course or just some more gov perks for Google.

10/1/2010 Today Show didn't show any of these 27 gasoline tankers on fire today. Bangladesh, United Arab Emirates, Kuwait, Saudi Arabia, hot spots around the world hotter than Texas and Florida kids die in hot cars every day of the year and this news is suppressed by Katie Couric's Boss our Orwellian Caesar! You do the math... how many kids died in hot cars world wide in the summer of 2010... not 48 many many more. You do the math how many cops and kids burned to death in fiery LA Wrecks in the summer of 2010... world wide... many thousands, "Tens of Thousands" burned and burned to death in fiery wrecks world wide in the summer of 2010. Katie Couric will never, ever report this "news" on CBS as her Boss is our Orwellian Caesar! WHO MD's at the UN let 1 billion people drink dirty water in the summer of 2010 only top secret UN statistics know how many died. When the electrolysis accessory in your ElectricWindmillCar would have provided these 1 billion people with clean H2O, cool cars, electricity and many many more spin off inventions for massive amounts of free Hydrogen. Caesar is now our Orwellian Caesar a much much more dramatic killer! And Katie Couric's Boss at CBS!

10/1/2010 General Petraeus just said YouTube videos of Moslem women working in Whore Houses in Afghanistan are Top Secret and you can not watch them. Drug-resistant superbugs like the staph germ MRSA increasingly are able to make "flesh-eating" toxins and cause nightmarish infections like Wilson's.

"In the first 20 years I practiced, I may have seen one case," said Dr. Alan Bisno, a retired University of Miami expert who has lectured other doctors on this. "Within a very few years, everybody in the audience had all seen cases."

To treat it, doctors cut away dead tissue, but the infection often advances after they think they've gotten it all.

Inch by inch, it devoured the 34-year-old Wilson. Spleen, gall bladder, appendix. Part of her stomach and ultimately, all of her intestines.

Over five years, she had countless surgeries, including an unusual organ transplant. For much of that time, she lived in hospitals and rehabilitation centers, fed by tubes and unable to give her young son a bath, to read him a bedtime story, to tuck him in at night. She lost her marriage and endured unimaginable pain.

It warned of a "tidal wave of ocean debris," calling it a major pollution problem of the 21st century. Topping the list of the 11.4 million items of trash collected were cigarette butts, plastic bags, and food wrappers and containers. In the Philippines alone, 11,077 diapers were picked up and 19,504 fishing nets were recovered in Britain.

"Our ocean is sick, and our actions have made it so," Vikki Sprull, president and chief executive of Ocean Conservancy, said in a statement accompanying the report. "We simply cannot continue to put our trash in the ocean. The evidence turns up every day in dead and injured marine life, littered beaches that discourage tourists, and choked ocean ecosystems," she said.

"By changing behaviors and policies, individuals, companies, and governments can help improve the health of our ocean, the Earth's life support system." The full report, including a country-by-country Marine Debris Index, was published at .

Detailing how refuse poisoned oceans and waterways, the report said the waste entered the food chain, injured beachgoers and weakened economies by sapping precious dollars from tourism and seafood industries. Thanks to BP's blatant use of the chemical dispersant, COREXIT, the Taiwanese super skimmer known as "A Whale" has been deemed ineffective by the US Coast Guard.

10 Bush Class super Aircraft Carriers converted to Ocean Trash Trucks and Clean Water Electrolysis Perpetual Motion Machines cleaning the Oceans Waters for the next 100 years or until the Bush Aircraft Carrier is sunk or sold for scrap metal, yet the Pentagon Generals will give out "Medal of Honor" to those who drove by fiery LA wrecks not stopping to help those on fire!

Taiwanese shipping magnate, Nobu Su, converted the massive ship at his own cost, in response to the oil spill in the Gulf of Mexico.

But because of the extremely large amounts of dispersants sprayed into the Gulf by BP, oil in the Gulf broke apart, and as a result, "A Whale" couldn't effectively "skim" the surface of the water for the oil.

"A Whale" held so much promise for the weary people fighting the BP/Deepwater Horizon oil spill, but unfortunately, it sucked up only negligible amounts of oil during its test run in the Gulf.

Patrik Jonsson wrote in his article for the Christian Science Monitor, 'Whale' superskimmer drops out of Gulf oil spill response (7/17):

"While its stature is impressive, 'A Whale' is not ideally suited to the needs of this response," Coast Guard Admiral Paul Zukunft told the Wall Street Journal."

Jonsson also quoted TMT Offshore spokesman, Bob Grantham, "This ship demonstrated that it can bring substantial volumes of capacity to bear in addressing oil spills quickly and with great maneuverability. That said, the particular conditions present in the Macondo spill did not afford the vessel to recover a significant amount of oil....due to the highly dispersed nature of the oil in the Gulf."

The high amount of dispersants utilized by BP in response to the oil spill has raised many questions. Lisa Jackson, Administrator of the Environmental Protection Agency, urged Congress this week for new regulations that will give the EPA more control over oil company's usage of dispersants.

Effects of such large amounts of dispersants being used in ocean waters is unknown, especially when sprayed in deepwater, as BP has done.

We all know the effects of the oil spilled into the Gulf will be devastatingly long-lasting for the people, sea life, marine mammals and birds that call the Gulf Region home.

But questions still remain as to what effects the dispersant use will have on the Gulf. Let's hope BP's "science experiment" doesn't make matters worse and create even longer-lasting problems for the residents who call the Gulf of Mexico home.

Roche breast cancer Avastin with global sales of \$5.9 billion failed Dr Susan Love knew this and shammed breast cancer women out of money and the gov and those who raised money.

Dr Susan Love should be arrested for this scam.

WASHINGTON - Follow-up studies of a Roche breast cancer drug showed that it failed to extend the lives of patients, federal health scientists said Friday, opening the door for it to be potentially withdrawn for use in treating that disease.

The Food and Drug Administration approved Roche's blockbuster Avastin in 2008 based on a trial showing it slowed growth of tumors caused by breast cancer. The decision was controversial because drugs for cancer patients who have never been treated before must usually show evidence they extend lives.

Avastin's so-called "accelerated approval" was based on the condition that later studies would show a survival benefit.

But in briefing documents posted online, FDA reviewers said two follow-up studies recently submitted by Roche failed to show that Avastin significantly extended lives compared to chemotherapy alone.

Additionally, the FDA said that in follow-up studies the drug did not slow tumor growth to the same degree as in earlier studies.

Patients taking Avastin showed significantly more side effects, including high blood pressure, fatigue and abnormal white blood cell levels.

On Tuesday the FDA will ask a panel of outside cancer experts to review the evidence on Avastin. The panel's recommendations are not binding, but the FDA usually follows their guidance.

The FDA has the option to remove the drug's approval for breast cancer.

Avastin is also approved for colon, lung, kidney and brain cancer. The drug was Roche's top-selling cancer treatment last year with global sales of \$5.9 billion.

Roche is headquartered in Basel, Switzerland, and its biotech unit Genentech is based in South San Francisco.

Avastin was the first drug to fight cancer by stopping nutrients from reaching tumors. Such "targeted therapies" were thought to hold promise for eliminating chemotherapy, but the two approaches are now used in combination.

Since 1992, the FDA has granted accelerated approval to drugs based on so-called surrogate endpoints, or initial measures that suggest the drug will make real improvements in patient health. For cancer drugs, tumor shrinkage is considered a predictor of increased survival.

Drugmakers favor the program because it helps them get products to market sooner.

But the program has not escaped criticism from government watchdogs.

