University of Colorado accepted into Medical School

59 Women and 73 Men in September 2004

This is not the "ideal state" of governing

Clinton is just one of many millions who did not follow the rules

But Clinton is "1 in a million" who can get the best heart surgery

This is not the "ideal state" of governing

Lies from Bill, and now Hillary will never be totally exposed

Lies from the University of Colorado make front-page news

Gravity control is a social invention, like Bush and Stem cells

My getting gravity control will still be amazing in 3004

President Hoffman is unfit to run a football department

According to the Grand Jury

Grand Jury investigation just mentioned One Department

I worked 8 weeks during Rush at the CU Bookstore - textbooks

I Observed Bullies -

Yes Bullies in the workplace were suppose to be cleaned up!

I suspect Hoffman was bullied by the Football Coaches

Campus Bullies Movie would make a great series of Sony Movies

Hoffman is bullied, she ok's the uses of the word Cunt

Telling CBS its ok to use the word, so the women suing CU

Can not use this against the Football Coaches

In getting money from CU for being called Cunts

I Observed State Employees - screaming and swearing, fighting

Logging onto the Internet all times

Government employees on the web on taxpayer time

1 hour a day, I observed 3 hours a day by many

1st hour of work for 2 employees every day

Were conversation, burritos, and coffee

No matter how many web page orders for textbooks

Needed to be processed and shipped out the door

“Were not going out of our way to get the address correct”

“Type what they typed in on the web order” he ordered me

Though I knew UPS would not be able to deliver the books

I was a Temp - Temps at CU are Niggers

CU Temps - Are Today's Nigger Class, are screamed at at 8:15 am

Coming up to the door - of the bookstore

Door has a card swipe and temps have no badge

Screaming women was a boss

Who didn't go to the Temp Orientation

Screaming women was a boss...

So she screamed don't ever use this door again

And she was the number 2 boss who didn't know

The Personal Directors orientation to the temps.

Told them to use this door 15 mins before start time

Screamer was probably logged on at orientation time

I though the state keeps check of computer use?

The ideal state according to Plato

Is composed of 3 classes

State of Colorado today Temps are the Niger Class Today

And mistreatment breaks ethical, moral, and legal laws!

The stereotype of government workers is a true stereotype

1-hour conversation and coffee to start the day

1 to 3 hours logging on the web out of an 8-hour day

Stereotype of government workers is a true stereotype

Merchant class selling textbooks to the students

Marconi was left out of most Publishers textbooks

Hertz is in the textbooks but there are no test question

About how he got his inventions

How did they invent that?

Textbooks left this chapter out of all the textbooks

Teaching Invention - futuristic course for EDUC, teachers

Publisher's employee looking over the books, I told her this

Teaching Invention - I told the CU Chemistry Professor

Everything helps when you are looking for inventions

I Observed Bullies -

Yes Bullies - "Teaching About Bullies" A required Textbook!

Gravity control is a social invention

Like Bush and Stem cells

Bush will not let me work on Gravity Control

Bush-Kennedy will not let me work on a Cancer Cure

Politics of the Vietnam War in 2004

Kills women + kids today via cancer and suppressing my inventions

Observers who know of my 100 inventions besides the

Electric Windmill Car

Will testify I can get the cure for cancer and gravity control

40k women a year since 1980 have died of breast cancer

Hidden Politics of the Vietnam War

Hidden in our Orwellian Society

Vietnam Vets you see on TV ever day hate me

More than they hate Kerry, I refused to kill women and kids!

*They hide behind hidden cameras with their pissed off revenge
Preventing me from getting a cancer cure and gravity control*

This has been going on since 1980

Breast cancer has killed 40k women every year since 1980

*These psychotic Vietnam vets have kill 40k more women a year
By getting Bush-Kennedy to Behead my working on a cancer cure*

*Lies from Clinton about this "Crime" will come on his deathbed
Lies from his wife caused 40k women's deaths since 1980*

Politics of the Vietnam War

Kerry killed 100's of women and children in Vietnam

*Clone of Kerry - Greg who refused to massacre women and kids
Invents the Electric Windmill Car + is suppressed by Vietnam Vets*

*Vets in a psychotic mental state over "Baby Killers" in textbooks
And Kerry's confessions about killing 100's of women and children*

