Gacrux 88 light years from Earth, this star is at the top of the Southern Cross

Mirnosa 420 light years, this star is on the left of the Southern Cross

Delta 250 light years, this star is on the right of the Southern Cross

Acrux 350 light years, this is the bottom star in the Southern Cross

Beta Centauri is to the left of the Cross and is 300 light years from Earth

Alpha Centauri the closest star to Earth is at the bottom left in this picture.

June 25, 2005 ----- C5A cargo planes used to fight forest fires is an invention idea of mine I came up with 3 years ago and sent to General Orwell ha.

It seems Rumsfeld does not want to share his fleet of 100, C5A cargo planes.

Rumsfeld has a private C5A equipped better than Bush's 747... nice perk of the job, grin.

Well 100 C5A's dropping fire retardant bundles that explode over the forest fire would put out the fire instantly.

Pentagon and Bush will not deploy this sernearo. 2005 forest fires have started, now Politics of not putting out the forest fires of the summer of 2005 is going on in our Orwellian society.

I wish I had Observer status and could watch the Top Brass talking about burning Americans to death in forest fires. This would be better than Alias.

Burning Americans to death in fiery car wrecks + forest fires. I wonder if Jay Leno has a monolog for Observers - Imagine the jokes - JOKE - ha

Take along a gallon of water in your Electric Windmill car and you get Oxygen, and Hydrogen from free electrolysis.

get Oxygen, and Hydrogen from free electrolysis.

Rumsfeld knows the electric windmill car would have prevented 9-11 but went after Iraq, not the Texas Oil men who ordered the suppression of the electric windmill car invented by me in 1980 and its invention is on video too. As the Observers in our Orwellian society were watching me.

June 3, 2005 ----- # 2 guy at the FBI Felt was pardoned by Reagan. After this news I though the #2 guy at the FBI today knows about Officers Jason's burns in a rear ended police car 25 years after the invention of the electric windmill car.

#2 FBI guy today didn't go the the "Washington Post" about the suppression of the Electric Windmill Car. Goings-on in the FBI about the suppression of the Electric Windmill Car and me being stifled at getting the cure for cancer and gravity control will be exposed someday.

Take along a gallon of water in your Electric Windmill car and you get Oxygen, and Hydrogen from free electrolysis.

Officer Jason burned in gasoline. Please email his picture to everyone www.officerjason.com click on gallery to see the cop burned in gasoline 22 years after the invention of the electric windmill car.

CNN CBS ABC NBC FOX- No more pretty women reporting the news, you will see a face burnt in a fiery car wreck. Memorial Day for the USA Oil Genocide.

1 May 2005 ----- BROWN DWARF REVEALS MAGNETIC FIELD

The space telescope stared at the minuscule star LP 944-20 in Fornax for 12 hours last December, looking for any evidence of a corona around the object. The star remained unchanged for 9 hours, but then there was an abrupt brightening that lasted about 2 hours.

Astronomers say the surge of X-rays was due to a stellar flare, not unlike the aurora-producing flares of our Sun. LP 944-20 is about 16 light-years away and estimated to be only 500 million years old.

NASA could be designing a new fleet of Shuttles and Space Telescopes if they would be the "Whistle Blowers" on the suppression of the Electric Windmill Car. NASA has made a misjudgment that cost 1,000's of cops and kids their lives in fiery car wrecks decades after the invention of the Electric Windmill Car. NASA's misjudgments cost "Society" dual-core Hubble Space Telescopes, a new model every year - 2005 model Space Telescope was not purchased by the Top Brass at NASA. They ignored 5 billion people on Earth and sold out to Texas Oil men - pain of burning in gasoline never enters the thoughts of NASA brass, for Shuttles or fiery car wrecks - both the top brass at NASA and the Pentagon could of prevented cops and kids burning in fiery car wrecks since 1980. The 2005 Model of the Shuttle and Space station would both have "life boats". A law passed by a non-Bush Senate in a Post Oil Genocide Era, as NASA would never in a million years put "life boats" on Shuttles and Space Stations in their current state of mind.

LP 944-20 is about 16 light-years away. 500 years away from Humanity because of the Top Brass. Cure for cancer and gravity control, my 2 pet invention projects are 500 years away from Humanity too, because of the Top Brass. Even the Pope knew and the New Pope knows about the Electric Windmill cars suppression and they take this to Top Secret to Judgment Day as even the Pope's fear Gen. Orwell more than they fear God. The Electric Windmill car was a Godsend suppressed by Carter, Bush, Clinton

*and Bush + the "Popes" Clinton spent most of his time with "sex" at the same time
1,000's burned and burnt to death in fiery car wrecks - Bush has a black mistress to
take his mind off the 1,000's who burn and burn to death in fiery car wrecks.*

*I take my mind off being stifled by the Top Brass by knowing I will get the cure for
cancer and gravity control when they come out from behind the hidden cameras and
let me work as a Inventor. I will make up for all the lost inventions since 1980. I will
not be getting any black mistresses (grin) but will get many wives for inspiration...
and my wives will get many inventions. I take my mind off being stifled by the Top
Brass by knowing I will get the cure for cancer and gravity control.*

*Faster than the speed of light is possible - by inventing a gravity satellite dish that
sucks in gravity - sends it through a gravity engine - that propels your Shuttle faster
than the speed of light by hooking up with gravities pull and using this same
gravity coming in through the satellite dish for propulsion.*