Last fall the Government Accountability Office issued a report saying the FDA should do more to track whether drugs approved based on preliminary results actually have live up to their promise.

According to the GAO, the FDA has never once pulled a drug off the market due to missing or unimpressive follow-up data.

Class AirCRAFT Carriers! Trash Trucks the 10 Bush Class AirCRAFT Carriers -- 9/11... ElectricWindmillCar suppressed from 1980 to 2010 when Time Square should have made news on the front page of the New York Times about the ElectricWindmillCar!

15 July 2010 CBS news with Katie Couric yesterday she put together a clip in the Gulf with her Admiral boyfriend pointing out 10,000 little tiny skimmer boats to suck up oil when both Katie and the Admiral knew about our Orwellian Caesar suppressing the deployment of 10 Bush Class AirCRAFT Carriers to suck up the BP Oil! Katie and the Admiral know BP has paid out more in bribes \$\$\$ than they will ever pay out. \$\$\$ to Gulf Oil Victims. No Way will our Orwellian Caesar deploy 10 Bush Class aircraft carriers to suck up oil that will wash ashore on more and more miles of white sand beaches in Florida and yes even Key West white sand beaches. Why, Because our Orwellian Caesar is a psychotic killer. Pictures of burned out cop cars and 100's of thousands of pictures of cops and kids burned and burned to death in fiery wrecks, most in LA. Are never on CBS or on the front page of the New York Times. Are crimes by Oil Men, Texas and Saudi Oil men. University President in Boulder Colorado is a mass murderer who drives by fiery LA wrecks and does not stop to help but profits from Burn Units set up by MD's. Louisiana Governor Bobby Jindal... Pours gasoline over 100's of preschool girls in Afghanistan and LA then sets them on fire for \$177 Trillion dollars in Oil Revenues!"

11 June 2010

Obama's six-month moratorium on exploratory offshore drilling will cause further damage to the economy. Governor Bobby Jindal called the moratorium a disaster!

Louisiana Economic Development department estimates the drilling suspension will translate into a loss of 3,000 to 6,000 jobs in the first two to three weeks and potentially over 10,000 jobs within a few months.

Louisiana 10,000 jobs within a few months lost to Obama's six-month moratorium on exploratory offshore drilling.

Mexicans Truck Drivers are killing Gringos via our

Orwellian Caesar and the Mexican Oil Company... Gringo jobs lost by the millions to Mexicans who kill Gringo women driving a car with a payload of kids not knowing our "Orwellian Caesar" put this killer behind the wheel, these Mexicans also murder her with a gun, it's not just cars as the murder weapon, this is mass murder via our Commander in Chief and it's Top Secret in an Orwellian Society in an Oil Genocide Era. FBI has the statistics you will not find out about until after a successful coup that puts the ElectricWindmillcar in Times Square NYC, and gets these reckless murderous Mexican drivers off the highways. CBS news and the Drug War on the border, 100 killed by the Drug Lords. 1,001 Gringo Moms and kids are killed by Mexican working as Temps at Manpower and Kelly Services, putting the Gringo Dad out of work. 22 Million Gringos are out of work because 14 Million Mexicans are working for the Temp agencies. Here in Colorado the Judge in Denver said the guy who owned the company did not know all the Mexicans were illegal... just like Toyota did not know... 1,001 Gringo Mom and Dads are killed by Judge's in Denver, and around the USA who are following orders from our Orwellian Caesar that lets Mexicans kill Gringos in our Orwellian Society.

Recall" was not about brainstorming the "Total Recall Invention" this is a crime against Humanity by Sony and Hollywood. When Sony made this movie everyone knew about my Invention Project Total Recall, that is where Sony got the name for their Movie. What is worst... driving by fiery wrecks in LA or not making a Sony movie about "brainstorming" a "Total Recall Invention"? You do the math. The "New Memorial Day" after the coup, after the ElectricWindmillCar is on the streets of Manhattan in Times Square. LOST will have the worst Ending of any show. "Total Immunity" invention movie by Sony will not be made until the current CEO of Sony is put on trial for "Oil Genocide" goings-on! Write this Sony movie in your Mind... SMART CAR - No super air bags on the outsides... Our

"Orwellian Caesar" suppressed super air bags on the outsides of cars and trucks for 10 years, since I invented this 10 years ago. To add insult to injury our "Orwellian Caesar" went on a killing rampage, killing thousands of American Civilians in Smart Cars. On every Memorial Day the last few years SMART CARS kills were caused by our "Orwellian Caesar". NBC "Today Show" never has and never will report on a Smart Car wreck. It's "Total Suppression" by NBC GE for gov perks and bribes of Billions of dollars to kill people in Smart Cars and gasoline cars. GE could possibly be put on trial for Genocide before the UN's Genocide Trail starts in Manhattan. WHO at the UN and everyone else at the UN in NYC and Geneva are guilty of Oil Genocide and several civilians probably more, 100's burn and burn to death every day the UN Top Brass helps suppress the worst Genocide in the History of Earth!

14 May 2010 FBI makes no-arrest in... 1.7 million people contract infections in U.S. hospitals each year. In fact, The truth is several times that number. The proof is in the data. One of the fastest growing Infections is methicillin-resistant Staphylococcus aureus (MRSA), a superbug that doesn't respond To most antibiotics. In 1993, there were fewer than 2,000 MRSA infections in U.S. hospitals. By 2005, the figure had shot up to 368,000 according to the Agency for Healthcare Research and Quality (AHRQ). By June 2007, 2.4 percent of all patients had MRSA infections, according to The largest study of its kind, which was published in the American Journal of Infection Control. That would mean 880,000 victims a year.

14 May 2010 that's from one superbug. Imagine the number of infections from bacteria of all kinds, including Such killers as vancomycin-resistant Enterococcus (VRE) and Clostridium difficile. Julie Gerberding, MD, MPH, director of the CDC, recently told Congress that MRSA accounts for only 8 percent of HAI's. That 8 percent figure was confirmed in a study by Emory University Researchers on April 6.

14 May 2010 these new facts discredit the CDC's official 1.7 million estimate. CDC spokesperson Nicole Coffin Admits, "The number isn't perfect." In fact, it is an irresponsible guessimate based on 2002 data. The CDC researchers who came up with it complained that not having actual data "complicated the Problem."

14 May 2010 Numbers matter. Health conditions that affect the largest number of people should command More research dollars and public attention.

14 May 2010 the problem doesn't end there. The CDC has resisted calling

14 May 2010 FBI makes no arrest... Hospital Infection Problem Persists By KEVIN SACK The nagging and largely solvable problem of hospital-acquired infections (Solvable if MIT quits Working on War Toys for the Pentagon) remains as resistant to cure as the germs that contribute To an estimated 100,000 deaths a year, according to an annual government study issued Tuesday.

Despite a renewed focus on prevention and threats of governmental sanctions, hospitals continue To see increased rates of post-operative bloodstream infections and catheter-associated urinary Tract infections, the Agency for Healthcare Research and Quality reported. The rates increased By 8 percent for bloodstream infections and 4 percent for urinary tract infections over the year Before. There was no change in the incidence of bloodstream infections caused by the placement of Catheters in central veins. The only positive news came from a 12 percent reduction in the rate Of post-operative pneumonia. The report concluded that hospital-acquired infections merited "urgent attention."

14 May 2010 FBI makes no arrest Dr. Carolyn M. Clancy, the agency's director, pointed out that projects across the country had Shown remarkable success in reducing infection rates by adhering to basic standards for hand Hygiene, disinfection of patients, sterile handling of equipment and proper use of antibiotics. But At many hospitals those successes have yet to overcome an entrenched medical culture that is criminal, mass murder via MD's and worst the FBI makes no arrest of these MD's!