Memorial for the Breast Cancer deaths

DC Memorial of burned out cop cars and moms mini vans

Texas and Russian Oil men in a psychotic state over Oil Money

Baby Killers who burned kids in the back seat of fiery car wrecks

For more oil money

Russians infected by Texas Oil Men

Husbands and wives burn and burned to death in gasoline

24 years after the invention of the electric windmill car

This is not the "ideal state" of governing

"A Confession" by Tolstoy

"THE CONFESSIONS" OF JEAN-JACQUES ROUSSEAU

"A Confession" by Tolstoy

Confession by Tolstoy + The Confession by Rousseau

NO Professor! Ordered these books for any class at CU

“Baby Killers” Kerry killed babies in Vietnam

General Powell was a black rapist in Vietnam

Yet General Powell will not write in his autobiography

About the women he raped in Vietnam

We need to write Powell's autobiography

We need to re-write Clintons autobiography

In "1984" as the Top Brass who know all the lies

As the Grand Jury who knows the true story

In HIST 2240 one of the books is titled

“Rape in War” No Generals are named as Rapists in War

Grand Jury should write their reports here too

Name the names of the rapists Generals you see on tv

A “1984” biography should be written of Gen Powell

A “1984” biography should be written of the men who are Senators

Textbook department has 3 versions of the book

Autobiography of Ben Franklin

Tolstoy, Rousseau, Bush, Kerry, Clinton, Powell

A "1984" biography should be written of government Leaders

Lies from Clinton will come on his deathbed

Lies from his wife lost the cure for cancer and gravity control

Era of a Ex President lying in a best selling book

In an Orwellian Society were only the Top Brass know it's all lies

Cameras in the White house and Senate

24/7 in a "1984" Society were we listen to their lies by live web cam

Lies from Clinton and Senators

Will be History, if we can watch them on live web cams

Video camera put into 747's in 1990 would of prevented

9-11

Pilots who read this invention idea on my web page in 1990

Vetoed the invention of cameras in the cockpit

Cameras in the Doctors office is on my web page

MD's publicized Clinton is 1 in a million in getting surgery

MD's do not care who gets the worst care

So you will never see cameras in your Doctors office

Bookstore has 22 cameras and caught 11 shoplifters

Cost of the cameras and security men was \$1 million

You do the math

You can change government workers with cameras watching

Bullies in the workplace caught on camera - grin

Security men will have no best buddies to wine and dine - ha

Bookstore has 22 cameras

100 cameras should be in every Senators Office and Home

Lies suppressed the Electric Windmill Car since 1980

Putin was infected by Texas Oil and lost 350 kids last week

Putin was out spending his ill gotten Oil Genocide Money

Instead of being a Russian President, KGB director

9-11 would never have happened with the Electric Windmill Car

On the streets of Manhattan

Bush, Kerry, Clinton, Powell all know about

The Electric Windmill Car invented in 1980

Look what just happened to Putin

He was living a high life spending Oil Genocide money

No one wrote his daily biography of spending Oil Money

Now 350 are dead because he was partying with Oil Kings

Those watching shoplifters should of been watching Putin

Save the lives of 350 kids by exposing a President spending oil \$\$\$

NASA wined and dined Oil Kings in Texas

And Lost 2 Shuttles

Biography of NASA will never "tell all" about the Oil Money

The on the job Bullies at NASA who wanted to party with Oil Men

The ERA of Oil Genocide and the Electric Windmill Car

Conversations at NASA should of been on security cameras

Bill Gates was infected by the Oil Genocide too

He killed off millions of inventors by the cost of his Software

And infected "all" other software companies

To overcharge to the point of killing millions of inventors

Bill Gates is a mass murderer of inventors

In my autobiography - in the Real World

One in a million is all Bush-Kennedy wants

Out of the masses of 5 billion people to be a inventor

I want millions out of a billion to be inventors

I want millions out of a billion to be inventors

I want millions of MD to replace the 59 women

I want millions out of a billion to be MD's

I want cameras in your MD's office

I want your exam on recorded on a web page

I want to work 24/7 on a cure for cancer

And gravity control with you watching me on a web cam

These inventions will have no "1984" imitator

Marconi was almost "beheaded" before he got radio

Sending voices through the air is amazing today

Getting gravity control will still be amazing in 3004

Bush-Kennedy have "beheaded" my getting the inventions

Just read my web page... www-inventor-warp-speed.com

*Observers who know of my 100 inventions besides the
Electric Windmill Car*

*Will testify I can get the cure for cancer and gravity control
Bush-Kennedy have "beheaded" my getting the inventions*

*Kerry has not called or made any Orwellian Comments on TV
Saying he will let me get these 2 invents and 1,001 others*

Vietnam Vets you see on TV ever day hate me

*More than they hate Kerry, because I refused to kill women and
kids!*

*Yet they hide behind hidden cameras with their pissed off revenge
Preventing me from getting a cancer cure and gravity control*

This has been going on since 1980

In our Orwellian Society hidden behind the hidden cameras

Government leaders are corrupt + psychotic

From Pukin and Russian Oil money

*To Colorado State employees wasting the 1st hour of work
Just to log on the web for 2 more hours during the day*

To President Hoffman

Incompetent to run the football department

On the Front Page of the Newspapers

Journalist have been in the bookstore

I know because I helped them find textbooks

Mexican temp. I worked with for 8 weeks

Has 9 DUI's and got away with all of them

I told him joking I will tell a investigative Journalists

And he will be on the front page of the newspapers

He laughed - not knowing if someday he will be news

Rousseau was born in Geneva in 1712

Today Observers in Geneva know about the Electric Windmill Car

Some in Geneva have made as much money as Putin from oil

Only 1 in a million in Geneva have viewed Officer Jason's

Gasoline burned face picture on my web and his web page

CNN and CBS will not let Julie Chen interview 100's of Jason's

Burned in fiery car wrecks

All you get to see on the government controlled news

Is a one-minute video clip of 35 car pill ups with a few flames

CNN and CBS are not allowed to show you the burned people

I have skied dramatic dynamic parallel skiing

Down Breckenridge slopes

Today on their web cam there was snow in the picture

I will get some web cams set up when I start working 24/7

On a cure for cancer and gravity control so you can watch me

MD's will resist having their workday on web cameras

Clinton will get his surgery this week

*Million others will die of the exact heart problems Clinton has
University of Colorado accepted into Medical School*

59 Women and 73 Men in September 2004

This is not the “ideal state” of governing

*Bush’s MD helps suppress the Electric Windmill Car
And millions who would be MD’s*

Bill Gates has murdered millions of inventors

Bush’s MD has murdered millions of aspiring MD’s

This is not the “ideal state” of governing

Open Space land in Boulder Colorado has more President

Than the Universe - the nearest Star, Alpha Centauri

In the minds and hearts of Government workers in Colorado

Lies from Clinton will come on his deathbed

Lies from his wife cause the loss of the cure for cancer

My inventions will have no "1984" imitators

Cure for Cancer and Gravity Control are Real Inventions

I will get if I don't get Beheaded

By government workers first!

One in a Million can get the Best Heart Surgery