14 May 2010 FBI makes no arrest "Despite promising improvements in a few areas of health care," Dr. Clancy said, "we are not Achieving the more substantial strides that are needed to address persistent gaps in quality and Access." Because you can not call a cop to arrest your MD!

21 March 2010 Diagnose Inventions... at Los Alamos... a child swallowing a battery can be difficult to diagnose. As "Early Show" Consumer Correspondent Susan Koeppen notes, they're found in many products in people's homes, but they pose a serious risk for children. The child had the stomach flu. But after a week, Kaiden got even worse. "They finally got an X-ray and discovered that he had swallowed what they thought was a coin." However, what doctors thought was a coin turned out to be a lithium button battery from a remote control in the family's home. Koeppen added the battery wasn't just stuck in Kaiden's throat, it had burned a hole through his esophagus. "I never imagined he could have swallowed a button battery. Never imagined the extent of the damage that it did to him." Kaiden was in the hospital for weeks and needed a feeding tube for months. 3,500 button battery are ingested by kids. You do the math, I for one think the button battery makers have total immunity from all liability cost of kids ingesting button batteries via this Orwellian Oil Genocide Ear mentality that is our Universe!

21 March 2010 BOULDER, COLORADO ON the Hill (were Joe Coors is our local Oil Man King) A 21-year-old man has been ticketed for serving alcohol to a woman who was seriously injured when she fell from the roof of her sorority house last Saturday. The man was identified by Boulder police as Jon Robert Stroker, a member of the Theta Xi Fraternity in Boulder. According to a release from Boulder Police, Rachel Anne Feucht went to a party at the Theta Xi Fraternity on Feb. 2 and consumed large quantities of alcohol, specifically beer and vodka, provided by Stroker. Feucht returned to the Alpha Phi Sorority about 12:30 a.m. Sunday and went to the third floor, the release said. Detectives believe Feucht may have been unable to get into her room because the door was locked, so she went to a vacant room across the hall. It appears Feucht decided to climb out the window and walk across the gutter to reach an outside stairwell that would allow her to get back downstairs. She slid off the roof and hit the ground, just before reaching the stairwell. She was seriously injured and detectives have determined alcohol played a significant role in the incident. disavowal · fetish · fetishization · perversions · perversity · sadomasochism ABSTRACT

This paper illustrates the breadth and depth of the spectrum of perversion and perversity as currently represented in the psychoanalytic literature, raises questions about recent tendencies to include a host of diverse-seeming phenomena under the same conceptual umbrella, and strives to demonstrate what these phenomena have in common that justifies lumping them together under the same rubric. One end of this spectrum is represented by the employment of simple fetishes introduced into a sexual scene in order to promote sexual arousal. Moving along the continuum, one encounters increasing complex behavioral patterns including the enactment of scripts that actualize one's perverse fantasies, including the assumption of complementary roles (e.g. sadomasochism) that equally serve the needs, and represent the desires, of both parties involved. A unique clinical entity, 'perverse modes of relatedness,' lies on the extreme end of the spectrum, representing the reification of the relationship as it becomes little more than a vehicle to take possession and control one's object for the gratification of one's sole needs and desires. What each of these phenomena share in common is both the insertion of a thing or condition - ranging from a simple fetishistic object to an elaborate style of relating that reduces the other into pawn played upon the pervert's chessboard, between the two 'relating' objects as well as a less than honest relationship with reality.

The question of why so many Jews have been so good at making money is a touchy one. For hundreds of years, it has been fraught with suspicion, denial, resentment, guilt, self-hatred and violence. No wonder Jews and gentiles alike are so uncomfortable confronting Jewish capitalistic competence. Still, in his slim essay collection "Capitalism and the Jews," by Jerry Z. Muller reviewed in the New York Times on Sunday Valentines Day 2010 \$

13 Feb. 2010 I signed up for live mail my new email address. Using, learning Windows 7, one tip for you is setting up the user accounts, 2 administrators and 2 users, you have to set up the same things in each account there is no way using win 7 to copy what you set up in one user to another unless you buy a \$500 Network Administrator software, Microsoft will add this feature in win 8. I bought my Win 7 notebook at Best Buy and the Geeks set up my Acer 5532 \$345 tax and \$40 Geek set up total was \$420.

13 Feb. 2010

Tip 2... Best Buy does not sell any notebooks that have an indoor/outdoor screen so if you are living in Key West or going to retire to Key West be sure to get a notebook with an indoor/outdoor screen or you will not be able to see the screen on the beach!!!!

13 Feb. 2010

I bought a 880 gb Seagate usb 2 hard drive for all my files and it works great. Just installed Google Desktop for searching my notebook and. it finished doing the index in less than a few hours. Added the 880 gb Seagate to the index search too. Google need to update their desktop search as the search results only print on half a page cutting off the file name and path in the 3 lines... Google limited the length to half this line when they could extend it out to the end of the page and even use word wrap... I asked them the top brass at Google if they were still working or in Key West. Google did a index on 2 users last night 4 hours each, have 3 more users but said share.... grin.

Letterman, Leno, Oprah commercial was "Orwellian" as all 3 work for "Big Brother", on the couch they could have been in a scene from a 2010 version of the "1984" movie.

13 Feb. 2010

Letterman was Blackmailed for \$2 million. I wrote in my diary that the NYPD will give Letterman a ticket for \$2 million after the coup. Letterman says is this "Blackmail" the cops answer no... all cops burned in gasoline are "White"... Letterman has been on TV for 28 years making money, 30 years ago the Electric windmill car was invented 1980 and then suppressed by Carter-Kennedy and CBS, ABC, NBC! So Letterman owes lots of \$ in back taxes for 100's of thousands burned and burned to death in fiery wrecks.

13 Feb. 2010

Observers are worried about the oil genocide trials for suppressing the electric windmill car and the Tokyo and LA Earthquakes. The \$1 Trillion dollar Medical School in Tokyo, LA, and at Yale in New Haven are waiting for FBI to arrest all the Generals and Senators for tossing gasoline bombs at Toyota's and SUV's driving down the freeways of the USA since 1980. Swiss Bankers the same one's who kept Hitler's money have \$177 Trillion in Oil money and bribes... Clintons, Connie Chen and a million more people have a Swiss Bank account full of oil genocide money.

8 13 Feb. 2010

Clinton lies... about sex at the White House and diet and exercise, coup leaders should build a \$ Trillion dollar Medical School over Clintons old Law School. Yes most lawyers have sex with kids in Thailand too: Heart Attack just a blocked artery. But Clinton went to Switzerland to check on is \$ 1 Billion in a hidden Swiss Bank. and then flew to Hathi and then back to Switzerland then to a NYC hospital. Clinton lies... about the 100's who will burn and burn to death in fiery LA wrecks in Feb. 2010. Clinton and his wife will win a Gold Medal for lies!

Have not heard from SmithKline the big British drug maker, I told them they might suppress Total Immunity, maybe not if the 100's of thousands of cops and kids burned and burn to death in fiery LA Wrecks have pulled off a successful coup by the time I get the Total Immunity invention with my Yale MD wives! 1/16/2010 1:51 Do You Have the 'Right Stuff' to Be a Doctor? By PAULINE W. CHEN, M.D. Published: January 14, 2010 New York Times Not long ago, a friend confessed that her son, who spends much of his free time volunteering at a children's hospital and who is applying to medical school, has been particularly anxious about his future. "His test scores are just O.K.," my friend said, the despair in her voice nearly palpable. "I know he'd be a great doctor, but who he is doesn't seem to matter to medical schools as much as how he does on tests." Her comment brought me back to the many anxious conversations I have had with friends when we were applying to medical school. Over and over again, we asked ourselves: Do we really need to be good at exams in order to be a good doctor? We were referring of course to not just any exam, but to the Big One - the Medical College Admission Test, or MCAT, the standardized cognitive assessment exam that measures mastery of the premedical curriculum. Competition to get into medical school remains fierce, with over 42,000 highly qualified individuals vying for just a few more than 18,000 slots at medical schools across the country.

1/16/2010 1:51 By Egidio DiBenedetto Yale Staff Reporter Published Thursday, January 14, 2010 Every day, the people who work in the Yale research building at 10 Amistad St. pass the security guards now stationed on every street corner and at every point of entry to the building. They must also scan their Yale IDs to gain access at any time of day. They find the heightened security presence reassuring, but it is also a reminder of the tragedy that still hangs over the building. Exactly four months after investigators found the body of Annie Le GRD '13 in the basement of 10 Amistad St., feelings of fear and uneasiness for those working One employee - who asked to remain anonymous because he was once friendly with Raymond Clark III, the lab technician accused of Le's murder - said people do not fear working there because it was a "freak incident" that does not indicate any larger security problem. But beyond the benefits gained from an examination of campus security measures, Lin said the community of people who work at 10 Amistad St. has learned important lessons.

The officer turned, stepped outside his car and recognized the most wanted man in the Pacific Northwest. Authorities accuse Allen, a convicted murderer who served time in an Arkansas prison with Clemmons, of being the getaway driver for Clemmons as he fled the scene of the shootings at coffee shop in Parkland early Sunday. Two women accused of giving Clemmons first aid and rides also may be charged Wednesday in Tacoma, Troyer said. He said Clemmons' aunt, Letricia Nelson, was arrested Tuesday evening in Pacific, northeast of Tacoma, for allegedly giving first aid to Clemmons, helping him change clothes and making arrangements to get him to other locations. Arrested around the same time in Des Moines, Wash., was Quiana Maylea Williams, an acquaintance of Clemmons. Both women are being held in the Pierce County jail. Three other people appeared Tuesday in Pierce County Superior Court. Two brothers, Eddie Lee Davis and Douglas Edward Davis, are charged with rendering criminal assistance. A third man, Clemmons' half-brother Rickey Hinton, was ordered held pending charges.

KATV host Anne Pressly was attacked in her Little Rock home on Oct. 20, 2008. She never regained consciousness and died five days later. Prosecutors said Vance told police he went to her neighborhood looking to steal laptop computers. Anne Pressly, age 26, was found in her own bed by her mom early Monday morning. Pressly's mother typically gives her a wake-up call and she became concerned when her daughter didn't answer. The Little Rock police say the anchor woman was bleeding from "severe wounds."

<<<<< 21 Nov. Thanksgiving >>>>> The parasites could not survive outside mosquitoes. So the "vaccination" had to be delivered by mosquito bite, not needle. And because just one parasite at a time fits down a proboscis, each bite delivers just a few. Because the world now fights malaria - ineptly - with nets, insecticides and drugs, a vaccine is desperately needed. As many as 70 experimental programs exist around the world, eight rival projects are being supported by the Malaria Vaccine Initiative, which was established in 1999 with money from the Gates Foundation. Sanaria's is the sole vaccine using the whole parasite. Injected into a capillary, it rides the bloodstream to the liver and starts making proteins. But after about three days, it stops, and it never floods the blood with copies of itself. Radiation-weakened parasites have protected many lab mice and a handful of humans, but making a vaccine that can be mass-produced is a huge challenge. The lucrative market is made up of tourists and the world's military forces. The larger goal is to protect the 3,000 children who die of malaria each day.

Swiss Bankers will all hang or lose their head!

Texas begins \$3 billion quest to cure cancer. Texas gave birth to the modern oil industry invented the hand held calculator and sent man to the moon. But can the Lone Star State cure cancer? Texas is ready to try by investing \$3 billion over the next decade...
40k women a year die from breast cancer so 400k in this Texas Decade.

Money in cancer research and prevention, which would make the state the gatekeeper of the second largest pot of cancer research dollars in the country, behind only the National Cancer Institute.

At MIT everyone knows MIT and Harvard Foundation has had \$50 Billion in Chase Banks since the invention of the ElectricWindmillCar invention in 1980 wasted none of it to cure cancer...

This is Bankers Genocide, clone of Swiss Bankers taking oil bribes. Not spending the money on a Rx Cancer cure.

They should hang or lose their head!

Gov. Rick Perry said he dreamed of a day "we talk about cancer the same way we talk about polio."

"Texas is now putting out the call to scientists. Come and get the money. Institute leaders say the money will fund drug developments; gamble on high-risk research turned away elsewhere and attract big-name scientists to Texas.

Texas Gambling and Lotto takes in more than \$3 billion.

"That \$3 billion isn't in the my bank," said Dr. Tyler Curriel, executive director of the Cancer Therapy & Research Center at the University of Texas Health Science Center at San Antonio.

Its IBM Supercomputers and Scientists.

Being supercomputer literate reminds me of the French Revolution and the Elite French Literates who killed those not of royal blood or connections. Mandatory University in France... never, ever!

George Orwell does the same today or should I say IBM is in bed with Maria and her husband the French King.

When I went to a community Jr. college in 1972

IBM promised that everyone would be Supercomputer Literate by 2009 and have access to supercomputers.

Bill Gates killed this idea via Greed \$

IBM went along with the Greed \$ of course.

So the masses are not supercomputer literate in 2009. Boulder Public Library, I can't even upload this web to the server as they block all ftp uploads. Public Libraries and University IT people have the same mentality of the French King and Queen just before the Revolution! Part of the our current Revolution besides getting a Rx Cure for breast cancer is traveling 4.3 light years in 700 NASA Shuttles dock together like a train. Not a Bullet Train like Japan's but a Monorail train 75' wide and 100 yards long on 2 rail. Mexican semi drivers eating while texting can handle driving their semi onto a monorail and parking it for the cross country trip, saving the lives of gringos. Statistics are suppressed by our President George Orwell as we can all imagine they are into the thousands killed by Mexicans, just the Mexicans with no drivers license in Boulder, Colorado have killed several bike riders. This is one government run genocide that will kill a gringo a day until a successful electricwindmillcar coup, then I will gain control of the front page of the New York Times and publish these top secret statistics and the gross accident pictures. One of my inventions that could have saved thousands in the last decade is super air bags on the outside of semi trucks and cars. Our George Orwell and his Roman Senators deleted this invention causing thousands of broken bones and deaths. This is a genocide too!

Yale Medical Students and the Medical Students Dr Chen writes about lost out on LIFE because of these eccentric crimes of greed and suppression. Addressing distress in medical training will require navigating a difficult balancing act. "The scope of clinical practice is so incredibly broad that you have to train for years and years to fulfill just a minimal level of competence." Edge - I must tell Chen the "Edge" is MD's and Inventors having the Los Alamos supercomputers Dr. Chen's point is losing their edge in Medical School. I will tell Dr. Chen they never had the edge without the IBM Supercomputers Los Alamos has. Yale Medical School Professors are not literate in Microsoft 7 let alone IBM's #1 Supercomputer on Earth parked at Los Alamos!

Dr. Chen writes for the New York Times, she is a organ transplant MD who has never ever written a story about Mandatory Organ Donation or selling organs to Saudi Prince's. She wants to be one of the Coup Leaders but is afraid of the Pentagon, Roman Senators... George Orwell.

Your diagnosis via IBM's Supercomputers at Los Alamos and its scientists... this is having the edge!

Inventors like Greg Buell Lovestar are working on finding ways to support the well-being of residents and practicing physicians. Many of these potential solutions are premised on two things: acknowledging the distress, then helping doctors find meaning in their work by supporting the ideals that inspired them to become doctors in the first place. "Most of us got into this profession because of passion for medicine, for taking care of people," "But somewhere along the way, it gets drummed out. We have to figure out the best ways, the right way, for different individuals to thrive."

So no one is supercomputer literate in 2009, Professor, student and Inventors! University is only free if you live in Saudi Arabia too.

48 Hours: It could have been worse, at least it wasn't a producer from 'To Catch a Predator.' CBS producers could have caught the New York Times editors with teen prostitutes in Vegas. Katie Couric reported everyone visits teen prostitutes when in Vegas. End of story. 48 Hours could have done a show in Boulder Colorado on small business owners visiting, working in Thailand and having sex with kids. Edge, Bruno, and their engineers at the Avalanche Beacon factory here set up shop in Thailand just so they can have sex with kids, now their addicted to this kind of sex. And if I get the YouTube videos of this sex before the coup our President George Orwell and his Roman Senate made it illegal to expose these old farts, its illegal in our George Orwell Society to show Vick killing dogs on video, beating the hell out of his white women too. After the electricwindmillcar coup these sex (and violence videos) of small business owners with kids will be on this web page! You be the judge, jury, and executioner then.

A group of Palm Beach County deputies headed to Key West on a weekend motorcycle trip had their vacation cut short when one of the motorcycles caught fire Friday, severely burning the man who had been riding it, the Florida Highway Patrol said. They stopped at a Shell gas station in Marathon to fill their tanks when his motorcycle fell over on him and burst into flames. Trapped under the burning Harley Davidson, Ragali suffered burns on 50 percent of his body before the other deputies could pull him out. Within seconds, the fire spread to a mini van at a pump nearby. A store clerk rescued two toddlers in the van and a bystander before the fire reached their car seats, Santangelo said.

This is reason to scream this is Treason by Carter and wife Roslyn all the Pentagon Generals for abdominal crimes of burning cops and kids in gasoline for \$ oil money. "We want to present the truth about every aspect of our live and times suppressing the ElectricWindmillCar" Carter said.

Treason at the Pentagon for abdominal crimes your flesh sizzling in gasoline.

Off Limits... Commanding Officer at Camp Pendleton is guilty of Treason, for Oil Money and Motorcycle Sales Money, 2 treasonous acts for more money!

CAMP PENDLETON, Cal if. - Sgt. Adam Bosley was back from his third tour of duty in Iraq and waiting to head to Afghanistan when he bought a sleek, souped-up motorcycle capable of high-speed cornering and explosive acceleration.

Days after buying the machine in August, the 29-year-old Marine was dead after he lost control of the sport bike on a San Diego highway ramp, struck a guardrail and tumbled down a ravine.

The military lost 124 members to motorcycle accidents in a year

Motorcycle deaths are also up nationally, as bike sales and registrations rise. Deaths last year increased for the 11th straight year - from 2,116 in 1997 to an all-time high of 5,290, the National Highway Traffic Administration said.

The Army reported a 34 percent rise in motorcycle fatalities from 2007 to 2008, and the Marines and the Navy also reported significant increases.

Off Limits.. the New York Times put Alpha Centauri 4.3 light years from Earth off limits in its news!

The planet, COROT-7b, the first planet outside our solar system to be confirmed as a rocky body - most other known planets are gas giants. The planet is nearly twice the size of Earth and about five times the mass of our world. Calculations have indicated it has a density about that of Earth's, which means it is likely made up of silicate rocks, just as Earth's crust is. The planet is likely much less hospitable to life though, as it is only about 1.6 million miles (2.6 million km) away from its parent star - 23 times closer than Mercury sits to the sun. Because the planet is so close to the star, it is gravitationally locked to it in the same way the Moon is locked to Earth. One side of the planet always faces its star, just as one side of the Moon always faces Earth. This star-facing side has a temperature of about 4,220 degrees Fahrenheit (2,326 degrees Celsius) - hot enough to vaporize rock. So unlike the much cooler Earth, COROT-7b has no volatile gases (carbon dioxide, water vapor, nitrogen) in its atmosphere. Instead its atmosphere consists of what might be called vaporized rock. "The only atmosphere this object has is produced from vapor arising from hot molten silicates in a lava lake or lava ocean,"

Carbon monoxide emitted by traffic may be harmful even at levels far below those considered safe by government standards, a Yale study has found. An odorless, tasteless air pollutant released by cars in traffic, carbon monoxide is associated with an increased risk of hospitalization due to cardiovascular illness among the elderly. The primary source of carbon monoxide is traffic exhaust, so concentrations in suburban and rural areas are likely to be lower and less dangerous than in urban areas of high traffic density. Of the 126 counties studied, New Haven's mean carbon monoxide concentration, at 1.1 parts per million at the peak hour of particulate concentration, was slightly lower than those of other counties studied. Jefferson, Ala., had the highest mean concentration, at 4.3 parts per million.

So when, just before lunch on Sunday, the news broke that Mr. Polanski had been arrested overnight at the Zurich airport on an outstanding warrant relating to a conviction for sex with a minor back in the 1970s, my first response was to feel almost physically sick. Mr. Polanski has become a good friend. Our families have spent time together. His daughter and mine keep in regular touch. His past did not bother me, any more (presumably) than it did the three French presidents with whom he has had private dinners, or the hundreds of actors and technicians who have worked with him since 1977, or the fans who come up to him in the streets of Paris for his autograph. cui bono, as the Romans used to say - who benefits?

We were having dinner when Mr. Polanski's agent, Jeff Berg, rang to say he had just seen it. He conveyed good news: the film was unexpectedly favorable to the director, revealing just how bizarre had been the judge's handling of the original case.

For Mr. Polanski, this was a moment of triumph. However, by a terrible irony, it was also at this moment that the seeds of his present predicament were sown. He thought he could settle the matter at last, and his subsequent, vigorous legal attempts to have the case against him closed - supported, remarkably, by his victim, Samantha Geimer, the one person who comes out of this affair with her dignity enhanced - clearly infuriated Mr. Cooley. Legal authorities the world over loathe being publicly criticized. After the arrest was announced, Mr. Cooley declared that Mr. Polanski "has been trying to get it resolved on his terms, but it's going to be on the terms of the Los Angeles County justice system."

(If Polanski's rape video was put on YouTube by the LA Cops France not Switzerland would have sent Polanski back to the USA in a damaged condition)

It sounds very much as though Mr. Polanski became overconfident, both in the rightness of his own cause and in the safety of Switzerland as a refuge - a country that after the credit crisis suddenly seems to be much more eager to cooperate with international authorities. Its volte-face on its famous guest has drawn understandable contempt and Mr. Polanski, in his cell, now has plenty of time to ponder the limits of Swiss hospitality.

I make no apology for feeling desperately sorry for him. The almost pornographic relish with which his critics are retelling the lurid details of the assault (strange behavior, one might think, for those who profess concern for the victim) makes it hard to consider the case rationally. Of course what happened cannot be excused, either legally or ethically.

But Ms. Geimer wants it dropped, to shield her family from distress, and Mr. Polanski's own young children, to whom he is a doting father, want him home. He is no threat to the public. The original judicial procedure was undeniably murky. So cui bono, as the Romans used to say - who benefits?

Researchers have created the first full-star simulation of the hours preceding the largest thermonuclear explosions in the universe

Type Ia supernovae are of particular interest to astrophysicists, as they are all believed to be surprisingly similar to each other. Based on observations of these massive stellar explosions, scientists believe our universe is expanding at an accelerating rate.

"We're trying to understand something very fundamental, which is how these stars blow up, but it has implications for the fate of the universe," Ann Almgren of Berkeley Lab's Computational Research Division said. "Few have tackled this problem before because it was considered intractable. We needed to simulate the conditions for hours, not just a few seconds. We are now doing calculations that weren't possible before."

Sony today announced the development of a single lens 3D camera technology capable of recording 3D images of even fast-moving subject matter such as sports, at 240fps (frames per second). This technology combines a newly developed optical system for single lens 3D camera which captures the left and right images simultaneously, together with existing high frame rate (HFR) recording technology to realize 240fps 3D filming. Sony will demonstrate a prototype model incorporating this technology at "CEATEC JAPAN 2009", to be held at Makuhari Messe convention center in Chiba city, Japan, from October 6th. In existing half mirror 3D camera systems with separate lenses for the left and right eyes, the parallax range is adjustable, enabling the depth of the 3D images to be modified. However, when operating the zoom and focus functions of such systems, the sensitivity of the human eye, in particular to differences in the size and rotational movement of dual images, as well as any vertical misalignment or difference in image quality has meant that complex technology has been required to ensure that each camera lens is closely coordinated, and there are no discrepancies in the optical axis, image size, and focus. The introduction of a single lens system resolves any issues that may occur as a result of having different optical characteristics for each eye. Furthermore, by using mirrors in place of shutters, incoming light can now be simultaneously separated into left and right images and recorded as it reaches the parallel light area (the area where diverging light from the point of focus on the subject matter becomes parallel) of the relay lens. The separated left and right images are then processed and recorded with the respective left and right image sensors. As there is no difference in time between when the left and right eye images are captured, it is possible for natural and smooth 3D images to be captured, even of scenes involving rapid movement. Optical tests have shown that a frame rate 240fps represents the limit of human visual perception, and beyond that it becomes difficult to detect differences in terms of blur and "jerkiness" of moving images (where images that were continuous are now seen as a series of distinct snapshots). By developing a 240fps frame rate CMOS image sensor with properties close to the human eye, which is capable of capture natural images of even fast moving subject matter, Sony has succeeded in further enhancing the quality of 3D video images. The combination of Sony's new single lens 3D system and its 240fps high frame rate technology has realized a single lens 3D camera system, based on universal properties of the human eye, which enables natural and smooth 3D images with no accommodation-vengeance conflict to be recorded.

Sony plans to deliver new 3D viewing experiences by bringing 3D to the home in 2010.

There's no part of our bodies that we obsess about more than our breasts. Even those of us not prone to health anxiety wonder which, if any, of our everyday habits are upping our odds of getting breast cancer. And it's no wonder we're confused: New scientific reports constantly contradict earlier ones. One week, a new medical study tells us what to eat to prevent breast cancer; the next week, another tells us that diet doesn't make a difference. Is it any surprise even smart women are baffled?

1st week of Leno is over, Leno did not joke about your flesh sizzling in a fiery LA car wreck.

I will work on the Rx Penicillin Miracle Cure for Breast Cancer when ever our George Orwell lets us, Greg his wife's. Sixty third ? year I hope.

I have to retire, got an apt. for 5 Oct at the Social Security office here. All I need is a certified Copy of my Birth at Yale-New Haven Hospital. Sent for this should get it by 5 Oct and will have Medicare, wow - 10 years since I have been to a MD. I will get a physical. I was hoping to go to Yale-New Haven Hospital for a physical with cash from the Electric Windmill Car or one of my other inventions.

1,001 Invention Projects! One is a Portable Satellite dish for the top of your car with several cameras on the top for outside cams and several cams inside watching your driving and dash. Verizon inventions are needed too so you don't have to point the dish south. Also wifi from the Satellite Dish to your office and home, and your Dell notebook. I think Toshiba will do a coup on Dell mini for the screen you can see outdoors. My dell I can't see anything in the sunshine and I emailed Toshiba about their mini and they replied, wow! So I think the next Toshiba mini will be viewable in sunlight. External Wifi antenna would be a nice invention too. Wifi links to the cops so they can see who is driving before they stop the car. Drunks and armed criminals will be seen before the lights come on.

Here in Boulder Colorado the CU freshmen learn to drive the first weeks of classes, I would guess there are 100+ wrecks the 1st week or month of classes. There are no published statistics on car or bike wrecks on the bike paths so we don't know... this mentality is from our George Orwell, everything is Top Secret. One thing I want to mention I found out 3.5 million gringo's have hepatitis. This spike is from all the dirty Mexican Cooks etc... workers in the kitchen. On CU Campus 99% of the kitchen workers are Mexican and they do spread diseases. Our George Orwell keeps these stats a top secret too.

Several other inventions are needed to put portable satellite dishes on top of every car made, and make a satellite dish on the top of your car a mandatory accessory on your Electric Windmill Car.

Yale Murder had been in the news all week. Yale President Richard Levin said the killing could have happened in any city, in any university, or in any workplace.

It says more about the dark side of the human soul than it does about the extent of security measures.

100,000 people have burned in gasoline and Yale President Richard Levin knows this is Gov. Run genocide by suppressing the Electric Windmill Car. Raymond Clark III's attitude led to a deadly workplace confrontation with 24-year-old Annie Le. In a Yale medical school building.

I want to say something here... During aaugner was on the Today Show owned by GE on Friday reporting on the \$1.2 Billion dollar Cowboys Football Stadium her father build out of SPITE for Greg Buell Lovestart, me! I have written on this web that after the Coup on Bush-Obama and the Texas and Saudi Oil Mne every Football Stadium on every Campus will have a State of the Arts Medical School built over it as the Niger football players are low life ringers who gang rape their mothers, daughters and even their grandmothers... this Niger behavior is in a UN report that 99% of riggers in Africa have raped their mom, daughter and grandma. So Bush's daughter on Today Show on Friday had tour of the \$1.2 Billion dollar Dallas Football stadium and a interview with a 12 year old Niger boy.

Were are the 100,000 cops and kids with gasoline burns over most of their bodies, did Jenna Bush take a pill and forget these burn victims of her fathers?

Well back to Greg's retirement. I have not worked a \$10 an hour job since March. Temp jobs from Westaff and Manpower have been all my jobs since 1998 10 years as a temp. at Weststaff and Manpower are all "Orwellian", the girls who call me for a temp job know about the suppression of the ElectricWindmillCar and the small business owners where I'm sent know about the suppression of the ElectricWindmillCar.

In March I finished up a six month temp job at the Avalanche Beacon factory, BackCountry Access. I tried to sell them a new product, a GPS Avalanche Beacon and GPS Tracker, ie for a ski party of 10 at Vail you can keep track of all 10 in your party if everyone had a GPS Tracker. I don't know if Bruno and Edge are going to make this or try to sell it to Sony. As a party of 10 visiting Tokyo would need a hand held GPS Tracker to keep track of everyone in their party in Tokyo. I would like to get at least one wife from Tokyo, a supercomputer literate woman from NEC, to help brainstorm the Rx Penicillin cure for Breast Cancer and 1,001 other invention projects.

Bruno and Edge the owners harassed me, spit on me for not massacring women and kids in Vietnam, and let the engineers from Nepal and India spit on me for not massacring women and kids in Vietnam.

So I have to do something. Oh, These guys visit Thailand and of course have sex with kids, our George Orwell observers have made comments about this on and off for a year but no arrest ???

The New York Times put a front page story in the paper last week that my idea to expose domestic violence on white women via nigers put them on YouTube videos. This is illegal in our George Orwell Society... I should have guesses as much!

I also had a six month temp job at Blue Mountain Arts Greeting Cards and Susan Shultz the writer and owner serves sugar bowls of cocaine at her parties, has been going on since 1975 when the woman I was living with in Estes Park when to one of her parties. She came home and told me about all the sugar bowls of cocaine at the party. The parters and cocaine has been going on from 1975 to 2009 really! Millions of dollars in greeting card profits went for cocaine! I want to expose how much of every dollar from every small business goes for cocaine and for the rappers songs cd's etc

One of our George Orwell observers said she would get me a job but nothing so far and no donations in my post office box as our George Orwell will not let anyone a send a check.

Ten years between MD visits so I need to get a physical and our Health care debate will go on until after the Coup. \$6.50 is the cheapest Medicare plan \$79.50 is the most expensive plan, this is the plan I will pick. I just read a message on the Senior news group that said Social Security will not let you get Medicare until you are 65 unless you live in poverty, will I made \$3,800 in 2009 so I live in poverty I will try to get on Medicare on Oct 5th. Unless of course I get a windfall \$\$\$

Dark side of men who murder at a Medical School are the MD's who are addicted to greed more than the Texas and Saudi Oil men (And Bill Gates who knows about all the government run genocides). 100,000 burnt in fiery car wrecks have to pay for their burns in an Oil Genocide Era. MD's at Yale know this.

Dark Side of men will be on the front pages of the New York Times after the Coup when I write the Headlines. Yale Presidents, all will be arrested for mass murder after the Coup.

Annie Le was from Vietnam, all the old Generals in North Vietnam will be arrested and hanged for mass murder too. Burning Vietnamese in gasoline for oil money bribes. The dark side of war and Generals will be exposed in my editorial in the New York Times as these old Generals in Hanoi - Ho Chi Minh City took oil money from Texas and Saudi oil men to let Vietnamese women and kid's burn in gasoline from 1980 to 2009. After fighting so hard to win the war, the North Vietnamese Generals sold out their peasants for a Swiss Bank account full of oil money. Sick!

Dark side of men in my New York Times article will convict these North Vietnamese Generals of mass murder of their own wife's, daughters, grandma's.

In the USA the POW McCain is guilty of mass murder of American wives, daughters, and grandma's via the Oil Genocide Era and the suppression of the ElectricWindmillCar. McCain has a secret Swiss Bank account full of Oil Genocide money too \$\$\$

Yale will have 3 shifts after the Coup, as the Coup Leaders will make the University Education mandatory! Yale Medical School will be free and have 3 shifts of med students too to make up for the Top Brass programming the shortage of MD's so MD's can all be billionaires \$\$\$

Yet Donald Trump would not let the 9-11 victims get \$1 Billion each because he thought this was to much compensation. When the Coup Leaders confiscate all the Texas and Saudi Oil money, several Trillion dollars... 15 to 25 Trillion Dollars \$\$\$ I would guess, everyone burned in gasoline from 1980 to 2009 will get \$1 Billion each, everyone from 9-11 too; this will give Donald Trump a heart attack to say the least, he will be pulling out his hair in madness! A good example of the dark side of mans mentality in the rich and famous.

Dark Side of men is not just murder but being cheap with money too, as this murders someone too just ask Bill Gates!

Cadavers will be mandatory for every FRESHMAN at every University in the USA, as no one knows what the organs do! And my 1,001 Invention Projects you must know your anatomy and physiology.

Leno could not name the Organs in his TEN AT TEN interviews with the rich and famous guest.

I hope to go to Yale New Haven Hospital for my 10 year physical as the inventor of the ElectricWindmillCar as Class and Caste are everything at Yale.

Yale MD's sold organs to Saudi Princes decades after the suppression of the ElectricWindmillCar. Dark side of man, you would think the President of Yale would think before he said this.

Editorial in the New York Times on the Dark side of Man. The 1998 Yale Murder I will ask the FBI to arrest Van de Velde In 1998, Suzanne Jovin, a 21-year-old was murdered, Van de Velde, then an unmarried, 38-year-old former naval intelligence officer served as Jovin's Thesis adviser. Her subject was Osama bin Laden. Early on, authorities identified him as a suspect, though they never said what evidence, if any, fueled that belief. He was hounded by national and local media. He had no alibi. He told police he had been home alone when Jovin was stabbed 17 times in the back and neck on a cold December night and left slumped on the curb of a residential street, three-fifths of a mile from Jovin's home. A month after Jovin's murder, Van de Velde says Yale fired him - canceling his classes, refusing to renew his contract and telling him to stay away from students. Angry and demoralized, he eventually left town and went to Washington, where he worked for three years as an analyst of weapons of mass destruction for the Defense Intelligence Agency. Later, he served in the State Department's diplomatic corps. He now works for a private firm, analyzing WMD and counter terrorism data. "I was destroyed," Van de Velde wrote to the AP. >>>>

2009 >>> We know 9-11 could have been prevented by the people Van de Velde went to work for in DC so I will ask the FBI after the coup to arrest Van de Velda, we will be able to get all the top secret George Orwell cam video and transcripts of everything then. Clintons, both husband and wife will hang if convicted of Oil Genocide profiting!

Yale President and the number of students entering Yale Medical School. This is the dark side of man and the JAMA, all the medical and science Journals are to expensive for Greg and 1,001 other inventors to read. I have been complaining about the cost of reading medical journals for decades and Observers at Yale did nothing to make them free to read. This is the dark side of Men at Yale I will write about in the New York Times when I gain control of the paper! And make some YouTube videos on.

Yale President Levin and vice president Lorimer know about the UN's criminal behavior in suppressing H and clean drinking water for 1 Billion people - read this story about the building Le's dead body was found in, the building is 2 years old and uses H2O to flush toilets not get H and O from rainwater.

Dark side of man, were do the women like Linda Koch Lorimer, Yale's vice president play their role model in the dark sides of MEN?

Ms. Le's promising life ended in the basement of an ultramodern science building that has what other graduate students at Yale described as tight security. A lab building on Amistad Street. The building, open for only two years, was planned to be energy efficient and environmentally friendly. Among other things, it collects rainwater on the roof, treats it and circulates it through the building to flush the toilets.

Linda Koch Lorimer, Yale's vice president is not a Goddess role model for Yale Men who want to get the Rx Penicillin Miracle

No serendipity for how gravity is generated or getting an Rx Penicillin Breast Cancer cure via serendipity! No 1,001 Invention Projects on this web page for your 3 day weekend work!

Caroline Kennedy could be hanged by the Coup leaders as Ted Kennedy watched the Hidden Camera Video of the invention of the ElectricWindmillCar in 1980 then after Kennedy got brain cancer he stifled Greg Buell Lovestar from working on a Rx Penicillin for breast cancer via George Orwell

Blacks and Mexicans have profited from this gasoline genocide via our George Orwell who sets the gringo cat on fire along with 100's a day in LA fiery wrecks and no Rx Penicillin miracle cure for Breast Cancer! 100 breast cancer deaths every day all semester and no one will let you in on these statistics or who fired Greg Buell from the CU Bookstore. Genocide via our George Orwell's suppression and firing Greg Buell Lovestar at the CU Bookstore, I was replaced by a Mexican who will never ever work on a Rx Penicillin Miracle cure for Breast Cancer.

In this picture in the small flames in front of the burning gasoline tanker is a SUV with Mom Dad and 2 kids in the back seat, are burning to death. Bush, McCain and Kennedy did this to Americans. This is a hate crime because 99.9% of those burned in gasoline since the invention of the ElectricWindmillCar in 1980 are white cops and kids in the back seat in the fiery car wrecks.

As George Orwell does not want me to get you Mad as Hell, set your Madness on fire via gasoline, expose anyone set on fire via gasoline in Our George Orwell's Oil Genocide Era from 1980 to 2009, No serendipity for how gravity is generated or getting an Rx Penicillin Breast Cancer cure via serendipity! Long time cops and kids in LA have been burning in fiery car wrecks on the LA Freeway. 1980 to 2009!

I think Caroline Kennedy will be hanged on the first day of the Coup...

22 Aug 2009 ---- gov. perks for Blacks and Mexicans, even on NBC Today Show Hero Al Roker while GE spits on Officer Jason burned to death sitting in his cops car writing a niger a ticket, Matt and all the women went on and on making Al Roker a Saint instead of a "Vick" setting the dog on fire via gasoline... GE profits from this gasoline genocide! CIA was blackmailed to let the

Temps are now USA Citizens while our George Orwell hires Mexicans and Blacks without a resume or background check. Best Buy, Safeway, Kroger, Stop sign holder at every construction site everywhere Mexicans are working. CU Campus CU Bookstore Mexicans replaced Gringos, via orders from the TOP our George Orwell... only in a "Oil Genocide Era" would they set so many cats on fire while in LA 100's a day burn and burn to death in fiery gasoline wrecks. Breast cancer Rx Penicillin cure is spit on by the 5 women who run the CU Bookstore this semester how many women will die of breast cancer this semester... don't ask in the CU Bookstore they will spit in your face and call a Mexican to escort you out the door without letting you stop to read a textbook.

New York Times Today 10 Aug 2009

CBS Early show had 1 Orwellian comment this morning, about suppressing the electricwindmillcar since 1980 caused a cascade of government genocides... one on top of the other leading up to today when our "George Orwell" has several "cascading genocides" all going on today killing 100's today and tomorrow just in the USA. All are government run genocides. From burning in gasoline in fiery wreck, to mom drinking Coors, smoking pot with the kids in the mini van, to fat with no Ephedra, to MIT scientists working on War Toys today instead of a Rx Penicillin for Breast Cancer. And their are several more on going genocides just read the rest of the web page. Last I have to mention I'm still suppressed by our local MD's in Boulder CO and the Tebo Family Cancer Center from working on a Rx Penicillin cure for Breast Cancer Today and Tomorrow. No telling when our "George Orwell" will come out from behind the hidden cameras and put Greg Buell

Lovecar is work with a few wife's... ps if you are a gov. employee or former one and want to help jena cast as our George Orwell has kick me out of the CU Bookstore as cashier as I stopped to read to many text books on the way back from break. They hired Mexican Pit Bulls for cashiers who never, ever read a text book on the way back from break! Grin.. Only our "George Orwell" could "cascade" so many genocides! Even Mexican Pit Bull Cashiers are a Genocide as they lost 1 billion social inventions from the gringos who were fired!

Fiery Wrecks on the 4th of July 2009 will go unreported in our Orwellian Nightly News...

4th of July 2009 Inventors will go with...

4th of July 2011 Greg still wants a Intel Xeon CPU for his notebook, my windows 7 notebook locks up the mouse every day few times as I write a new web page... and there is no way to fix it. Without spending hundreds of dollars. More than the Acer notebook cost! Inventor OS will replace windows 7 before windows 8 comes out.

4th of July 2009 Inventors will go with a dual-socket Intel Xeon 5500-series system. The Xeon (DP) W5580 offers more speed than the AMD 2400 series. HP offers the W5580 processor only in a 1-way configuration in its Z800 system, which sells for about \$6700. A dual-socket E5530-based Z800 is available for \$7800. Dell the only major vendor to sell a dual-socket W5580 workstation. A Precision T5500 system equipped with two W5580 processors currently sells for about \$6620.

Make this 4th of July 2009 a Fiery Independence Day for "our" Observers who are watching but not watching out for a Rx Penicillin Cure for Breast Cancer in July 2009!

27 Sept 2007 My BDay present from GM is more gasoline cars

27 Sept 2007 My BDay present from Cops is a Coup D'Etat

27 Sept 2007 My BDay present from "Women Observers" is a few Wives

9-11 would never have happened if the Electric Windmill Cars were on the streets of the USA in 1980. Kennedy was drunk in 1980 when he was watching me on hidden cameras, he then started the worst gasoline genocide in history. All 100 Senators will end up hanging for the gasoline genocide. This is a large very large picture of Officer Jason with burnt face and with the logos of many fortune 500 corporations who profited via bribes and gov perks to let 10k cops in the USA Moscow and Beijing, like officer Jason burn in their cop car years and decades after the invention of the electric windmill car in 1980. The worst corporations are GE and Bill Gates at Microsoft, and Whole Foods as they are wind powered yet they got bribes and perks from the government to let a genocide go on... that All the MD's at Martin Luther King Hospital are mass murderers, and everyone knows this. Yet Bush can not stop this killing of patients in massive numbers because he would have to admit he ordered it in the first place, via getting them into Yale Medical School and passing them when they really failed at Yale Medical School. ABC Nightly News would have enough on Bush to Hang him in public. City of Boulder DA call to tell me they have a witness to testify against me getting run over in the cross walk on my bike. Of course they hid behind hidden cameras in this Orwellian Society when they called me but I imagine most the DA's in Boulder and in the USA will be arrested for Genocide by cops with faces burned in gasoline

Kerry pulled over by a cop, cop car rearended bursting into flames. Before and after the burns middle picture. Kerry's Rich wife has no comments, \$ 177 Trillion for the Ruling ...

\$1 Billion compensation for burns like these! No not even \$1 million from Kerry + Wife!

Kerry + Wife have \$5 Billion plus the \$177 Trillion from Oil Revenues since 1980 when the ElectricWindmillcar was invented, Kerry watched the video of Greg Buell Lovestars 1980 invention too. Kerry kill this baby's \$1 Billion compensation being Oil\$Whyise \$177 Trillion! and not even \$1 Billion! Why? Kerry's Wife would get \$1 Billion in a fiery Rearended Boston Wreck\$

Kerry +

*Wife have \$177 Trillion in Oil Revenues yet will not give \$1 Billion in compensation for fiery Boston car wrecks - Burns! Why Oil\$whyise \$Wise - No! Trump in NYC vetoed the same \$1 Billion in compensation to wives burned in gasoline, not his, kids burned in gasoline, not his, burned in fiery NYC Wrecks! Greed, this is beyond Greed - Kerry and Trump both worth \$ Billions refuse to give a Billion in compensation that is not even their money, but illegal Oil genocide revenue from suppressing the ElectricWindmillCar since 1980. No wonder why the government has several more spin off genocides all government run and observed today by the CIA and FBI who can give Humanity no Justice in arresting the King of Saudi Arabia and confiscating his \$177 Trillion dollars!
